

GROUP DECISION-MAKING

Group Decision-making (also known as collaborative decision-making or collective decision-making) is a situation faced when individuals collectively make a choice from the alternatives before them. The decision is then no longer attributable to any single individual who is a member of the group.

ecision making is one of the most important activities in both our profes D sional and our private lives today The literature on the subject has grown considerably over the last fifty years and it now covers many different approaches to the subject These approaches range from that of creating a mathematical model of the decision situation under consideration as in operations research and other forms of mathematical decision analysis to those that are based on human and organizational behavior Recently those working in the field have begun to combine approaches to the study of decision situations that arise in organizations in our personal lives and in the communities in which we live This book is an attempt to assist those concerned with decision making to work with this combination of approaches In the past decision problems have been considered according to the condi tions under which they arise and to some extent in terms of the approaches available for their resolution Writers on the subject who are mathematically oriented have devised a method of classifying decisions based on the type of mathematics that they suggest be used in the resolution of the problems This approach leads to the division of decision situations into the categories of cer tainty uncertainty risk and competition Deterministic models available in oper ations research have then been offered as the means of treating decision situations in the category of certainty **Groups in Process** Larry Lee Barker, 1979 **The Handbook of Group Communication Theory and Research** Lawrence R. Frey, Dennis Gouran, Marshall Scott Poole, 1999-07-08 The Handbook of Group Communication Theory and Research establishes a central resource for the field documenting and synthesizing the work done in group communication s 50 year history With contributions from the most experienced and respected scholars in the field the editors Lawrence R Frey Dennis S Gouran and Marshall Scott Poole present an overview of group communication study and examine a variety of theoretical positions and methodological practices The volume is divided into six broad areas of communication scholarship Foundations of group communication theory and research Individuals and group communication Task and relational group communication Group communication processes Group communication facilitation Group communication contexts and applications The

sections serve as a crossroads where various paths pursued in each area meet summarize and suggest new maps and roads that need to be followed in the future Offering a comprehensive history of group communication theory and research and establishing new conceptual perspectives and research agendas for future group communication scholars this important resource will be an unrivalled tool for scholars researchers educators practitioners and students alike
