Sutherland, 1985-01-01 Sixteen papers from the 1984 multidisciplinary symposium entitled The Franklin Era in Canadian Arctic History 1845-59 held in Ottawa Ontario The papers address a wide range of research topics and issues surrounding the disappearance of Sir John Franklin and his third expedition to the Canadian Arctic 1845-1848 and the subsequent search efforts that spanned the period from 1847 to 1859 Published in English Tiger on the Brink Bruce Gilley, 1998-10-01 This pathbreaking book is the first full length study of the rise to power of Jiang Zemin now the central figure in China's third generation of leaders Tracing Jiang's beginnings as a student in the underground Communist movement in Shanghai through his appointment by Deng Xiaoping as party general secretary and his sudden elevation to central authority in the wake of the 1989 Tiananmen Massacre in Beijing Bruce Gilley offers a fascinating and highly readable look at how Jiang Zemin has secured his position as one of the world's most powerful figures Gilley follows Jiang's life and career from his early years as the adopted son of a revolutionary martyr through his training in Western science and engineering to his emergence as what many believed would be an interim figurehead in the wake of Tiananmen Gilley shows how Jiang instead persisted as China's key leader following the death of Deng Xiaoping While he shared the concerns of the last of the Party elders including their idealistic views of Chinese socialism he also accommodated the younger generation of economic reformers who have helped China to achieve staggering growth in its domestic economy and foreign trade Gilley's analysis of the careful and methodical transition of power from Deng to Jiang during the 1990s is a remarkable study in complexity and contrast clearly illustrating Jiang's ability to either placate his allies and adversaries or ruthlessly exploit their weaknesses Based on first hand interviews and primary documents as well as a variety of mainland Chinese and international media sources *Tiger on the Brink* is an

unprecedented and immensely revealing look into the highest echelons of Chinese politics on the eve of the twenty first century and will be of interest to anyone concerned with the world s most populous nation and its newest emerging superpower

The Valley of Cross Purposes Carol J. Frost PhD,2017-03-31 In the late 1800s Charles Nordhoff forged the shape of modern journalism and profoundly influenced both politicians and politics Principled activist investigative and a champion of the disenfranchised and poor he was more interested in character and results than in personality and credit And like the blacksmith wielding his hammer he left us the tangible products of his labors but few details of himself With superb research illuminating insights and eloquent prose Carol Frost brings Nordhoff vividly to life both the man and his extraordinary impacts on politics journalism government and public discourse impacts that are still defining public life today Journalists historians and activists will find context and inspiration in this captivating and previously untold story a story that in many important ways feels like it was written about the events and debates of our own time rather than those of more than 100 years ago

The Treaty of Waitangi; or, how New Zealand became a British Colony Thomas Lindsay Buick,2019-12-11 In The Treaty of Waitangi or how New Zealand became a British Colony Thomas Lindsay Buick meticulously examines the pivotal moment when New Zealand transitioned from a collection of M ori tribes to a formal British colony Buick employs a clear and engaging narrative style weaving together historical facts legal analyses and the social repercussions of the 1840 treaty As he navigates the complexities of colonial interactions the work situates itself within the broader context of British imperial expansion and the ethical dilemmas posed by colonization offering a critical lens on the interplay between M ori sovereignty and British governance Thomas Lindsay Buick was an accomplished historian and a prominent figure in the study of New Zealand s colonial history often motivated by a desire to highlight indigenous perspectives in the shadow of governmental authority His

extensive research and personal experiences in New Zealand provided him with unique insights into the complex relationships between M ori and European settlers shaping the narrative presented in this significant work Buick s scholarship aims to foster understanding and reconciliation regarding New Zealand s colonial past making it a social commentary as well as a historical account This book is essential for scholars and readers interested in New Zealand history post colonial studies and the broader implications of treaties in imperial contexts Buick s thorough investigation not only enriches our understanding of the Treaty of Waitangi but also invites reflection on its lasting impacts and the ongoing quest for justice among the M ori people Therefore this work is a vital resource for anyone seeking a deeper grasp of New Zealand s colonial legacy and its modern resonances **The Witness of Preaching, Second Edition** Thomas G. Long,2005-10-20

Aeschylus, Character, and the Yoke of Necessity Mark Ringer,2025-09-04 *Aeschylus Character and the Yoke of Necessity* considers the works of Aeschylus in the context of the playwright s handling of dramatic character and the conflict between freedom and compulsion Aeschylus was an Athenian citizen during the first generation of that polis s democratic system As such he and his contemporaries were encountering a kind of free agency unknown before in history Aeschylus presents the archetype of the tragedy of character that will resonate throughout world literature It is a fascinating and essential component to the conception of his drama that his protagonists each of the six plays find ways of escaping freedom in exchange for a self imposed spiritual bondage They slip their necks into the yoke of necessity to borrow a pivotal line from the Agamemnon Caught between their individual motives and the unavoidable necessity of their situation each protagonist handles this conflict in a way that defines the specificity of their character and results in the development of the plot This book also explores the frequently dominant position of the Aeschylean chorus *Silence in the Land of Logos* Silvia

Montiglio,2010-05-17 In ancient Greece the spoken word connoted power whether in the free speech accorded to citizens or in the voice of the poet whose song was thought to know no earthly bounds But how did silence fit into the mental framework of a society that valued speech so highly Here Silvia Montiglio provides the first comprehensive investigation into silence as a distinctive and meaningful phenomenon in archaic and classical Greece Arguing that the notion of silence is not a universal given but is rather situated in a complex network of associations and values Montiglio seeks to establish general principles for understanding silence through analyses of cultural practices including religion literature and law Unlike the silence of a

Christian before an ineffable God which signifies the uselessness of words silence in Greek religion paradoxically expresses the power of logos for example during prayer and sacrifice it serves as a shield against words that could offend the gods Montiglio goes on to explore silence in the world of the epic hero where words are equated with action and their absence signals paralysis or tension in power relationships Her other examples include oratory a practice in which citizens must balance their words with silence in very complex ways in order to show that they do not abuse their right to speak Inquiries into lyric poetry drama medical writings and historiography round out this unprecedented study revealing silence as a force in its own right *Smar: Return of the Machines* David T Bennett, 2024-02-02 Back on Topside and a chance discovery reunites our gang of misfits for a second perilous adventure With Nerak and Karel remaining on Topside to watch their discovery Tega meets with his old friends to meet up with the now released professor Snikwah at the infamous resort of Rocby on Sea There they meet up with Fisah an old friend of Ha ans Their journey will take them across the Sea of Despair and along the Ancient Highway What they find at the end of the Highway amazes and confuses them Below and in a secret scientific research centre a strange device from the landing site emits sounds Unaware of its significance and unsure of its risk to Below the Hierarchy sends a reluctant Professor Xoc and the device on the fastest and most terrifying way across Topside to meet up with our crew Meanwhile Raciv head of the clerics is aware of what secrets lie at the end of the Highway He has deemed that no one finds out the truth about the National Library Jes is despatched to make sure of this but with his newfound knowledge and friendship with the once abandoned journalist Asil will Jes obey or defy his master s orders What has Asil discovered and just how far will she go to get revenge All this culminates in a historic meeting of Simians and Machine which would bring about a new era for both A new era that will bring about events that will change things forever

The North Reports the Civil War J. Cutler Andrews, 2011-12-09 Andrews presents the drama of the Civil War as seen through the eyes of reporters own diaries dispatches and printed news stories *The State of the University* Stanley Hauerwas, 2008-04-15 In this book controversial and world renowned theologian Stanley Hauerwas tackles the issue of theology being sidelined as a necessary discipline in the modern university It is an attempt to reclaim the knowledge of God as just that knowledge Questions why theology is no longer considered a necessary subject in the modern university and explores the role it should play in the development of our knowledge Considers how theology is often excluded from the knowledges of the modern university because these are constituted by an understanding of time necessary to make economic and state realities seem inevitable Argues that it is precisely this difference that makes Christian theology an essential resource for the university to achieve its task that is to form people who are able to imagine a different world through critical and disciplined reflection Challenges the domesticated character of much recent theology by suggesting how prayer and the love of the poor are essential practices that should shape the theological task Converses with figures as diverse as Luigi Giussani David Burrell Stanley Fish Wendell Berry Jeff Stout Rowan Williams and Sheldon Wolin Published in the new and

prestigious Illuminations series
