**Wounded Innocents and Fallen Angels** Gregory K. Moffatt, 2003-06-30 Violence of any kind is hard for most people to understand but crimes against children and crimes committed by children are perhaps the most difficult to comprehend Child abuse and neglect is a problem with generational effects Women who were sexually abused in childhood for example are more likely than non abused women to be harsh with their children withhold affection or even accept the sexual abuse of their own children by a spouse or lover Yet children are not always merely the victims of aggression They also perpetrate violent crimes in the form of bullying assault and homicide as well as crimes on property such as vandalism Moffatt addresses the two sides of this cycle of violence including examples from clinical case studies and treatment options Moffatt details crimes against children ranging from Munchausen Syndrome

by Proxy sexual and physical abuse neglect filicide and infanticide He addresses aggression committed by children against other people property and self including self mutilation and suicide Written for both professional and lay audiences counselors teachers psychologists law enforcement medical professionals and therapists will benefit from the psychological discussions about causes and effects of aggression      **Waves of Hope** Judith Keim,2022-08-02 Hope and determination can bring results Ellie Weatherby and the four other grandmothers living at Sanderling Cove decide with only two great grandchildren it s time to swing into action They invite their grandchildren to spend the summer at the cove hoping to encourage romance between them Ellie invites all three of her granddaughters to take over the management of the Sanderling Cove Inn so that she and her bridegroom can spend the time traveling in Europe for their honeymoon Charlotte Bradford Olivia Winters and Brooke Weatherby are all at a point in their lives where they have the time to do as she asks For Charlotte it s an excuse to leave her marketing career and life in New York City After realizing her partner was never going to step up and do her share of work Livy has just sold her bakery store in Virginia Brooke is more than eager to leave her job as an accountant in upstate New York and more importantly escape the lonely life of keeping an eye on her mother who suffers from fibromyalgia and depression When Shane Ensley is sailing with Charlotte and another cove kid Eric Simon the boom knocks him into the water unconscious When Charlotte rescues him it changes everything for them And starts the summer exactly as the grandmothers had hoped Grandmothers can be very determined when it comes to seeing their grandchildren happy A family saga full of love Be sure to read all the books in the series Waves of Hope Sandy Wishes Salty Kisses Another of Judith Keim s series books celebrating love and families strong women meeting challenges and clean women s fiction with a touch of romance beach reads for all ages with a touch of humor satisfying twists and happy endings Be sure to check out her other delightful books and series that readers adore      *Letters Between Mothers and Daughters* Barbara Caine,2018-02-02 There are now many studies of family letters in Europe but most of them focus on marital letters and letters between parents especially mothers and their sons Little attention has been paid to the letters to and from daughters This volume seeks to begin filling that gap by exploring the continuities and changes evident in the letters written between mothers and daughters over several centuries Some of these changes reflect the history of letters and the ways that they were written and delivered especially the move from the use of scribes and couriers in the medieval and early modern period which made both the writing and reading of letters a public affair to the use of pens and the situation in which letters were able to be written in private and read only by the person to whom they were addressed But the letters also reveal the changing nature of the mother and daughter relationship as the formal and more distant ties evident in the early period in which dynastic and other matters were often more important to a mother than her daughter s personal happiness were replaced by closer and more intimate ties and a concern with particular personalities and individual needs This book was originally published as a special issue of Women s History Review      Humbug Amanda Radley,2021-12-14 Ellie Pearce
