The image is a book cover with a dark, atmospheric background. In the center, a person is shown from behind, sitting in a meditative lotus position on a dark, rocky surface. Above them, a large, translucent moth with glowing orange and yellow patterns on its wings is positioned as if hovering. The background consists of a dense forest of tall, thin trees, with a bright, ethereal light source behind the person, creating a halo effect. The overall color palette is dominated by deep blues, purples, and greens, with the glowing elements providing a warm contrast.

**Dream-Dust Parasites** Ian Hobson, 2003-09. The year is 2011 and Samuel Elmsmore is adrift in the universe. After a series of breakdowns, he awakens as a virtual prisoner in a hostel for the mentally ill. He is estranged from his family and friends and is jobless after an unfortunate incident with an axe. He has also lost much of his memory and sense of identity and is about to learn that the government is monitoring him as a suspected terrorist. As he wanders the streets of a vast metropolis, the ghouls of his past start to merge with the nightmare creatures of a society turned predatory. He encounters a surreal band of activists, musicians, and street people. Among them is Annie, a strange woman who seems to know everything about everybody. Does she hold the key to his past?

*In Dream Dust Parasites*, Ian Hobson has written a fast-paced novel for the end time of the species. His characters are cynical of utopian solutions and haunted at every turn by the vertigo that typifies post-millennium life. A must-read for anyone struggling to make sense of the contemporary zeitgeist.

**PTSDreams** Linda Yael Schiller, 2022-09-08. Nightmares, especially those caused by trauma, not only disrupt your sleep but can leave you exhausted and on edge, haunting your daylight hours. With in-depth information on the nature of nightmares, international speaker, author, and psychotherapist Linda Yael Schiller shows you how to turn anxiety-filled or heart-pounding dreams into resources for spiritual growth. Her four decades of experience in both dreamwork and trauma treatment provide the reader with guidelines for turning PTSDreams into PTSG (Post-Trauma Spiritual Growth). Therapists, counselors, medical professionals, and healers of all stripes, as well as the general public, are often woefully unprepared to deal with their own or their clients' nightmares. Dreamwork and connecting the dots between dreams, nightmares, and a trauma history simply isn't taught in most professional graduate schools. We do ourselves and clients a disservice if we don't have the tools and methods to bring relief from this suffering. PTSDreams offers these tools, informed by Eye Movement Desensitization and Reprocessing (EMDR) methods to provide safe, non-triggering work and a Jungian active imagination approach that allows us to re-enter these dreams safely. This way, we can rework the dreams, resource the dreamer, and bring healing to both the nightmare and the root cause of the trauma. When unaddressed, these dark dreams can follow us around in other forms, sneaking in through the cracks and fissures of our consciousness until they are finally faced.

comforted and healed As Jungian analyst Dr Yorum Kaufman taught an inability to find a place for these memories keeps us shackled to a constrained Sisyphean world whereby our movement into the future is thwarted by these forgotten memories that keep pushing us back down the hill While retrieving these memories is a psychological issue learning to live with what we remember is a spiritual process Who can benefit from addressing their nightmares Victims of violence refugees veterans childhood abuse survivors victims of bullying and gender or racial violence anyone with shattered or disrupted lives Trauma can be personal familial ancestral global and environmental Both current and historical trauma and stress can benefit from this healing work Linda s technique is also being used internationally to help war trauma survivors Armed with effective techniques and Linda s warm compassionate voice you can learn to safely heal post traumatic nightmares and their root causes She teaches the Guided Active Imagination Approach GAIA a method she developed based on best practice trauma treatment and Jungian active imagination principles Through compelling case descriptions and thoughtful exercises you will learn how to apply a multiplicity of integrated and embodied dreamwork techniques Linda also provides somatic narrative and psycho spiritual approaches Combining neuroscience healing mysticism and creativity PTSDreams helps you transform nightmares into a new story one of hope healing and life affirming images *Butterfly's Dream* Marian C. Ghilea, 2018-09-02

Once upon a time I dreamed I was a butterfly This is how Chuang Tzu s famous anecdote begins It is a short parable about the relativity of perception written more than two thousand years ago Many of us have experienced similar situations and wondered at times if we could tell dreams from reality Butterfly s Dream expands Chuang Tzu s story into a surreal quest of adventure romance and self discovery at the end of the 18th century Despite the fantasy like atmosphere the novel accurately follows the laws of physics and would best fit into the hard sci fi category Alberto is the second lieutenant on Excelsior a military brig involved mostly on sea patrolling missions He has a keen interest in science and a mind inclined towards exploration and introspection Most of his sailing trips are uneventful with his ship transporting troops and ammunition to various locations managed by the navy But things are about to change When the ship encounters a magnetic storm the crew members find themselves sailing in uncharted waters The next day Excelsior casts anchor at the pier of a mysterious city that doesn t seem to be located on Earth Soon Alberto becomes involved in complex events that make him question the surrounding reality and even his sanity The fabulous world he gets to explore looks nothing like the world from his space and time And what are space and time after all In this place so different from Earth Alberto meets Nivit a beautiful and accomplished physician and falls in love with her Soon they are swept into an unexpected journey of adventure and self discovery that carries them through stranger and stranger realms and realities Can the rational mind defy the irrational Can love defend against extreme weather and death Does time always flow in the same direction What is real What is a dream A mirror reflecting itself What would it show A mirror reflecting another mirror What would it see Look inside the mirror open the door step onto the path stretching beyond its surface and you might find out Are you ready If you enjoy reading this story
