Science after the Practice Turn in the Philosophy, History, and Social Studies of Science Léna Soler,Sjoerd Zwart,Michael Lynch,Vincent Israel-Jost,2014-03-21 In the 1980s philosophical historical and social studies of science underwent a change which later evolved into a turn to practice Analysts of science

were asked to pay attention to scientific practices in meticulous detail and along multiple dimensions including the material social and psychological. Following this turn, the interest in scientific practices continued to increase and had an indelible influence in the various fields of science studies. No doubt the practice turn changed our conceptions and approaches of science, but what did it really teach us? What does it mean to study scientific practices? What are the general lessons, implications, and new challenges? This volume explores questions about the practice turn using both case studies and theoretical analysis. The case studies examine empirical and mathematical sciences including the engineering sciences. The volume promotes interactions between acknowledged experts from different, often thought of as conflicting, orientations. It presents contributions in conjunction with critical commentaries that put the theses and assumptions of the former in perspective. Overall, the book offers a unique and diverse range of perspectives on the meanings, methods, lessons, and challenges associated with the practice turn.

The Construction of Social Judgments Leonard L. Martin, Abraham Tesser, 2013-05-13 Researchers have been addressing social judgment from a cognitive perspective for more than 15 years. Within recent years, however, it has become increasingly clear that many of the models and assumptions initially adopted are in need of revision. The chapters in this volume point out where the original models and assumptions have fallen short and suggest directions for future research and theorizing. The contributors address issues related to judgment, memory, affect, attitudes, and self-perception. In addition, many present theoretical frameworks within which these different issues can be integrated. As such, this volume represents the transition from one era of social cognition research to the next.

Children's Social Worlds in Cultural Context Tiia Tulviste, Deborah L. Best, Judith L. Gibbons, 2019-09-10 This book addresses cultural variability in children's social worlds, examining the acquisition, development, and use of culturally relevant social competencies valued in diverse cultural contexts. It discusses the different aspects of preschoolers' social competencies that allow children, including adopted immigrant or at-risk children, to create and maintain relationships, communicate, and to get along with other people at home, in daycare or school, and in other situations. Chapters explore how children's social competencies reflect the features of the social worlds in which they live and grow. In addition, chapters examine the extent that different cultural value orientations manifest in children's social functioning and describes how parents in autonomy-oriented cultures tend to value different social skills than parents with relatedness or autonomous relatedness orientations. The book concludes with recommendations for future research directions. Topics featured in this book include Gender development in young children, Peer interactions and relationships during the preschool years, Sibling interactions in western and non-western cultural groups, The roles of grandparents in child development, Socialization and development in refugee children, Child development within institutional care. *Children's Social Worlds in Cultural Context* is a valuable resource for researchers, clinicians, practitioners, and graduate students in developmental psychology, child and school psychology, social work, cultural anthropology, family studies, and education.

Anti-Racist Scholarship James Joseph Scheurich, 2012-02-01

Most would agree that racism is a moral and spiritual violation of the human spirit and the human community and one of the most destructive social problems in the United States In this thought provoking and challenging book Scheurich contends that white racism is interwoven within social science research social institutions such as public education and society in general directly destroying any legitimate claim to democracy This volume offers discussions and examples of how white scholars can use anti racist scholarship as part of the long term civil rights struggle to create real equality in the United States Other scholars who both agree and disagree with Scheurich s perspective contribute to the volume **Handbook of**

Mobile Learning Zane L. Berge, Lin Muilenburg, 2013-06-19 Winner of the AECT Division of Distance Learning DDL Distance Education Book Award This handbook provides a comprehensive compendium of research in all aspects of mobile learning one of the most significant ongoing global developments in the entire field of education Rather than focus on specific technologies expert authors discuss how best to utilize technology in the service of improving teaching and learning For more than a decade researchers and practitioners have been exploring this area of study as the growing popularity of smartphones tablets and other such devices as well as the increasingly sophisticated applications for these devices has allowed educators to accommodate and support an increasingly mobile society This handbook provides the first authoritative account of the theory and research that underlies mobile learning while also exemplifying models of current and future practice **Decolonising and Reframing Critical Social Work** Sophie Goldingay, Joleen Ryan, Angela Daddow, 2024-10-21

This book problematises and then reshapes critical social work to bring a range of perspectives to what constitutes truly effective and ethical social work practice moving beyond binary oppositions where two states or concepts are defined as opposite to each other to create new words and concepts to be inclusive of a range of identities practice contexts and groups or communities of service users Currently critical social work derived from sociological critical theories proliferated in the 1960s enjoys dominance as the theory that encompasses the ethical principles of social work in Australia While on the surface critical social work appears to align with the Australian Association of Social Workers AASW ethical principles of social justice professional integrity and respect for persons practitioners and students alike find enacting it can be problematic in complex practice situations Reporting original research of cases from the field the book focuses on the impact of intersectionality and shows new ways to address the nuance of othering and modern day colonialism It will be of interest to researchers practitioners and students who are keen to engage with the latest in the field of critical social work and consider implications of this for the development of their own identity **Issues of Contemporary Art and Aesthetics in**

Chinese Context Eva Kit Wah Man, 2015-08-17 This book discusses how China s transformations in the last century have shaped its arts and its philosophical aesthetics For instance how have political economic and cultural changes shaped its aesthetic developments Further how have its long standing beliefs and traditions clashed with modernizing desires and forces and how have these changes materialized in artistic manifestations In addition to answering these questions this book

also brings Chinese philosophical concepts on aesthetics into dialogue with those of the West making an important contribution to the fields of art comparative aesthetics and philosophy Taking Offence on Social Media Caroline Tagg, Philip Seargeant, Amy Aisha Brown, 2017-08-04 This book explores communication on Facebook developing the new theoretical concept of context design as a way of understanding the dynamics of online interaction Against a backdrop of fake news and other controversies surrounding online political debate the authors focus on inadvertent acts of offence on Facebook that is when users of the site unwittingly offend or are offended by the airing of political or religious views or of opinions deemed racist or sexist Drawing on a survey of Facebook users they explain why instances of offence occur and what users report doing in response They argue that Facebook users contribute to the construction of a particular social space one that is characterised by online conviviality and a belief that Facebook is not the place for serious debate These views in turn shape the kind of political debate that can take place on the site This thought provoking book will appeal to scholars and students of applied linguistics and anyone interested in the role of social media in contemporary political and social life

Reconsidering Context in Language Assessment Janna Fox, Natasha Artemeva, 2022-04-06 This volume reconsiders the problem of context in language testing and other modes of assessment from the perspective of transdisciplinarity Transdisciplinary assessment research brings together collaborators who draw on the strengths of their differing backgrounds and expertise in order to address high stakes complex socially relevant problems Traditional treatments of context in language assessment research have generally been informed by individualist cognitive theories within measurement and psychometrics The additive potential of alternative social theories including theories of genre situated learning distributed cognition and intercultural communication has largely been overlooked In this book the benefits of socio theoretical reconsiderations of context are discussed and further exemplified in transdisciplinary research studies that investigate the use of assessment in classroom and workplace settings The book offers a renewed view of context in arguments for the validity of assessment practices and will be of interest to assessment researchers practitioners and students in applied linguistics education educational psychology language testing and other related disciplines and fields

Text, Role and Context Ann M. Johns, 1997-06-13 This text explores fundamental issues relating to student literacies and instructor roles and practices within academic contexts It offers a brief history of literacy theories and argues for socioliterate approaches to teaching and learning in which texts are viewed as primarily socially constructed Central to socioliteracy the concepts genre and discourse community are presented in detail The author argues for roles for literacy practitioners in which they and their students conduct research and are involved in joint pedagogical endeavors The final chapters are devoted to outlining how the views presented can be applied to a variety of classroom texts Core curricular design principles are outlined and three types of portfolio based academic literacy classrooms are described
