1.1 Using the Sample Workbook

You are working at the headquarters of a video rental and sales company. You wish to investigate trends in profits arising from video rentals and video sales over the past three Years. You will query information from a database that has transactional information for the 36 months in 1998, 1999, and 2000 from your 20 stores nationwide.

The sample Discoverer Workbook, **Video Stores Analysis** (Vidstr5.dic), contains information about sales for your company. You will use the **Video Stores Analysis** workbook to analyze trends in profits arising from video rentals and sales over the past three years from 20 stores nationwide. You will compare the sales between different Regions, calculate totals and percentages to analyze your sales data, and format your results for easy and attractive viewing.

1.2 Opening a Workbook

Think of a Workbook as a three-ring binder of pages each with a specific set of data for your business analysis. Your Discoverer manager has already created a Workbook containing the information that you need. All you have to do is open the Workbook.

Note: To create a new Workbook to meet your individual requirements, see Section 1.13.
