Small Science: Baracktrema Obamai And Other Stories Of A Life In Parasitology & Higher Education Thomas Reid

Platt,2021-06-10 Long thin and cool as hell was how parasitologist Thomas Platt described the new genus and species of trematode Baracktrema obamai he named in honor of the 44th USA president and his 5th cousin Barack Obama The story of Baracktrema was picked up by over 200 news outlets worldwide providing a fitting swansong to an illustrious career revisited in this part personal and part scientific memoir Platt s road to success was not initially smooth Faced with a brutal tenure rejection at the start of his career he was told that You are not the type of person we want to invest in for the next 30 years After a brief stint in the business world Platt bounced back in spectacular fashion by embarking on a successful 28 year career at Saint Mary s College in South Bend Indiana He traveled extensively in search of new species of parasitic worms from neighboring Costa Rica to the far flung reaches of Australia and Malaysia His love of turtles and their parasites led to the discovery of 30 new species 11 new genera and international recognition He provides perspectives on the places and people encountered along the way details of interactions with wildlife as well as interesting and accessible insights into parasite behavior in the external environment and with their hosts

SMALL SCIENCE is an inspiring story of an unexceptional high school student s path through college graduate school the academy and a successful research career in small science the science of parasites and the science of work accomplished in the margins in the time carved out from a heavy teaching load committee assignments and mentoring dedicated undergraduate women in the joy of scientific discovery
