Beyond Listening Clark, Alison, Peter Moss, Kjørholt, Anne Trine, 2005-10-19 From both an international perspective and through combining theory practice and reflection this book examines critically how listening to young children in early childhood services is understood and practiced Politics and the Poetics of Migration Parin Dossa, 2004-03-01 This book uses gendered stories of displacement and re settlement to interrogate our understanding of social suffering and justice Parin Dossa an anthropologist argues that systemic inequity and exclusionary practices impact the health and well being of marginalized people Using narrative accounts of Canadian Iranian women this book links individual experiences of migration to social and political factors Dossa challenges conventional thinking that interprets social suffering in terms of personal stake and individual accountability She questions the ways in which racialized and gendered inequality in Canada are perceived as cultural differences instead of social oppression Yet this book is far from a laundry list of social determinants of migration and health Dossa s illustrative stories are linked to a poetics of migration that shows the remaking of a world with a more informed sense of social justice A pioneering study on migration and storytelling this book is an important contribution to medical anthropology migration and gender studies Savage Attack Crispin Bates, Alpa Shah, 2017-07-06 In Savage Attack Tribal Insurgency in India the authors ask whether there is anything particularly adivasi about the forms of resistance that have been labelled as adivasi movements What does it mean to speak about adivasi as opposed to peasant resistance Can one differentiate adivasi resistance from that of other lower castes such as the dalits In this volume the authors move beyond stereotypes of tribal rebellion to argue that it is important to explore how and why particular forms of resistance are depicted as adivasi issues at particular points in time Interpretations that have depicted adivasis as a united and highly politicised group of people have romanticised and demonized tribal society and history thus denying the individuals and communities involved any real agency Both the interpretations of the state and of left wing supporters of tribal insurgencies have continued to ignore the complex realities of tribal life and the variety in the

expressions of political activism that have resulted across the length and breadth of the Indian subcontinent
