So Red The Rose:

So Red the Rose Stark Young, 1992-09-15 Young's novel of war coming to the Natchez region of Mississippi has long been considered one of the best of Civil War novels. If you would understand what was best in the Old South its attitude toward life you will find them here glowing with that same vitality which was theirs in life. New York Times Southern Classics Series

Race Against Time Jack E. Davis, 2004-10-01 While many studies of race relations have focused on the black experience *Race against Time* strives to unravel the emotional and cultural foundations of race in the white mind. Jack E. Davis combed primary documents in Natchez, Mississippi, and absorbed the town's oral history to understand white racial attitudes there over the past seven decades, a period rich in social change, strife, and reconciliation. What he found in this community that cultivates for profit a romantic view of the Old South challenges conventional assumptions about racial prejudice. Davis engagingly and effortlessly weaves between nineteenth and twentieth centuries, white observations and black to describe patterns of social interaction in Natchez in the workplace, education, politics, religion, and daily life. It was not he discovers false notions of biological differences reinforced by class and economic conflict that lay at the heart of the town's racial divide but rather the perception of a black-white cultural divergence in values in education, work, and family. White culture was deemed superior, a presumption manifested through a hierarchy of old family elite and other white citizens. Since 1930 Natchez has developed a major tourist industry, downsized sharecropping, expanded its manufacturing sector, and participated in the struggles for civil rights, school desegregation, and black political empowerment. Yet the collective white perception of a mythic past has continued, reinforced through the sum of Natchez's public history, social memory, school textbooks, breathtaking antebellum mansions, and world famous Pilgrimage. In *Race against Time* Davis sensitively lays bare the need for shared control of the town's history and the acknowledgment of intercultural dependence to effect true racial equality. Building upon the 1941 classic *Deep South: A Social Anthropological Study of Caste and Class*, Davis brings tremendous passion and insight to the demanding issue of race as he fathoms the contours of Natchez's distinctive racial dynamics in recent decades.

Still Rebels, Still Yankees and Other Essays Donald Davidson, 1999-03-01 A decade and more has passed since the first publication of *Still Rebels, Still Yankees*. During that time the book has become recognized as a classic affirmation of the necessity of tradition in conserving cultural order. Donald Davidson, a major figure in the Agrarian Movement, summed up the intent of the work this way: "The general theme that binds the essays, no matter what their specific subjects, is the conflict between tradition and anti-tradition that characterizes modern society, with tradition viewed as the living continuum that makes society and civilization possible, and anti-tradition as the disintegrative principle that destroys society and civilization in the name of science and progress." The South, which has suffered most in its devoted defense of tradition, naturally offers me examples for consideration, but this is not a book about the South as such. It is as near as I can come in essay form to defining what I would conceive to be the true American position. In a brilliant and graceful style

Davidson pursues his theme in a rich variety of subjects poetry myth and folklore and in the complex rivalries between nation and region the free citizen and the Leviathan state the values of religion and the facts of science Order sanity and fullness of life are cornerstones of the tradition against which he appraises writers like Hardy and John Gould Fletcher the historiography of Toynbee and the social reporting of W J Cash Yeoman Versus Cavalier Ritchie Devon Watson, Jr.,1999-03-01 In Yeoman Versus Cavalier The Old Southwest s Fictional Road to Rebellion Ritchie Devon Watson Jr examines the emergence of the planter aristocrat over the yeoman as the dominant cultural icon in the newly settled states of the Old Southwest Kentucky Tennessee Alabama Mississippi Louisiana and Arkansas during the first half of the nineteenth century He related this region s shift in cultural ideals as reflected in its literature both to the coming of the Civil War and the failure of the postbellum South to reintegrate itself fully into the nation In the early 1800s Thomas Jefferson s stalwart yeoman farmer was the mythic figure that gave the most dynamic expression to and most compelling justification for expansion to the west This potent symbol of rural democracy was enthusiastically embraced by settlers in both midwestern and southern territories By 1830 however residents of the new southern states had initiated a profound imaginative movement away from the frontier myths that had linked them with midwesterners Faced with increasingly hostile attacks on slavery and the plantation system southerners from Virginia to Louisiana united in defense of the plantation South Watson shows how writers of the Old Southwest reflected this cultural shift in their tendency to idealize the planter and to subvert subordinate or ignore the yeoman Joining cultural and intellectual forces with the more established plantation societies of the Eastern Seaboard these writers turned toward the Cavalier the noble cultured planter of aristocratic blood and manners who like a father presided with wisdom and love over a large plantation as the primary representative of the southern way of life Watson builds his argument by analyzing many different kinds of writing Choosing texts that shed light on the newly evolving culture of the Old Southwest Watson discusses the novelists William Garrott Brown James Lane Allen Joseph Holt Ingraham Caroline Lee Hentz and Augusta Jane Evans historian Charles Gayarre humorists Augustus Baldwin Longstreet and Thomas Bangs Thorpe New South propagandist Henry Grady novelist and story writer George Washington Cable and poets Joseph Brennan and Sidney Lanier The Cavalier ideal Watson explains unified the states of the Confederacy and served as a kind if icon to be carried into battle After the war the figure was resurrected by southern writers and made an integral part of the region s Lost Cause myth which northerners helped perpetuate The Cavalier figure has continued to lead a vigorous life into the present century as attested by novels such as Margaret Mitchell s *Gone With the Wind* Stark Young s *So Red the Rose* and even William Faulkner s *Absalom Absalom* Yeoman Versus Cavalier is a solid and entertainingly written analysis of how the Cavalier as the South s unifying mythical figure helped shape southern history and the creation of the legend of the Old South following the Civil War It contributes greatly to our understanding of the antebellum South and demonstrates how studying a work of literature can lead to a fuller comprehension of the culture that produced it *The Story of Munira*

American celebrates Vidor as a representative man full of the conflicting generosity and ferocity in the national ethos with his violent mixture of pioneering optimism and noir torments of transcendentalism and puritanism of spiritual verve and physical practicality of liberal conscience and Social Darwinist savagery of male dominance and female conciliation Like Whitman he contains multitudes Never narrowly auteurist this book is a wide ranging integration of film history political thought and popular culture Adapted from dust jacket

This War Ain't Over Nina Silber, 2018-11-02 The New Deal era witnessed a surprising surge in popular engagement with the history and memory of the Civil War era From the omnipresent book and film *Gone with the Wind* and the scores of popular theater productions to Aaron Copeland's *A Lincoln Portrait* it was hard to miss America's fascination with the war in the 1930s and 1940s Nina Silber deftly examines the often conflicting and politically contentious ways in which Americans remembered the Civil War era during the years of the Depression the New Deal and World War II In doing so she reveals how the debates and events of that earlier period resonated so profoundly with New Deal rhetoric about state power emerging civil rights activism labor organizing and trade unionism and popular culture in wartime At the heart of this book is an examination of how historical memory offers people a means of understanding and defining themselves in the present Silber reveals how during a moment of enormous national turmoil the events and personages of the Civil War provided a framework for reassessing national identity class conflict and racial and ethnic division The New Deal era may have been the first time Civil War memory loomed so large for the nation as a whole but as the present moment suggests it was hardly the last

Gone with the Glory Brian Steel Wills, 2011-10-16 From *Birth of a Nation* to *Cold Mountain* hundreds of directors actors and screenwriters have used the Civil War to create compelling cinema However each generation of moviemakers has resolved the tug of war between entertainment value and historical accuracy differently Historian Brian Steel Wills takes readers on a journey through the portrayal of the war in film exploring what Hollywood got right and wrong how the films influenced each other and ultimately how the movies reflect America's changing understandings of the conflict and of the nation

Heritage and Hoop Skirts Paul Hardin Kapp, 2022-10-26 Winner of the 2023 John Brinkerhoff Jackson Book Prize Winner of the 2023 UMW Center for Historic Preservation Book Prize Winner of the 2023 Fred B Kniffen Award from the International Society for Landscape Place Material Culture Winner of the 2023 Michael V R Thomason Book Award from the Gulf South Historical Association For over eighty years tourists have flocked to Natchez Mississippi seeking the Old South but what they encounter is invention a pageant and rewrite of history first concocted during the Great Depression In *Heritage and Hoop Skirts* How Natchez Created the Old South author Paul Hardin Kapp reveals how the women of the Natchez Garden Club saved their city created one of the first cultural tourism economies in the United States changed the Mississippi landscape through historic preservation and fashioned elements of the Lost Cause into an industry Beginning with the first Natchez Spring Pilgrimage of Antebellum Homes in 1932 such women as Katherine Grafton Miller Roane Fleming Byrnes and Edith Wyatt Moore challenged the notion that smokestack

industries were key to Natchez's prosperity. These women developed a narrative of graceful living and aristocratic genteel people centered on grand but decaying mansions. In crafting this pageantry, they created a tourism magnet based on the antebellum architecture of Natchez. Through their determination and political guile, they enlisted New Deal programs such as the WPA Writers Project and the Historic American Buildings Survey to promote their version of the city. Their work did save numerous historic buildings and employed both white and African American workers during the Depression. Still, the transformation of Natchez into a tourist draw came at a racial cost and further marginalized African American Natchezians. By attending to the history of preservation in Natchez, Kapp draws on a rich archive of images, architectural documents, and popular culture to explore how meaning is assigned to place and how meaning evolves over time. In showing how and why the Natchez buildings of the Old South were first preserved, commercialized, and transformed into a brand, this volume makes a much needed contribution to ongoing debates over the meaning attached to cultural patrimony.

The Reel Civil War Bruce Chadwick, 2002-12-03. During the late nineteenth century, magazines, newspapers, novelists, and even historians presented a revised version of the Civil War that, intending to reconcile the former foes, downplayed the issues of slavery and racial injustice and often promoted and reinforced the worst racial stereotypes. *The Reel Civil War* tells the history of how these misrepresentations of history made their way into movies. More than 800 films have been made about the Civil War. Citing such classics as *Birth of a Nation* and *Gone With the Wind*, as well as many other films, Bruce Chadwick shows how most of them have, until recently, projected an image of gallant soldiers, beautiful belles, sprawling plantations, and docile or dangerous slaves. He demonstrates how the movies aided and abetted racism and an inaccurate view of American history, providing a revealing and important account of the power of cinema to shape our understanding of historical truth.
