Copyright Office,1953 **Mahler's Symphonic Sonatas** Seth Monahan,2015-03-16 Why would Gustav Mahler 1860 1911 modernist titan and so called prophet of the New Music commit himself time and again to the venerable sonata allegro form of Mozart and Beethoven How could so gifted a symphonic storyteller be drawn to a framework that many have dismissed as antiquated and dramatically inert Mahler's Symphonic Sonatas offers a striking new take on this old dilemma Indeed it poses these questions seriously for the first time Rather than downplaying Mahler's sonata designs as distracting anachronisms or innocuous groundplans author Seth Monahan argues that for much of his career Mahler used the inner goal directed dynamics of sonata form as the basis for some of his most gripping symphonic stories Laying bare the deeper narrative processual grammar of Mahler's evolving sonata corpus Monahan pays particular attention to its recycling of large scale rhetorical devices and its consistent linkage of tonal plot and affect He then sets forth an interpretive framework that combines the visionary insights of Theodor W Adorno whose Mahler writings are examined here lucidly and at length with elements of Hepokoski and Darcy's renowned Sonata

Theory What emerges is a tensely dialectical image of Mahler's sonata forms one that hears the genre's compulsion for tonal rhetorical closure in full collision with the spontaneous narrative needs of the surrounding music and of the overarching symphonic totality It is a practice that calls forth sonata form not as a rigid mold but as a dynamic process rich with historical resonances and subject to a vast range of complications curtailments and catastrophes With its expert balance of riveting analytical narration and thoughtful methodological reflection Mahler's Symphonic Sonatas promises to be a landmark text of Mahler reception and one that will reward scholars and students of the late Romantic symphony for years to come

Re-Reading the Beethoven Violin Sonatas Daniel Tong, 2025-04-08 New readings of the ten Beethoven sonatas for piano and violin embracing both the performer's interpretation and the analyst's rigour This book provides new readings of the ten Beethoven sonatas for piano and violin many of which have been given surprisingly little attention by scholars to date This may be because nine of the sonatas are relatively early works written between 1797-1803 with only the final sonata Op 96/1812 standing apart However within these ten works Beethoven demonstrates numerous aspects of his musical personality and compositional style The analyses in this book engage with postmodern concerns such as hermeneutics intertextuality gender humour narratology and human interest revealing characteristics within these sonatas that have been slow to come to light Here are examples of the Beethovenian narrative that do not always encapsulate heroic struggle and triumph in many of the sonatas we find a witty smiling composer at odds with the growling Beethoven iconography Works within the violin sonata cycle interrogate the hypermasculine Beethoven trope before the last sonata is explored via a host of intertextual relationships with a body of early Romantic repertoire that emerged after Beethoven's death Embracing both the performer's interpretation and the analyst's rigour or vice versa this work offers methodologies for performer's analysis whilst acknowledging that both disciplines are essential to any project that seeks to address the nature of music as it is experienced in time
