The Theosophical Review ,1905 **The Temple Legend** Rudolf Steiner,2013-05-17 In these unique lectures given to members of his Esoteric School 1904 14 Rudolf Steiner s main intention is to throw light on the hidden content of the picture language of myths sagas and legends Pictures he explains are the real origin of all things the primeval spiritual causes In order to work in a healthy way with pictures or

symbols today however it is necessary that one should first become acquainted with their esoteric content to understand them At the time of these lectures Steiner was planning to inaugurate the second section of the Esoteric School which was to deal in a direct way with a renewal out of his own spiritual research of ritual and symbolism He gave these lectures as a necessary preparation to clarify the history and nature of the cultic tradition He thus discusses principally Freemasonry and its background but also the Rosicrucians Manichaeism the Druids the Prometheus Saga the Lost Temple Cain and Abel and much else besides **Prince Abba, Magi Patiput** , *Temple Legend* Rudolf Steiner,1997 At the time of these lectures Steiner was planning to inaugurate the second section of the Esoteric School which was to deal in a direct way with a renewal out of his own spiritual research of ritual and symbolism He gave these lectures as a necessary preparation to clarify the history and nature of the cultic tradition He thus discusses principally Freemasonry and its background but also the Rosicrucians Manichaeism the Druids the Prometheus Saga the Lost Temple Cain and Abel and much else besides Occult Science Rudolf Steiner,2013-10-10 Written in 1909 CW 13 An authorized translation of this classic work re edited beautifully typeset and designed from a professional publisher dedicated to high quality editions of Rudolf Steiner s books and lectures The Anthroposophy of Rudolf Steiner is not a theoretical system but the results of research based on direct observation As Steiner s research was so vast and conducted over such a long period of time no single book can be said to contain the whole of his spiritual teaching However of all his books Occult Science comes closest Steiner even referred to it as an epitome of anthroposophic Spiritual Science The book systematically presents the fundamental facts concerning the nature and constitution of the human being and chronologically the history of the universe and humankind Whereas the findings of natural science are derived from observations made through the senses the findings of Spiritual Science or Anthroposophy are occult inasmuch as they arise from direct observation of realities hidden to ordinary perception And yet these elements of humanity and the universe form the foundation of the sense world A substantial part of Occult Science is taken up with a description of the preliminary training needed to make such spiritual observations Given his energetic involvement in practical initiatives and extensive lecturing Steiner had little time to write books Of those he did write four titles form an indispensable introduction to his later teaching The Philosophy of Freedom CW 4 Theosophy CW 9 Knowledge of the Higher Worlds CW 10 and Occult Science An Outline CW 13 Occult Science An Outline is a translation from German of Die Geheimwissenschaft im Umriss GA 13 **Some Glimpses of Occultism** Charles Webster Leadbeater,1909 True Knowledge of the Christ Rudolf Steiner,2015-08-19 All existence is spirit Just as ice is water so matter is also spirit Mineral vegetable animal or human all are a condensed form of spirit Rudolf Steiner In the two lecture courses featured in this volume Rudolf Steiner presents a radical new paradigm Tackling the central dilemma of modern civilization the polarisation of science and spirituality he seeks to broaden natural science through a comprehensive spiritual science Rather than harking back to old spiritual forms or religions Steiner s approach is based on a conscious and systematic intensification of

thinking and perception Rudolf Steiner approaches this spiritual scientific task from two perspectives In Kassel Germany he deepens insight into theosophy and Rosicrucianism showing their relationship to science and religion Although presented as an introduction Steiner was never interested in simply providing information not even in the form of new revelations and his insights are from fresh angles and with new illustrative examples These lectures deepen and develop key elements found in his fundamental works Occult Science An Outline and Theosophy Also featured are the fascinating question and answer sessions from the Kassel lectures In Basel Switzerland Rudolf Steiner discusses that most esoteric of the accounts of the life of Christ the Gospel of John Whilst the focus is on the gospel basic tenets of spiritual science human existence and world evolution are considered as is the concept of karma and the true nature of Christianity In both sets of lectures Steiner dwells on the Prologue to the Gospel of John given in his own translation which offers a meditative approach to gaining insight into both the gospel and Christianity as a whole Rather than distancing us from life each of the lectures in this volume brings us closer to reality As Rudolf Steiner states Rosicrucian theosophy does not make us into eccentrics outsiders but into friends of existence for it doesn't look down on everyday life alienating us from our mission on earth it brings us closer
