The Social Construction of Community Care Anthea Symonds,Anne Kelly,1998-11-11 This book represents a new development in the discussion of community care policies with its integrated approach addressed to both community nurses and social workers It includes contributions from practitioners in both fields as well as lecturers and researchers in sociology and social policy The overall theme of the book is the concept of community as a social and cultural construction The authors begin with an account of the historical construction of community care followed by explorations of the actual practice of the delivery of care and of the needs of particular groups within the community

The Catholic Faith and the Social Construction of Religion Peter Stuart,Allan M. Savage,2011-09-02 The intent behind this book is to provide grist for the mill for research students and other interested readers Chapter one by author Allan Savage presents an understanding of the social construction of religious activity which maintains that social construction of religion arises from a dialectical engagement within the world from a phenomenological philosophical point of view Co author Peter Stuart presents a classical and traditional point of view and readers expecting academic accord between the authors will be disappointed A further rationale for writing this book is that both Savage and Stuart desire to express their personal convictions in the public forum Both have interests in the ebb and flow of civilization especially as it pertains to the place of faith religion politics and a variety of social phenomena including economics culture gender ethnicity and the family as well as the ebb and flow of money power property and prestige as articulated throughout history They believe that writing about the place of faith and religion in French Canada is crucial if one is to understand the place that this keystone civilization occupies within

confederation and its enduring ambivalence regarding its belonging or not to Canada

The Social Construction of Virtue George W. Noblit, Van O. Dempsey, 1996-09-26 It's time to face an inevitable conclusion School reform does not reform schools That's because reform movements conceive of schools as being about transmitting knowledge Yet schools are not primarily about knowledge They are about the construction of meaning and morality in the lives of students and communities In this book the authors argue that to break this recycling of reform efforts we must understand how schools construct moral life The focus is on two elementary schools Rougemont an historically African American school that was closed during school desegregation in the 1970s and Cedar Grove an historically white school to which the former Rougemont students were sent Described are the histories of these schools the communities in which they are located and some of the people who influenced and were influenced by the schools From those contexts the authors then make explicit the virtues that these communities and schools constructed and valued and describe how those virtues came to influence lives The oral histories of the two schools and their communities provide the basis of a novel critique of the value conflict that has characterized educational reform in this country The social construction of virtue offers an alternative perspective on the moral purpose of schooling in America

Pastoral Identity as Social Construction Samuel Park, 2017-09-15 How do chaplains and counselors form their identities as pastoral caregivers in challenging clinical contexts such as institutional interdisciplinary postmodern inter cultural and multi faith work environments This book is a product of the fifteen year long journey towards answering a well known but hardly answered question about pastoral identity Based on narratives of many pastoral practitioners who work in hospitals or counseling settings the author puzzles through ways for helping professionals to form their identities in bewildering work environments Previous studies on pastoral identity have focused on an individual interiority of pastoral practitioners and have emphasized mainly the caregivers perceptions and practices from a developmental and training perspective Grounded in an empirical study of active pastoral care providers this book presents pastoral identity as a relational and interactional property socially constructed among pastoral care partners culture and God Findings of the empirical study support contemporary theological and social psychological discourses identity is embedded in and embodied by relationships This book will guide you through confusions worries insights and woes you have experienced while helping others in order to envision yourself more clearly as a spiritually embodied and pastorally tending caregiver You will find yourself to be more who you are and engage more with others as they become who they are

DANWEI-COMMUNITY AND URBAN COMMUNITY REBUILDING Tian Yi-Peng, 2021-11-18 In this work the author endeavors to treat Danwei system as a special and highly organized form of community and sets about his study from the perspectives of Danwei community's change and urban community reconstruction When it comes to the construction and development of urban communities in contemporary China academic circles at home often attempt to unravel its intimate and indissoluble connection with Danwei system and seek to lay emphasis upon the great complexity of their interactive relationship with each other However academic circles generally incorporate Danwei system taken as a national system as well as a universal institution into their fields of research whereas they rarely enter into a critical examination of the variations in its multiplicity of specific denotations by taking account of such variables as space region and culture nor do they show much concern about the existence of different types of Danwei In view of the foregoing difficulties in which the study of Danwei system gets entangled this study attempts to accomplish the following main purposes Firstly this study shall introduce such a variable as locality into the research on Danwei community by starting off from the research perspectives of Danwei community's origin formation and change Secondly several super large industrial communities in the old industrial bases shall be chosen as classic cases in illustration of long standing complications and entanglements enmeshed in this study And thirdly it seeks to reveal the mode and experience of urban community development against a background of Danwei system reform so that by gaining a full understanding of as well as making an in depth analysis of their rich implications we can enrich the theory of

urban community construction in the Chinese context and hence grapple successfully with some theoretical problems confronting urban community reconstruction against a background of Danwei community change which shall eventually bring about a smooth transition of Danwei society This book will assuredly open an exceptional window to the transition of China from traditional to modern society the transition of Chinese society from planned economy to market economy and the change track of the interplay between the Chinese government and modern Chinese society after the founding of New China in 1949 at the present time and even in the foreseeable future *Chinese Research Perspectives on Society, Volume 4* Peilin LI,Guangjin CHEN,Yi ZHANG,2018-11-01 This collection of articles selected from Blue Book of Chinese Society 2015 published in Chinese reviews China s social condition from 2013 to 2014 The articles featured cover a range of social issues including employment income and consumption social security and others Findings are presented and analyzed from a number of social surveys on topics such as the public s conception of a good society quality of life in urban areas migrant workers university students and graduates and household registration system reform In addition recent development of and future outlook for internet public opinion labor relations agriculture and urbanization are examined Each article ends with policy suggestions and a statistical overview of China s social development is given in the appendix *Proceedings of the 2022 6th International Seminar on Education, Management and Social Sciences (ISEMSS 2022)* Ghaffar Ali,Mehmet Cüneyt Birkök,Intakhab Alam Khan,2023-09-16 This is an open access book The aim of 2022 6th International Seminar on Education Management and Social Sciences ISEMSS 2022 is to bring together innovative academics and industrial experts in the field of Education Management and Social Sciences to a common forum The primary goal of the conference is to promote research and developmental activities in Education Management and Social Sciences and another goal is to promote scientific information interchange between researchers developers students and practitioners working all around the world The conference will be held every year to make it an ideal platform for people to share views and experiences in Education Management and Social Sciences and related areas **The Changing Face of Further Education** Terry Hyland,Barbara Merrill,2003-12-16 This book sets current policy and practice concerns against the backdrop of community education and employs case studies to chart the developments and changes that have taken place in FE **Educational Resources of Village and Rural Communities** Joseph Kinmont Hart,1914
