Robo Sacer David S. Dalton, 2023-05-15 Robo Sacer engages the digital humanities critical race theory border studies biopolitical theory and necropolitical theory to interrogate how technology has been used to oppress people of Mexican descent both within Mexico and in the United States since the advent of the North American Free Trade Agreement NAFTA in 1994 As the book argues robo sacer identity emerges as transnational flows of bodies capital and technology become an institutionalized state of exception that relegates people from marginalized communities to the periphery And yet the same technology can be utilized by the oppressed in the service of resistance The texts studied here represent speculative stories about this technological empowerment These texts theorize different means of techno resistance to key realities that have emerged within Mexican and Chicano a x communities under the rise and reign of neoliberalism The first three chapters deal with dehumanization the trafficking of death and unbalanced access to technology The final two chapters deal with the major forms of violence feminicide and drug related violence that have grown exponentially in Mexico with the rise of neoliberalism These stories theorize the role of technology both in oppressing and in providing the subaltern with necessary tools for resistance Robo Sacer builds on the previous studies of Sayak Valencia Irmgard Emmelhainz Guy Emerson Achille Mbembe and of course Giorgio Agamben but it differentiates itself from them through its theorization on how technology and particularly cyborg subjectivity can amend the reigning biopolitical and necropolitical structures of power in potentially liberatory ways Robo Sacer shows how the cyborg can denaturalize constructs of zo by providing an outlet through which the oppressed can tell their stories thus imbuing the oppressed with the power to combat imperialist forces

Arash Khazeni,2014-05-10 This book traces the journeys of a stone across the world From its remote point of origin in the city of Nishapur in eastern Iran turquoise was traded through India Central Asia and the Near East becoming an object of imperial exchange between the Safavid Mughal and Ottoman empires Along this trail unfolds the story of turquoise a phosphate of aluminum and copper formed in rocks below the surface of the earth and its discovery and export as a global commodity In the material culture and imperial regalia of early modern Islamic tributary empires moving from the steppe to the sown turquoise was a sacred stone and a potent symbol of power projected in vivid color displays From the empires of Islamic Eurasia the turquoise trade reached Europe where the stone was collected as an exotic object from the East The

Eurasian trade lasted into the nineteenth century when the oldest mines in Iran collapsed and lost Aztec mines in the Americas reopened unearthing more accessible sources of the stone to rival the Persian blue Sky Blue Stone recounts the origins trade and circulation of a natural object in the context of the history of Islamic Eurasia and global encounters between empire and nature

The Latinx Files Matthew David Goodwin,2021-05-14 In The Latinx Files Matthew David Goodwin traces how Latinx science fiction writers are reclaiming the space alien from its xenophobic legacy in the science fiction genre The book argues that the space alien is a vital Latinx figure preserving Latinx cultures by activating the myriad possible constructions of the space alien to represent race and migration in the popular imagination The works discussed in this book including those of H G Wells Gloria Anzald a Junot Diaz Andr M Carrington and many others often explicitly reject the derogatory correlation of the space alien and Latinxs while at other times they contain space aliens that function as a source of either enlightenment or horror for Latinx communities Throughout this nuanced analysis The Latinx Files demonstrates how the character of the space alien has been significant to Latinx communities and has great potential for future writers and artists
