The Guggenheim Museum Collection Paintings 1880-1945 Volume II:

Franz Marc: The Complete Works Volume II Annegret Hoberg, Franz Marc, Isabelle Jansen, 2004 Franz Marc was one of the most important members of the Blue Rider school of painters together with other artists such as Wassily Kandinsky, Gabriele Mnter and Paul Klee The second of a three part catalogue raisonné of Marc's work this volume features the watercolours, works on paper, sculpture and decorative arts **Masterpieces of European Painting, 1800-1920, in the Metropolitan Museum of Art** Metropolitan Museum of Art (New York, N.Y.), Kathryn Calley Galitz, 2007 **Watercolors by Kandinsky at the Guggenheim Museum** Wassily Kandinsky, Solomon R. Guggenheim Museum, 1991 *Invisible Colors* John C. Welchman, 1997-01-01 In one of his sparkling aphorisms on the end of optical art Marcel Duchamp suggested that the title of an artwork was an invisible color John Welchman now offers the first critical history of how and why modern artworks receive their titles He shows that titles were seldom produced and can rarely be understood outside of the institutional parameters that made them visible: exhibitions, criticism, catalogues and even national politics **The Guggenheim Museum Collection** Solomon R. Guggenheim Museum, Angelica Zander Rudenstine, 1976 *"Apollinaire, Cubism and Orphism"* Adrian Hicken, 2017-07-05 During the years before his death in 1918 Apollinaire's reputation as poet and artistic animateur approached legendary proportions This book is the first to present an extensive reassessment of Apollinaire's role in the promotion of themes and iconography amongst his painter friends Detailed analysis of the poetic subject matter of selected works of Dufy, Delaunay, de Chirico, Laurencin, Marcoussis, Metzinger, Picabia and Picasso is used to reconstruct the responses of these artists to Apollinaire's artistic and aesthetic proclivities Drawing attention to the poet's immersion in the art and iconography of the French late Renaissance and the seventeenth century Adrian Hicken shows that the study of the permeation of Apollinairean and Orphic imagery in the work of artists with very different personalities presents a fascinating and pivotal episode in the history of Parisian modernism *Potential Images* Dario Gamboni, 2002 In *Potential Images* Dario Gamboni explores ambiguity in modern art considering images that rely to a great degree on a projected or imaginative response from viewers to achieve their effect Ambiguity became increasingly important in late 19th and early 20th century aesthetics as is evidenced in works by such artists as Redon, Cézanne, Gauguin, Ensor and the Nabis Similarly the Cubists subverted traditional representational conventions requiring their viewers to decipher images to extract their full meanings The same device was taken up in the various experiments leading to abstraction For example it was Kandinsky's intention that his work could be interpreted in both figurative and non-figurative ways and Duchamp's Readymades suggested the radical conclusion that it is the beholder who makes the picture These invitations to viewers to participate in the process of artistic communication had social and political implications as they accorded artist and beholder symmetrical, almost interchangeable roles *Concerning the Spiritual—and the Concrete—in Kandinsky's Art* Lisa Florman, 2014-03-26 This book examines the art and writings of Wassily Kandinsky who is widely regarded as one of the first

artists to produce non representational paintings Crucial to an understanding of Kandinsky s intentions is On the Spiritual in Art the celebrated essay he published in 1911 Where most scholars have taken its repeated references to spirit as signaling quasi religious or mystical concerns Florman argues instead that Kandinsky s primary frame of reference was G W F Hegel s Aesthetics in which art had similarly been presented as a vehicle for the developing self consciousness of spirit or Geist in German In addition to close readings of Kandinsky s writings the book also includes a discussion of a 1936 essay on the artist s paintings written by his own nephew philosopher Alexandre Kojve the foremost Hegel scholar in France at that time It also provides detailed analyses of individual paintings by Kandinsky demonstrating how the development of his oeuvre challenges Hegel s views on modern art yet operates in much the same manner as does Hegel s philosophical system Through the work of a single crucial artist Florman presents a radical new account of why painting turned to abstraction in the early years of the twentieth century

The Twentieth Century German Art Exhibition Lucy Wasensteiner,2018-10-09 This book represents the first study dedicated to Twentieth Century German Art the 1938 London exhibition that was the largest international response to the cultural policies of National Socialist Germany and the infamous Munich exhibition Degenerate Art Provenance research into the catalogued exhibits has enabled a full reconstruction of the show for the first time its contents and form its contributors and their motivations and its impact both in Britain and internationally Presenting the research via six case study exhibits the book sheds new light on the exhibition and reveals it as one of the largest migr projects of the period which drew contributions from scores of German migr collectors dealers art critics and from the degenerate artists themselves The book explores the show s potency as an anti Nazi statement which prompted a direct reaction from Hitler himself

Line + Movement Annely Juda Fine Art,1979 *Kazimir Malevich* Rainer Crone,David Moos,1991 Malevich s sudden and startling realization of a non objective way of painting which he termed Suprematism stands as a seminal moment in the history of twentieth century art Rainer Crone and David Moos trace the artist s development from his beginnings in the Ukraine and early years in Moscow where he was closely involved in the

Futurist circle through to the late 1920s and beyond The authors of this book convincingly demonstrate that it is only through a close and sustained reading of Malevich's late and still widely misunderstood painterly oeuvre that his extraordinarily inventive stance can truly be comprehended Crone and Moos trace the close relationship between Malevich's practice and other contemporary non political revolutions in physics linguistics and poetry They present Malevich as a uniquely creative artist embodying in his work many of the insights and discoveries that define the twentieth century and the condition of modern life
