Coin Design United States. Congress. Senate. Committee on Banking, Housing, and Urban Affairs,2001 **Rodanum** Guus Besuijen,2008 Beneath the surface of Aardenburg a small town in the south western part of the Netherlands lie the remains of a Roman settlement that is presumed to have been named Rodanum Extensive archaeological excavations from the late 1950s to the late 1980s revealed that the settlement was similar in size or even larger than the modern town Its centre was formed by a large castellum type fortification wall that enclosed several large stone buildings The settlement was connected to the sea by a natural watercourse that defined its economic and logistical importance in the region Rodanum s military function was to secure the regional coast against attacks by Germanic tribes via the North Sea which occurred around AD 175 It continued to be inhabited until the late third century or the beginning of the fourth century after which the settlement was deserted until the early Middle Ages The first part of this study provides an overview of Aardenburg during the Roman period in which its economic and military functions within the region are explored In particular the military and civilian character of the town is discussed The second part contains a study of the metal objects and aims to present significant additional information This part concludes with a critical review of the current state of research at this site **Abracadabra** Nathaniel Schiffman,2009-09-25 Magicians use more than just mirrors string and sleight of hand to deceive their audience Those who are masters at this trade have developed an arsenal of techniques to manipulate people Every action and utterance on stage and off is precisely planned to achieve a specific effect Abracadabra is an insider s look at what goes on at a magic show behind the scenes and in the mind of the magician Nathaniel Schiffman

explains the principles of deception exposing those innocent seeming motions that conceal vital actions from onlookers how the conjurer uses misdirection of space and time to mislead the audience how silly and simple optical illusions can fool us and what to look for during a magic show Also explored in detail is the world of off stage magic Some magicians use various techniques in life to deceive and influence you yet these magicians don t boast of their magic talent because they are advertisers politicians army commanders spies con artists computer programmers movie directors faith healers psychics and others These magicians work to make you buy their product believe in their cause and influence your thinking from the time you get up in the morning until you go to bed at night This is not a how to book for aspiring magicians but a layperson s guide to methods used to mislead or fool you Lighthearted and informal Abracadabra will fascinate anyone interested in knowing how one person can control many Included are hands on experiments magic tricks and reader participation segments You ll soon see that magicians don t just manipulate playing cards and animals they manipulate you
