The Guilt Merchants:

The Guilt Merchants Ronald Harwood,1969 **Cold Case Files** Wayne R. Dunham,2007 *Annual Report of the Boston Board of Trade, Merchants Exchange ...* Boston Board of Trade,1866 We Were Merchants Hans J. Sternberg,2009-10 While most former patrons have a favorite story to tell about Goudchaux s Maison Blanche not many know the personal tale behind this beloved institution In *We Were Merchants* Hans Sternberg provides a captivating account of how his parents Erich and Lea fled from Nazi Germany to the United States embraced their new home and together with their children built Goudchaux s into a Baton Rouge legend that eventually became Goudchaux s Maison Blanche an independent retail force during the golden era of the department store and by 1989 the largest family owned department store in America P 2 of cover **Merchants and Ministers** Kevin Schmiesing,2016-12-14 Two of the most influential forces in American history are business and religion *Merchants and Ministers* weaves the two together in a history of the relationship between businesspeople and Christian clergy From fur traders and missionaries who explored the interior of the continent to Gilded Age corporate titans and their clerical confidants to black businessmen and their ministerial collaborators in the Civil Rights movement *Merchants and Ministers* tells stories of interactions between businesspeople and clergy from the colonial period to the present It presents a complex picture of this relationship highlighting both conflict and cooperation between the two groups By placing anecdotal detail in the context of general developments in commerce and Christianity *Merchants and Ministers* traces the contours of American history and illuminates those contours with the personal stories of businesspeople and clergy **Ronald Harwood's Tragic Vision** Ann C. Hall,2024-11-26 Art has a lot to answer for So says Sarah Bernhardt in Ronald Harwood s play *After the Lions* Harwood s own career can be summarized by that same quote as well Ronald Harwood s *Tragic Vision* offers the first critical analysis of prolific and award winning British author Ronald Harwood 1934 2020 Though he received an Oscar for *The Pianist* a knighthood and numerous other awards and nominations Harwood worked as a ghostwriter script doctor and veritable unknown for many years As he became successful many critics still misread his works and positioned him as a less fashionable counterpart to his lifelong friend Harold Pinter This study proposes a conceptual framework to approach his and others work based on the genre of tragedy offering a greater appreciation for and understanding of the Harwood canon Extension of Emergency Price Control Act United States. Congress. House. Committee on Banking and Currency,1944 The Sense of the People Kathleen Wilson,1995-07-28 The people the empire the political subject all three were contentious issues in the politics and culture of eighteenth century English cities This study explores how these three issues came to occupy central roles in the wide ranging political cultures of English towns between the Hanoverian Succession and the American war enabling a variety of groups outside the structures of the state to claim a stake in national affairs **The Seventeenth-Century Customs Service Surveyed** William B. Stephens,2016-03-03 In January 1682 William Culliford a loyal and experienced officer in the King s customs

service began an extraordinary journey under Treasury orders to investigate the integrity and efficiency of the customs establishments of southwest England and south Wales as part of a drive to maximize the Crown's income from customs duties on which it relied for much of its revenue. Starting at Bristol, Culliford eventually completed this daunting task in Cornwall over two years later in the spring of 1684. His report on each of the ports he inspected, the primary source for this book, revealed widespread smuggling and fraud in the context of a customs service both lacking in efficiency and riddled with corruption. The book documents the varied frauds and wide-ranging abuses uncovered and their facilitation by customs officers only too ready to collude with smugglers, dishonest merchants and seamen and to accept bribes to ignore tax evasion. It describes too Culliford's assessment of the administrative practices of each port inspected and his judgment on the levels of probity and efficiency of individual officers, detailing his recommendations for procedural improvements and the treatment of the corrupt and incompetent and incidentally of those suspected of political and religious dissent. Additionally, the book presents a body of statistical data on the customs revenue actually collected at individual ports in the 1670s and 1680s and surveys the extent and nature of the maritime trade of the ports Culliford examined. It thus not only throws light on the history of the customs service but provides a rare insight into the interactions of economic, social and political issues in the later seventeenth century and makes a valuable contribution to the particular histories of the ports and maritime districts visited by this energetic and tenacious investigator.

Fraser's Magazine, 1839 **Fraser's Magazine for Town and Country**, 1839 *Fraser's Magazine for Town and Country* James Anthony Froude, John Tulloch, 1839 **English Economic History** Alfred Edward Bland, Philip Anthony Brown, Richard Henry Tawney, 1919 **Collective Responsibility** Gregory F. Mellema, 2021-11-15 Groups of people are commonly said to be collectively responsible for what has happened. Sometimes the groups claimed to be responsible are vast in size as when collective responsibility is ascribed to the class of all Americans or the class of all white males. In this book the concept of collective responsibility is analyzed. It is examined not only in the light of what philosophical proponents such as Cooper, Held, Bates, French, Swinburne and May have said about it but a genuine attempt is made to make sense of what ordinary people say about responsibility when it is ascribed to groups of people. Accordingly it is distinguished from related concepts such as shared responsibility and moral taint. Parallels are examined between the actions of an individual and the actions of a group or collective parallels which seem to make ascriptions of collective responsibility more plausible. Some philosophers oppose collective responsibility and argue for an individualist type of position. In this regard the positions of Lewis and Sverdlik are critically examined. The final chapter contains the author's own position, a position which affirms that collective responsibility is possible but which also preserves some of the central intuitions of the individualist.

The British Merchant, 1748 *Flour and Feed*, 1921 Flour & Feed, 1909 The King of Vodka Linda Himmelstein, 2010-11-30 Born in a Russian village in 1831 Pyotr Smirnov relied on vodka to turn a life of scarcity and anonymity into one of immense wealth and international recognition. Starting from the

back rooms and side streets of nineteenth century Moscow Smirnov exploited brilliant grassroots marketing strategies to popularize his products and ensconce his brand in the thirsts and imaginations of drinkers around the world His vodka would be gulped in the taverns of Russia and Europe be praised with accolades at world fairs and become a staple on the tables of tsars But his improbable ascent would be halted by the chaos of the Bolshevik Revolution and only a bizarre set of coincidences including an incredible prison escape by one of Smirnov s sons in 1919 would prevent Smirnov s legacy from fading into obscurity Set against a backdrop of political and ideological currents that would determine the course of global events The King of Vodka is much more than a biography of a humble serf who rose to create one of the most celebrated business empires the world has ever known It is a work of sweeping narrative history on an epic scale British Merchant Shipping Clement Jones,1922 **Studies in English Trade in the 15th Century** Eileen Power,M.M. Postan,2013-11-05 Of all the activities of the most neglected century in English History England s trade has received the least attention in proportion to its importance It was obviously in the course of the later Middle Ages and more particularly in the fifteenth century that there took place the great transformation from medieval England isolated and intensely local to the England of the Tudor and Stuart age with its world wide connections and imperial designs It was during the same period that most of the forms of international trade characteristic of the Middle Ages were replaced by new methods of commercial organization and regulation national in scope and at times definitely nationalistic in object and that a marked movement towards capitalist methods and principles took place in the sphere of domestic trade Yet little has been written concerning English trade in this period First published in 1933 this classic volume goes a long way to fills this gap superbly There is an abundance of material and the writers have compiled a statistical analysis of the Enrolled Customs Account from 1377 1482 which provides an essential measure of the nature volume and movement of English foreign commerce during the period
