Church as Network Jeffrey H. Mahan, 2021-12-15 Just as the emergence of print and literacy created conditions for vast religious change at the time of the Reformation the emergence of a digital culture shaped by computers and the internet has led to radically different assumptions about religious identity how people connect and maintain transformative relationships and how people follow and give authority to leaders The central issues concerning this digital culture are not technological but theological and anthropological Old models of stable religious identity and community seem irrelevant in a culture in which everyone is in motion The book identifies three profound changes produced by digital culture which challenge existing understandings of church 1 a shift to seeing Christian identity as an ongoing constructive project 2 the development of fluid networked forms of community and 3 the emergence of less hierarchical more conversational forms of leadership The Living Church ,1919 *The Church Historians of England* ,1855 **Christian Literature and Review of the Churches** ,1894 A Crack About the Kirk for Kintra Folk Norman Macleod,1843 **The Tablet** ,1879 The Youth's Magazine; Or, Evangelical Miscellany , □□□□□□ □□□ Muze'on Yisra'el (Jerusalem),1997 The Israel Museum Jerusalem The Shrine of the Book summer 1997 **Entire Works** John Bunyan, Henry Stebbing,1861 *The Evangelical Herald* ,1918 *Journal of the American Institute of Architects* American Institute of Architects,1924 The Entire Works of John Bunyan ...
