avoid hypothermia A good pair of gloves is also necessary as the hands will be controlling the majority of the machinery's activities Due to the fact that cold hands impair reaction time winter gloves are an imperative necessity Following that familiarize yourself with the machinery Sit on it move around and get a feel for the fine nuances of the snowmobile Adjust the seat to the proper distance from your body so that the handlebars are within an acceptable reach Stretching to reach the handlebars is ineffective as is sitting too close to them Keeping the handlebars at arm's length is optimal as long as the distance is comfortable Additionally place your feet in the stirrups located on the snowmobile's front lower section Develop a feel for the stirrups and never remove your feet from them when snowmobiling They are designed to assist you in maintaining control of the motorcycle when making abrupt bends over snow covered terrain **Idaho Adventure Guide** ,
