How to Get the Health Care You Want Laura L. Casey,2007-03 In the labyrinth of modern healthcare many patients lose out at some time or another to confusion bureaucracy inefficiency and uncaring providers Without a savvy guide to differentiate good providers from bad many of these patients are stuck with the luck of the draw when it comes to treating

their illnesses Laura Casey's *How to Get the Health Care You Want* addresses this problem head on with proactive solutions that put the patient or patient's advocate back in control to secure the best available care This book will help you navigate all the ins and outs of modern medical care with straightforward and helpful steps to improving the quality and efficiency of care It addresses the topics most readers will be concerned about such as how to work with uncooperative medical professionals or their staff how to demystify insurance policies and clinician qualifications and ways to handle billing errors and insurance disputes Consumers' Guide to Health Plans, 1996 *Citizens and Health Care* Barry Checkoway, 2013-10-22 *Citizens and Health Care* Participation and Planning for Social Change considers the citizen participation in health care planning This book is organized into three parts encompassing 18 chapters that specifically discuss the leading policy problems planning issues and prospects for change of public health care The first part deals first with the analysis of the imbalanced political arenas in which planning and participation operate This part then explains the role of consumer participation on health planning boards in effective participation This part also describes alternative health movements that have arisen in response to perceived social shortcomings These movements including holistic health care self care and prevention tend to oppose the disease orientation of scientific medicine emphasize continuous care make use of nonphysician practitioners and have a serious commitment to changing life styles The second part describes health planning agencies that have employed innovative methods of citizen participation and the case of a health planning agency that uses community organization to ensure participation and build constituencies to overcome resistance and implement plans This part also examines political strategies for health planning agencies The third part introduces the so called public health movement which grows from recognition of the environmental occupational and social causes of illness This part also looks into the expansion of vision of social change beyond existing health policy and planning as well as the unrealistic expectations and irreconcilable alternatives between imperfections of the bureaucracy and imperfections of the marketplace This book is of great value to health care workers and planners and the general public **Health Care for Some** Beatrix Hoffman, 2012-09-28 Skillfully chronicles America's struggles to make health care a right from the Depression through Obamacare beautifully written and compelling Jonathan Oberlander author of *The Political Life of Medicare* Named by Choice as an Outstanding Academic Title In *Health Care for Some* Beatrix Hoffman offers an engaging in depth look at America's long tradition of unequal access to health care She argues that two main features have characterized the US health system a refusal to adopt a right to care and a particularly American approach to the rationing of care *Health Care for Some* shows that the haphazard way the US system allocates medical services using income race region insurance coverage and many other factors is a disorganized illogical and powerful form of rationing And unlike rationing in most countries which is intended to keep costs down rationing in the United States has actually led to increased costs resulting in the most expensive health care system in the world While most histories of US health care emphasize failed policy reforms *Health Care for Some* looks at the system from the ground up in

order to examine how rationing is experienced by ordinary Americans and how experiences of rationing have led to claims for a right to health care By taking this approach Hoffman puts a much needed human face on a topic that is too often dominated by talking heads A well researched readable primer on the development of the complex fragmented US medical system Times Higher Education **Consumer's Guide** ,1944 *Connecting with the New Healthcare Consumer* David B.
