Lizard's Leg Marty Crump,2015-11-16 From celebrated herpetologist and science writer Marty Crump a beautifully
illustrated exploration of the interlinked stories of herp folklore natural history and conservation Frogs are worshipped for
bringing nourishing rains but blamed for devastating floods Turtles are admired for their wisdom and longevity but ridiculed
for their sluggish and cowardly behavior Snakes are respected for their ability to heal and restore life but despised as
symbols of evil Lizards are revered as beneficent guardian spirits but feared as the Devil himself In this ode to toads and
snakes newts and tuatara crocodiles and tortoises herpetologist and science writer Marty Crump explores folklore across the
world and throughout time From creation myths to trickster tales from associations with fertility and rebirth to fire and rain
and from the use of herps in folk medicines and magic as food pets and gods to their roles in literature visual art music and
dance Crump reveals both our love and hatred of amphibians and reptiles and their perceived power In a world where we
keep home terrariums at the same time that we battle invasive cane toads and where public attitudes often dictate that the
cute and cuddly receive conservation priority over the slimy and venomous she shows how our complex and conflicting
perceptions threaten the conservation of these ecologically vital animals Sumptuously illustrated Eye of Newt and Toe of
