Smart Charts Through The Amazon:

The Last Amazon A. Bertram Chandler, 2015-12-17 Originally Sparta was an all male planet an all male population with everything that implies babies male babies only produced by the so called Birth Machine from an almost unending supply of fertilized ova brought by Sparta's founding father a dyed in the wool misogynist But unnatural situations rarely stand the test of time and it wasn't too long before Sparta bowed to Mother Nature But there was still something rather strange about Sparta when John Grimes landed there to await the arrival of his beloved ship Sister Sue It seemed to him that among the recently transplanted women of Sparta there was a strange movement afoot And when the Archon was kidnapped by a group of militant women the press claimed were men he knew he couldn't just stand by and watch *Digital Prohibition* Carolyn Guertin, 2012-04-26 The act of creation requires us to remix existing cultural content and yet recent sweeping changes to copyright laws have criminalized the creative act as a violation of corporate rights in a commodified world Copyright was originally designed to protect publishers not authors and has now gained a stranglehold on our ability to transport read write teach and publish digital materials Contrasting Western models with issues of piracy as practiced in Asia *Digital Prohibition* explores the concept of authorship as a capitalist institution and posits the Marxist idea of the multitude la Antonio Negri and Michael Hardt and Paulo Virno as a new collaborative model for creation in the digital age Looking at how digital culture has transformed unitary authorship from its book bound parameters into a collective and dispersed endeavor Dr Guertin examines process based forms as diverse as blogs Facebook Twitter performance art immersive environments smart mobs hacktivism tactical media machinima generative computer games like Spore and The Sims and augmented reality **The Paradigm Shift from a Linear Economy to a Smart Circular Economy** Mansoor Alaali, Abdalmuttaleb M. A. Musleh Al-Sartawi, Arafat Salih Aydiner, 2025-07-28 The concept of the circular economy has attracted the attention of scholars researchers professionals and policymakers in recent years The notion is characterised as an economy that intends to keep products stocks work in progress and materials at their highest utility and value continually distinguishing between their technical and biological cycles It is devised as a continuous positive development cycle that reserves and improves natural resources optimizes outputs and minimizes supply chain related risks by overseeing limited stocks and renewable flows of the stocks Several legislations and policies are being developed to motivate and integrate SDGs and net zero related approaches in companies among which the circular economy CE is gaining momentum due to its documented impact on the elements of the SDGs and net zero Efficient management of resources and utility via artificial intelligence is vital towards a smart circular economy by minimising waste losses pollution and extraction of virgin resources It is important to note that there is a difference between smart and traditional circular economies This book focuses on the former and makes distinctions in terms of how technology systems and solutions can be effectively and efficiently implemented This book **The Paradigm Shift from a Linear Economy to a Smart Circular Economy The Role of Artificial Intelligence Enabled Systems**

Solutions and Legislations discusses the transition from linear to smart circular economy by dissecting the role of artificial intelligence and other technologies such as big data IoT and blockchain in such transformations The book further aims to provide a platform for researchers professionals and students to closely investigate discuss and examine the theories philosophies ontologies and the role of governments policymakers and businesses in supporting the transition to a smart economy via national initiatives fiscal policies and corporate governance The book highlights the need for collaborative efforts between various actors including the private and public sectors through cross disciplinary approaches to attain maintain and sustain a smart circular economy
