### **The Orb Project** Klaus Heinemann, Miceal

Ledwith, 2007-11-06 After literally stumbling into orbs appearing as bright as light bulbs in photographs he was taking at a spiritual retreat Dr Klaus Heinemann immediately sensed that he was onto something profound There was no choice but to convince himself that his notion was on solid grounds Heinemann looked at thousands of pictures he had taken earlier and thousands more would be taken to test the hypothesis that these light circles are nothing less than emanations from Spirit beings Dr Miceal Ledwith had a similar experience after the orb phenomenon was first made known to him through the teachings of Ramtha He began an intense and systematic study of orbs in all sort of situations day and night and in all sorts of atmospheric conditions in order to discover all he could about their nature the situations in which their presence could be most easily detected and what implications they might have for our understanding of our own place in the cosmos To date he has amassed a collection of well over 100 000 images In The Orb Project Ledwith and Heinemann present their fascinating discoveries along with practical tips that amateur digital photographers can use to photograph orbs and properly distinguish them from false orbs that are really dust or water particles They offer guidelines on deciphering the orbs various patterns features and characteristics based on their extensive research As Dr Ledwith points out once you develop a keen and sustained interest in photographing spirit entities some quite interesting things begin to happen the brain stops censoring these images and you can begin to see with orbs with the naked eye in more color and detail than is visible to even a digital camera Ledwith and Heinemann also explore communication with orbs and what their existence means to our lives The implications of a realization that we are surrounded by a cloud of witnesses are enormous and incredibly hopeful for the world at large

*Living Quantum Resplendency* Dr. Angela Longo, 2012-10-19 Our lives are supposed to be resplendent radiant and glorious. Instead what most of us experience is a life filled with struggle conflict and illness. Relationshifting creates a bridge to a new life based upon Dr. Angela Longo's more than forty years of clinical experience. Dr. Longo offers an overview of the eight bottom lines which she defines as the eight major ways in which we block the flow of positive energy into our lives. She explains how to shift that energy to resplendent living by relationshifting through quantum resplendency, a quantum way of living. The Relationshifting workbook includes explanations and exercises using the following tools: Heartwaving is an easy to use technique used to shift old unproductive patterns to resplendency. Bathwaves are Longo's self-created energy patterns based upon her beliefs, attitudes, thoughts, habits, words, actions, values, and emotions. Love Letters are messages she sends to herself to guide her to living resplendency. Triunity shows her she is actually three beings in one, promoting understanding of her larger persona. Eternalbeing indicates the larger unique purpose of her life. Muscle testing helps to assess her perceptions and patterns. Shifting the Eight Bottom Lines, the eight judgments that keep her from changing her Bathwaves to living resplendency. Relationshifting demonstrates the fact that when you are living in the resplendent way, life is EEEZY. An eternal emergent entanglement as a zestful you.
