Building Communication Theories Fred L. Casmir, 2013-10-16 Concern with various matters related to humans as they communicate has led to an increase in both research and theorizing during the second half of the 20th century As a matter of fact so many scholars and so many disciplines have become involved in this process that it is virtually impossible to understand and appreciate all that has been accomplished so far This book focuses on one important aspect of human sense making theory building and strives to clarify the thesis that theories do not develop in some sort of social intellectual or cultural vacuum They are necessarily the products of specific times insights and mindsets Theories dealing with the process of communication or communicating are tied to socio cultural value systems and historic factors that influence individuals in ways often inadequately understood by those who use them The process orientation of this book inevitably leads to an emphasis on the perceptions of human beings Thus the focus shifts from the subject or area called communication to the act of communicating Finally this volume offers insight into how the process of human sense making has evolved in those academic fields commonly identified as communication rhetoric speech communication or speech within specific socio cultural settings

Communication in the Jewish Diaspora Sophia Menache, 2024-01-22 Although Jews lacked a political locus standi for a communication system in the Middle Ages and Early Modern periods their involvement in trade and the close relations among Jewish communities fostered the development of effective channels of communication This process responded primarily to security and socio economic considerations but it has important implications for the development of communication systems as well Written by some of the most outstanding researchers in the field of Jewish history this collection offers a rich and consistent picture of the main developments in communications in the Jewish world before the era of mass media This pioneering research reconsiders the principal means of communication among the Jewish communities in the Islamic world Christian Europe the Ottoman Empire and the New World from the seventh until the nineteenth centuries

Theoretical Principles of Sociology, Volume 3 Jonathan H. Turner, 2012-06-05 The meso level realm of social reality is structured by corporate and categoric units along with their respective cultures Unlike the macro and micro realms of social reality the meso level does not reveal its own unique forces Rather the dynamics of meso structures and cultures are driven by macro and micro level forces pushing on

The Black Utopians Aaron Robertson, 2024-10-01 One of The New York Times s 100 Notable Books of 2024 One of the Washington Post s 50 Best Nonfiction Books of 2024 A Finalist for the Los Angeles Times Book Prize for History Finalist for the Zora Award A New York Public Library Top Ten Book of 2024 A Boston Globe Best Book of 2024 A New Republic Best Book of the Fall A Time Must Read Book of the Year A 2025 Michigan Notable Book A Booklist Best History Book of 2025 Named a Best Book of the Year by The New Yorker Literary Hub Essence Elle Chicago Public Library An extraordinary new work of history and memoir Unforgettable Gabriel Bump The Washington Post A lyrical meditation on how Black Americans have envisioned utopia and sought to transform their lives How do the disillusioned the forgotten and the persecuted not merely hold on to life but expand its possibilities and preserve its beauty What in other words does utopia look like in black

These questions animate Aaron Robertson's exploration of Black Americans' efforts to remake the conditions of their lives. Writing in the tradition of Saidiya Hartman and Ta-Nehisi Coates, Robertson makes his way from his ancestral hometown of Promise Land, Tennessee, to Detroit, the city where he was born and where one of the country's most remarkable Black utopian experiments got its start. Founded by the brilliant preacher Albert Cleage Jr., the Shrine of the Black Madonna combined Afrocentric Christian practice with radical social projects to transform the self-conception of its members. Central to this endeavor was the Shrine's chancel mural of a Black Virgin and child, the icon of a nationwide liberation movement that would come to be known as Black Christian Nationalism. The Shrine's members opened bookstores and co-ops, created a self-defense force, and raised their children communally, eventually working to establish the country's largest Black-owned farm, where attempts to create an earthly paradise for Black people continue today. Alongside the Shrine's story, Robertson reflects on a diverse array of Black utopian visions from the Reconstruction era through the countercultural fervor of the 1960s and 1970s and into the present day. By doing so, Robertson showcases the enduring quest of collectives and individuals for a world beyond the constraints of systemic racism. *The Black Utopians* offers a nuanced portrait of the struggle for spaces, both ideological and physical, where Black dignity, protection, and nourishment are paramount. This book is the story of a movement and of a world still in the making, one that points the way toward radical alternatives for the future. **Reginald**

Rose and the Journey of 12 Angry Men Phil Rosenzweig, 2021-10-05 Finalist 2021 Wall Award Formerly the Theatre Library Association Award The untold story behind one of America's greatest dramas. In early 1957, a low-budget black and white movie opened across the United States. Consisting of little more than a dozen men arguing in a dingy room, it was a failure at the box office and soon faded from view. Today, *12 Angry Men* is acclaimed as a movie classic, revered by the critics, beloved by the public, and widely performed as a stage play, touching audiences around the world. It is also a favorite of the legal profession for its portrayal of ordinary citizens reaching a just verdict and widely taught for its depiction of group dynamics and human relations. Few twentieth-century American dramatic works have had the acclaim and impact of *12 Angry Men*. Reginald Rose and the *Journey of 12 Angry Men* tells two stories: the life of a great writer and the journey of his most famous work, one that ultimately outshined its author. More than any writer in the Golden Age of Television, Reginald Rose took up vital social issues of the day, from racial prejudice to juvenile delinquency to civil liberties, and made them accessible to a wide audience. His 1960s series *The Defenders* was the finest drama of its age and set the standard for legal dramas. This book brings Reginald Rose's long and successful career into view, at long last. By placing *12 Angry Men* in its historical and social context, the rise of television, the blacklist, and the struggle for civil rights, author Phil Rosenzweig traces the story of this brilliant courtroom drama, beginning with the chance experience that inspired Rose to its performance on CBS's *Westinghouse Studio One* in 1954, to the feature film with Henry Fonda. The book describes Sidney Lumet's casting, the sudden death of one actor, and the contribution of cinematographer Boris Kaufman. It explores the

various drafts of the drama with characters modified and scenes added and deleted with Rose settling on the shattering climax only days before filming began Drawing on extensive research and brimming with insight this book casts new light on one of America s great dramas and about its author a man of immense talent and courage Author royalties will be donated equally to the Feerick Center for Social Justice at Fordham Law School and the Justice John Paul Stevens Jury Center at Chicago Kent College of Law
