## Somerville Images Of America:

**Somerset County in Vintage Postcards** Alan A. Siegel,1999-03-01 From the 1890s through the 1920s the postcard was an extraordinarily popular means of communication and many of the postcards produced during this golden age can today be considered works of art Postcard photographers traveled the length and breadth of the nation snapping photographs of busy street scenes documenting local landmarks and assembling crowds of local children only too happy to pose for a picture These images printed as postcards and sold in general stores across the country survive as telling reminders of an important era in America s history This fascinating new history of New Jersey s Somerset County showcases more than two hundred of the best vintage postcards available

*Normalites* Kelly Ann Kolodny,2014-04-01 *Normalites* The First Professionally Prepared Teachers in the United States is a new original work which explores the experiences of three women Lydia Stow Mary Swift and Louisa Harris who were pioneers in the movement in teacher education as members of the first class of the nation s first state normal school established in Lexington Massachusetts in 1839 The book is biographical offering new insights derived from exceptional research into the development of the normal school movement from the perspectives of the students While studies have provided analysis of the movement as a whole as well as some of the leaders of the initiative such as Horace Mann and Henry Barnard there is a lack of rich published information about the first groups of students Understanding their accounts and experiences however provides a critical foreground to comprehending not only the complexity of the nineteenth century normal school movement but more broadly educational reform during this period Arranged chronologically and in four parts this book explores the experiences of Lydia Stow Mary Swift and Louisa Harris during their normal school studies their entrance into the world and commencement of their careers the transitions in their personal and professional lives and the building of their life work Throughout these periods their formal educational experiences as well as broader moments of transformation are considered and how life paths were shaped This book will be of interest to undergraduate and graduate students and faculty connected to teacher preparation programs More than 100 000 students are currently awarded baccalaureate degrees each year in Education Over 80 000 of these students are women Their experiences are rooted in the pioneering efforts of Lydia Stow Mary Swift and Louisa Harris at our nation s first state normal school It is a particularly fitting time to share their experiences as the 175th anniversary of the start of formal state sponsored teacher education the normal school movement will be celebrated in 2014

*Pie Traynor* James Forr,David Proctor,2010-02-01 A Baseball Hall of Famer as of 1948 Pie Traynor was the face of Pittsburgh baseball during the twenties and thirties when the Pirates were a perennial pennant contender They won the Series in 1925 Traynor was a line drive hitter who drove in runs as effectively with doubles and triples as most of his peers did launching balls over the fence and by all accounts he was a dazzling defender After his playing days ended Traynor stayed in Pittsburgh managing the Pirates for five years and working as a popular broadcaster for decades cementing his place as one of the most popular athletes ever to

play in the Steel City      **Somerville** Anthony Mitchell Sammarco,2003 Once a part of Charlestown that could only be reached via The Neck present day Sullivan Square Somerville became accessible from Boston with the construction of the Middlesex Canal and the extension of various rail lines in the mid to late nineteenth century By 1842 Somerville s population had increased to the point that the town officially separated itself from Charlestown Over the years the population continued to grow With the increase in population came tremendous change including the subdivision of farms and estates for residential neighborhoods The city of Somerville was incorporated in 1871 and the bucolic borough became the beloved hometown of many residents over the next century Described by Mayor Edward Glines as healthy morally clean comfortable and convenient Somerville has thrived for years as an attractive modern residential neighborhood      **Forthcoming Books**

Sciences Ida H. Stamhuis,Teun Koetsier,Cornelis De Pater,Albert Van Helden,2012-12-06 The title of our book would lead the  
 reader to believe that in speaking of the changing image of the sciences we are taking for granted the multiplicity of sciences  
 as these are practiced for instance in modern universities That was of course not always the case Although we can point to  
 some subjects for instance mathematical astronomy as being demarcated to some extent from other subjects as far back as  
 Antiquity the current division into individual sciences can hardly be traced back further than the nineteenth century  
 Moreover the further we go back in history the more we must subsume science under general knowledge or scholarship  
 scientia Some of the earliest images of episteme or scientia are those of forbidden knowledge often related to technology on  
 the one hand and the absent minded scholar on the other These are powerful metaphors in word as well as image that have  
 been appropriated in various ages for different purposes The Greeks gave Western society its first images of the power  
 of knowledge and those who produced it Prometheus ridiculed the gods stole their fire and brought it down to Earth For this  
 Zeus had him chained to a rock on Mount Caucasus where a vulture fed on his liver during the day while it grew back at  
 night He was finally freed by Heracles     Cumulative List of Organizations Described in Section 170 (c) of the Internal
