Social Anthropology And Development Policy:

Social Anthropology and Development Policy R. D. Grillo, Alan Rew, 1985 4e de couv In recent years there has been considerable interest among anthropologists throughout the world in the application of their discipline to policy questions The involvement of anthropologists in policy matters has a lengthy history especially during the colonial period and has always stimulated controversy and debate This volume arises from the 1983 ASA Conference which was a major review of the state of anthropology with special emphasis on newer developments in the field particularly in applied subjects It is a timely and valuable contribution to the debate about the social and cultural dimensions of policy planning The papers fall into three groups The first examines the role of the anthropologist in a variety of historical political contexts the second looks at what specifically the anthropologist can contribute to policy work the third attempts to spell out in more general terms what working in the applied field might mean for anthropologists and those who employ them as policy advisers

Understanding Development Paul Hopper, 2012-02-27 Drawing on a wide range of case studies from across the globe this book explores such areas as health and population growth conflict and security global inequality and poverty fair trade and trade liberalization gender and education foreign aid and debt and sustainability and the environment This issues driven text focuses on the debates that have generated the most interest and passion among practitioners and non practitioners alike Always attentive to the contested and plural nature of the field it makes the case for a genuinely interdisciplinary approach which takes full account of the impact of globalization Publisher *Practising Development* Johan Pottier, 2013-02-01

Throughout the 1980s there have been calls often from development organizations of global repute for the incorporation of social science perspectives into the design and management of sustainable development programmes *Practising Development* is the first collection to offer first hand critical assessments of the success and failures found within actual responses to these calls By combining academic and practical experience from anthropology development and aid organizations the contributors examine the processes of intervention the methods by which this intervention can be assessed and explain the socio economic and political worlds within which intervention and development evolve Anthropology, Development and the Post-Modern Challenge Katy Gardner, David Lewis, 1996-05-20 A well crafted sensitive reflective and constructive book It is highly recommended Development Policy Review

International Development and the Social Sciences Frederick Cooper, Randall M. Packard, 1997 This superb collection assembles a number of stimulating and theoretically current contributions by outstanding scholars Angelique Haugerud author of *The Culture of Politics in Modern Kenya* Dimensions of Development Susan Vincent, 2012-01-01

Dimensions of Development traces the development of Allpachico a village in the Peruvian central highlands Susan Vincent examines four aid projects in the area each following distinct international trends that took place between 1984 and 2008 within the context of wider state and global political and economic systems A unique historical ethnography *Dimensions of Development* illustrates how state and NGO projects have

drawn Allpachique os deeper into capitalism and have brought about challenges to the local political structure the comunidad campesina While highlighting the continual reorganization of the local population into new groups Vincent also reveals why the comunidad remains the group s preferred form of representation *British Qualifications 2014* Kogan Page Editorial Staff,2013-12-03 Now in its 44th edition British Qualifications is the definitive one volume guide to every qualification on offer in the United Kingdom With full details of all institutions and organizations involved in the provision of further and higher education this publication is an essential reference source for careers advisors students and employers It also includes a comprehensive and up to date description of the structure of further and higher education in the UK The book includes information on awards provided by over 350 professional institutions and accrediting bodies details of academic universities and colleges and a full description of the current framework of academic and vocational education It is compiled and checked annually to ensure accuracy of information *Anthropology, Development and Modernities* Alberto Arce,Norman Long,2003-12-16 While the diffusion of modernity and the spread of development schemes may bring prosperity optimism and opportunity for some for others it has brought poverty a deterioration in quality of life and has given rise to violence This collection brings an anthropological perspective to bear on understanding the diverse modernities we face in the contemporary world It provides a critical review of interpretations of development and modernity supported by rigorous case studies from regions as diverse as Guatemala Sri Lanka West Africa and contemporary Europe Together the chapters in this volume demonstrate the crucial importance of looking to ethnography for guidance in shaping development policies Ethnography can show how people s own agency transforms recasts and complicates the modernities they experience The contributors argue that explanations of change framed in terms of the dominant discourses and institutions of modernity are inadequate and that we give closer attention to discourses images beliefs and practices that run counter to these yet play a part in shaping them and giving them meaning *Anthropology Development and Modernities* deals with the realities of people s everyday lives and dilemmas It is essential reading for students and scholars in anthropology sociology and development studies It should also be read by all those actively involved in development work *Mobile Pastoralists* Dawn Chatty,1996 Anthropological study of the nomadic Harasis *Discourses of Development* R. D. Grillo,R. L. Stirrat,2020-12-23 Development is clearly a contentious concept It is common knowledge that there is frequently a troubling divide between what Western developers think development entails and how those people affected understand the ensuing processes By treating development as problematic this book seeks to generate new insights into the relationships between the various parties involved and to enhance understanding of the ways in which particular discourses of development are generated Authors raise provocative questions about the relationship of politics power ideology and rhetoric to the institutional practice of development These hegemonic considerations are shown to have a profound effect on the culture of aid and the interface between development personnel and those whom development is supposed to benefit **British**
