**Black Towns, Black Futures** Karla Slocum, 2019-09-17 Some know Oklahoma s Black towns as historic communities that thrived during the Jim Crow era this is only part of the story In this book Karla Slocum shows that the appeal of these towns is more than their past Drawing on interviews and observations of town life spanning several years Slocum reveals that people from diverse backgrounds are still attracted to the communities because of the towns remarkable history as well as their racial identity and rurality But that attraction cuts both ways Tourists visit to see living examples of Black success in America while informal predatory lenders flock to exploit the rural Black economies In Black towns there are developers return migrants rodeo spectators and gentrifiers too Giving us a complex window into Black town and rural life Slocum ultimately makes the case that these communities are places for affirming building and dreaming of Black community success even as they contend with the sometimes marginality of Black and rural America

White,2023-02 Segregation Made Them Neighbors investigates the relationship between whiteness and nonwhiteness through the lenses of landscapes and material culture William A White III uses data collected from a public archaeology and digital humanities project conducted in the River Street neighborhood in Boise Idaho to investigate the mechanisms used to divide local populations into racial categories The River Street Neighborhood was a multiracial multiethnic enclave in Boise that was inhabited by African American European American and Basque residents Building on theoretical concepts from whiteness studies and critical race theory this volume also explores the ways Boise s residents crafted segregated landscapes between the 1890s and 1960s to establish white and nonwhite geographies White describes how housing urban infrastructure ethnicity race and employment served to delineate the River Street neighborhood into a nonwhite space an activity that resulted in larger repercussions for other Boiseans Using material culture excavated from the neighborhood White describes how residents used mass produced products to assert their humanity and subvert racial memes By describing the effects of racial discrimination real estate redlining and urban renewal on the preservation of historic properties in the River Street neighborhood Segregation Made Them Neighbors illustrates the symbiotic mechanisms that also prevent equity and representation through historic preservation in other cities in the American West      **Belonging** bell hooks,2008-11 What does it mean to call a place home Who is allowed to become a member of a community When can we say that we truly belong These are some of the questions of place and belonging that renowned cultural critic bell hooks examines in her new book Belonging A Culture of Place Traversing past and present Belonging charts a cyclical journey in which hooks moves from place to place from country to city and back again only to end where she began her old Kentucky home hooks has written provocatively about race gender and class and in this book she turns her attention to focus on issues of land and land ownership Reflecting on the fact that 90% of all black people lived in the agrarian South before mass migration to northern cities in the early 1900s she writes about black farmers about black folks who have been committed both in the past and in the present to local food production to being organic and to finding solace in nature Naturally it would be impossible to contemplate these issues without thinking about the politics of race and class Reflecting on the racism that continues to find expression in the world of real estate she writes about segregation in housing and economic racialized zoning In these critical essays hooks finds surprising connections that link of the environment and sustainability to the politics of race and class that reach far beyond Kentucky With characteristic insight and honesty Belonging offers a remarkable vision of a world where all people wherever they may

call home can live fully and well where everyone can belong      Small-Town Dreams John E. Miller, 2014-03-28 We live these days in a virtual nation of cities and celebrities dreaming a small town America rendered ever stranger by purveyors of nostalgia and dark visionaries from Sherwood Anderson to David Lynch And yet it is the small town that world of local character and neighborhood lore that dreamed the America we know today and the small town boy like those whose stories this book tells who made it real In these life stories beginning in 1890 with frontier historian Frederick Jackson Turner and moving up to the present with global shopkeeper Sam Walton a history of middle America unfolds as entrepreneurs and teachers like Henry Ford George Washington Carver and Walt Disney artists and entertainers like Thomas Hart Benton Grant Wood Carl Sandburg and Johnny Carson political figures like William McKinley William Jennings Bryan and Ronald Reagan and athletes like Bob Feller and John Wooden by turns engender and illustrate the extraordinary cultural shifts that have transformed the Midwest and through the Midwest the nation and the world Many of these men are familiar icons even Ford and Reagan certainly Ernie Pyle Sinclair Lewis James Dean and Lawrence Welk and others like artists Oscar Micheaux and John Steuart Curry economist Alvin Hansen and composer Meredith Willson less so But in their stories as John E Miller tells them all appear in a new light unique in their backgrounds and accomplishments united only in the way their lives reveal the persisting shaping power of place and particularly the Midwest on the cultural imagination and national consciousness In a thoroughly engaging style Miller introduces us to the small town Midwestern boys who became these all American characters privileging us with insights that pierce the public images of politicians and businessmen thinkers and entertainers alike From the smell of the farm the sounds and silences of hamlets and county seats the schoolyard athletics and classroom instruction and theatrical performance we follow these men to their moments of inspiration innovation and fame observing the workings of the small town past in their very different relationships with the larger world Their stories reveal in an intimate way how profoundly childhood experiences shape personal identity and how deeply place figures in the mapping of thought belief ambition and life s course      **Black Life on the Mississippi** Thomas C. **Undivided** Hahrie Han, 2024-09-24 The inspiring story of evangelicals in Cincinnati struggling to bridge racial divides in their own church their community and across the nation In 2016 even as Ohio helped deliver victory to presidential candidate Donald Trump Cincinnati voters also passed a ballot initiative for universal preschool The margin was so large that many who elected Trump must have paradoxically also voted for the initiative how could the same citizens support such philosophically disparate aims What had convinced residents of this Midwestern Rust Belt community to raise their own taxes to provide early childhood education focused on the poorest and mostly Black communities When political scientist Hahrie Han set out to answer that question her investigations led straight to an unlikely origin the white dominant evangelical megachurch Crossroads where Pastor Chuck Mingo had delivered a sermon the prior year that set in motion a chain of surprising events Raised in the Black church Mingo felt called by God he told Crossroads parishioners to combat racial injustice and to do it through the very church in which they were gathered The result was Undivided a faith based program designed to foster antiracism and systemic change The creators of Undivided recognized that any effort to combat racial injustice must move beyond recognizing and overcoming individual prejudices Real change would have to be radical from the very roots In Undivided Han chronicles the story of four participants two men one Black and one white and two women one Black and one white whose lives were fundamentally altered by the program As each of their journeys unfolded in unpredictable and sometimes painful ways they came to better understand one another and to believe in the transformative possibilities for racial solidarity in a moment of deep divisiveness in America The lessons they learned have the power to teach us all what an undivided society might look like and how we can help achieve it

Sweet Land of Liberty Thomas J. Sugrue, 2009-10-13 Sweet Land of Liberty is Thomas J Sugrue's epic account of the abiding quest for racial equality in states from Illinois to New York and of how the intense northern struggle differed from and was inspired by the fight down South

Sugrue's panoramic view sweeps from the 1920s to the present more than eighty of the most decisive years in American history. He uncovers the forgotten stories of battles to open up lunch counters, beaches, and movie theaters in the North; the untold history of struggles against Jim Crow schools in northern towns; the dramatic story of racial conflict in northern cities and suburbs; and the long and tangled histories of integration and black power. Filled with unforgettable characters and riveting incidents and making use of information and accounts both public and private such as the writings of obscure African American journalists and the records of civil rights and black power groups, *Sweet Land of Liberty* creates an indelible history.

**The Geography of Hate** Jennifer Sdunzik, 2023-11-07 The uncomfortable truths that shaped small communities in the midwest. During the Great Migration, Black Americans sought new lives in midwestern small towns only to confront the pervasive efforts of white residents determined to maintain their area's preferred cultural and racial identity. Jennifer Sdunzik explores this widespread phenomenon by examining how it played out in one midwestern community. Sdunzik merges state and communal histories, interviews, and analyses of population data and spatial and ethnographic materials to create a rich public history that reclaims Black contributions and history. She also explores the conscious and unconscious white actions that all but erased Black Americans and the terror and exclusion used against them from the history of many midwestern communities. An innovative challenge to myth and perceived wisdom, *The Geography of Hate* reveals the socioeconomic, political, and cultural forces that prevailed in midwestern towns and helps explain the systemic racism and endemic nativism that remain entrenched in American life.

**Spin Doctors** Nora Loreto, 2021-11-24T00:00:00Z As Canada was in the grips of the worst pandemic in a century, Canadian media struggled to tell the story. Newsrooms already run on threadbare budgets struggled to make broader connections that could allow their audience to better understand what was really happening and why. Politicians and public health officials were mostly given the benefit of the doubt that what they said was true and that they acted in good faith. This book documents each month of the first year of the pandemic and examines the issues that emerged from racialized workers to residential care to policing. It demonstrates how politicians and uncritical media shaped the popular understanding of these issues and helped to justify the maintenance of a status quo that created the worst ravages of the crisis. *Spin Doctors* argues alternative ways in which Canadians should understand the big themes of the crisis and create the necessary knowledge to demand large-scale change.

**Suburban Erasure** Walter Greason, 2013 For generations, historians believed that the study of the African American experience centered on the questions about the processes and consequences of enslavement. Even after this phase passed, the modern Civil Rights Movement took center stage and filled hundreds of pages, creating a new framework for understanding both the history of the United States and of the world. *Suburban Erasure* by Walter David Greason contributes to the most recent developments in historical writing by recovering dozens of previously undiscovered works about the African American experience in New Jersey. More importantly, his interpretation of these documents complicates the traditional understandings about the Great

Migration civil rights activism and the transformation of the United States as a global economic superpower Greason details the voices of black men and women whose vision and sacrifices made the dream of Dr Martin Luther King Jr possible Then in the second half of this study the limitations of this dream of integration become clear as New Jersey a state that took the lead in showing American how to overcome the racism of the past fell victim to a recurring pattern of colorblindness that entrenched the legacy of racial inequality in the consumer economy of the late twentieth century Suburbanization simultaneously erased the physical architecture of rural segregation in New Jersey and ideologically obscured the deepening persistent injustices that became the War on Drugs and the prison industrial complex His solution for the twenty first century involves the most fundamental effort to racially integrate state and local government conceived since the Reconstruction Era Suburban Erasure is a must read for people concerned with democracy human rights and the future of civil society
