**the Illicit Drug Traffic** F. LaMond Tullis, LaMond Tullis, United Nations Research Institute for Social Development, 1991-09-30 Focusing on a highly controversial and fiercely debated subject this survey tracks the social and economic consequences of the production trafficking and consumption of cocaine heroin and cannabis From a growing body of literature LaMond Tullis has extracted the most salient economic social and political themes currently under discussion in both scholarly publications and in the responsible press The two part volume consisting of a lengthy review of relevant literature and an annotated bibliography helps its users understand the major issues Can and should consumption be

curtailed supplies suppressed and traffickers eliminated Can the unintended economic social and political consequences of curtailing suppressing and eliminating somehow be mitigated Should these drugs be legalized Would legalization produce its own array of unintended and largely unacceptable consequences Although tentative answers to these questions abound this excellent resource is testimony to the fact that there is still little agreement on how to deal with these powerful substances and the problems they generate Tullis's compilation presents the best overview of this complex subject to date The first half of this two part reference consists of a survey of the published literature on the production and consumption of the three illicit drugs Chapters are devoted to the global patterns of production and consumption of cocaine heroin and cannabis to the consequences both positive and negative of drug consumption and production and to the policy measures that have been adopted or are under consideration in both consuming and producing countries These chapters will be of interest to those wishing to obtain an overall view of the subject and to specialists seeking a guide to the literature outside their particular area of knowledge The second half of the book contains an annotated bibliography of about 2 000 items covering works published in English plus a few in Spanish as books articles or press reports This section will be invaluable to researchers working on the frontiers of the subject and to general readers who wish to pursue particular topics in greater depth The volume should be at the fingertips of policy makers legislators law enforcement officials judges and social workers as well as students and teachers
