

TALKIN' BILLIONAIRES INTO OR OUT OF SHIT IS WHAT I DO.

Some would say I'm slick with the lingo. Other people will tell you other things. I've been a wheeler and dealer my entire life. I've had some monster wins, and I've taken some big hits. You're going to read about the worst of it. Of course, there's a woman involved. Isn't there always?

Not your thing? Don't worry. There's a plethora of other players in the story.

Let's see, there's a hooker gone legit, and a general who's in love with her. There are Muslim drug lords, now in real estate. A wannabe pimp with a fetish for green, and a Venezuelan hillbilly who struck it rich, like oil rich. Not to mention an African prince with no shot at ever being a king. More millionaires, a couple of billionaires. Kidnappers and a Russian tycoon I call "Yak-off." And oh, I can't leave out The Count. A Frenchy, who fancies himself a mobster...in the Med.

Spoiler alert! He gets whacked.

The "good guys" do eventually show up. Most of 'em in those stupid blue windbreakers, three numbers written across the back in case the cowboys and axiotons didn't make it clear enough. These stories are going to spin you on your head, but that's it for the teaser.

I'll see you on the inside.

Santa's Christmas Library 400 Christmas Novels Stories Poems Carols Legends Illustrated Edition represents an unparalleled assembly of literary voices offering a diverse and comprehensive celebration of Christmas. Spanning a wide range of literary styles from the evocative and lyrical to the humorous and satirical, this collection encapsulates the myriad ways Christmas has been depicted in literature. The anthology seamlessly weaves together the works of classical authors from the haunting prose of Dickens to the poignant verses of Longfellow, offering readers a rich palette of Christmas narratives. This carefully curated selection not only highlights celebrated works but also introduces lesser-known gems, providing a nuanced exploration of Christmas's cultural and historical significance across different periods and settings. The contributing authors and editors bring together a remarkable breadth of experiences and backgrounds, reflecting the anthology's global and temporal span. These literary figures, ranging from eminent poets like William Shakespeare and Emily Dickinson to iconic storytellers such as Mark Twain and Leo Tolstoy, collectively contribute to the collection's thematic richness. Their works, rooted in various eras

and cultures resonate with the timeless spirit of Christmas while also engaging with the nuances of their specific contexts. This convergence of diverse voices fosters a multidimensional understanding of Christmas traditions, values, and themes, highlighting the festival's universal appeal and its capacity to inspire across generations and geographies. For those seeking to immerse themselves in the Christmas spirit through the lens of literature, Santa's Christmas Library offers an incomparable journey. This anthology not only serves as a celebration of Christmas through an array of literary forms but also as an educational resource illuminating the evolution of Christmas narratives and traditions over centuries. Readers are invited to explore the depth and breadth of Christmas literature, discovering along the way how these stories, poems, and songs reflect, challenge, and enrich our understanding of Christmas itself. It stands as a testament to the enduring power of literature to capture the essence of human experiences and traditions, making it an essential addition to any holiday collection.

Computational Neuroscience James M. Bower, 2013-06-29. This volume includes papers presented at the Fifth Annual Computational Neuroscience meeting, CNS 96, held in Boston, Massachusetts, July 14-17, 1996. This collection includes 148 of the 234 papers presented at the meeting. Acceptance for meeting presentation was based on the peer review of preliminary papers originally submitted in May of 1996. The papers in this volume represent final versions of this work submitted in January of 1997. As represented by this volume, computational neuroscience continues to expand in quality, size, and breadth of focus as increasing numbers of neuroscientists are taking a computational approach to understanding nervous system function. Defining computational neuroscience as the exploration of how brains compute, it is clear that there is almost no subject or area of modern neuroscience research that is not appropriate for computational studies. The CNS meetings, as well as this volume, reflect this scope and diversity.

Death, Decomposition, and Detector Dogs Susan M. Stejskal, 2022-12-30. *Death, Decomposition, and Detector Dogs: From Science to Scene*, Second Edition, is designed to help canine handlers, detectives, death investigators, crime scene personnel, including forensic laboratory personnel, technicians, and supervisors, and attorneys understand the science involved when utilizing human remains detector (HRD) canines as a locating tool. The book covers the basic anatomy and physiology of canine olfaction and the unique characteristics of their scenting ability that allows dogs to be trained to locate distinct odors. Using concise and clear explanations and photographs, the book reviews the science of forensic taphonomy. Factors that may affect the decomposition process are highlighted, along with what the potential outcomes that may be encountered. The book examines how the odor of human remains is generated through various stages of decomposition and the manner in which environmental conditions in both land and water settings may affect that odor. Different types of background information that may help in determining possible search locations for missing individuals are included, as well as assist the HRD canine handler in developing search plans. Different tools and technologies that may be used in addition to an HRD canine team are included to help readers understand that there are many ways to address searching for a decedent. Several case reports involving decedents found in both land and water.

settings in addition to different weather conditions are included to help the reader understand how the environment may have affected the condition of the decedent This edition includes more case reports explaining how environmental factors were considered in HRD canine deployments in both land and water settings Understanding which variables and how such variables can affect the state and condition of human remains as well as dispersion of odor from human remains will help canine handlers utilize their HRD canine more effectively as a locating tool Death Decomposition and Detector Dogs Second Edition will help HRD canine handlers and other law enforcement personnel be better prepared to meet the challenges of their jobs before during and after searches for the missing
