Smeller Martin:

Smeller Martin, 1950 Smeller Martin's keen sense of smell lands him in a series of adventures *Taste and Smell* Thomas Hummel, Antje Welge-Lüssen, 2006-01-01 Chemosensory dysfunction is a quite frequently occurring problem which significantly affects the patient's quality of life. It can result from infectious agents, environmental factors, toxins, traumatic brain injuries, as well as neurodegenerative diseases. This publication provides up-to-date articles on the chemical senses, including the olfactory, trigeminal, and gustatory systems. The vomeronasal system and its potential significance in humans is also discussed. Based on recent functional imaging data, the book provides an overview on how the lower senses function, how they work together, for example, to produce flavor, how they can be damaged and repaired, and how the function of human chemical senses can be assessed. The publication focuses on chemosensory dysfunction and pays particular attention to taste and its disorders. Renowned experts in their fields of research have contributed their findings to this topical update on chemosensory disorders and made this volume indispensable reading for otorhinolaryngologists and neurologists. **Benny the Blue Whale** Andy Stanton, 2024-10-17 AI is changing the world at frightening speed. A bestselling author decides to find out more. Something profound and utterly brilliant is going on. Hilarious. THE TIMES Is ChatGPT the end of creative industries as we know them? An ethical quagmire from which there is no return. A threat to all our jobs as we keep hearing on the news. Bestselling children's author Andy Stanton has made a career out of writing differently from the unconventional hero of his bestselling Mr Gum series to his penchant for absurdist plots: his children's books are anything but formulaic. When a friend introduces him to ChatGPT, the new large language chatbot, Andy is as sceptical as he is curious. Can this jumble of algorithms really mimic the spontaneity of human thought? Could it one day replace human authors like him for good? And are we soon to be ruled over by despotic robot overlords? He decides there's only one thing for it: he must test this bot's capabilities. Eventually, he settles on a prompt that will push the algorithm to its creative limits: tell me a story about a blue whale with a tiny penis. Chaos ensues. What follows is a surprising and illuminating battle between Andy and ChatGPT that maybe just maybe might help us all understand AI a little bit better. Join Andy and his beleaguered AI lackey on a rollicking metafictional journey through the art of storytelling. Presenting his prompts and the AI-generated narrative alongside extensive commentary, Stanton provides a startling paean to the art of a good story and boundless human creativity. Hopeful and hilarious, *Benny the Blue Whale* provides a joyfully anarchic meditation on AI, literature, and why we write. A WATERSTONES AND NEW SCIENTIST BEST BOOK OF 2023. There's no book like it. Scholarly, childish, fascinating, and hilarious, one of our funniest writers dissects what it takes to build a story and what that tells us about being human. It'll really make you think if you can stop laughing. Chris Addison, co-creator of *BREEDERS*. Entertaining and alarmingly relevant, provocative and philosophically satisfying, it's ultimately a profoundly human text. *OBSERVER* A magnificent experiment by a perfect fool, deep and shallow, and stupid and clever, the perfect use of AI. Andy Intelligence. Robin Ince, author of *THE IMPORTANCE OF BEING*

INTERESTED Benny the Blue Whale is many things It s a fascinating discourse on the nature of language and storytelling It s a philosophical treatise on the possibilities of artificial intelligence It s a receptacle for obscenely hilarious jokes A brilliant and beautiful cyborg part human brain part computational muscle It s a post post modern work of genius Anthony McGowan Carnegie Medal winning author of LARK **Watson's God** Gene Brewer,2007-02-22 Alan Watson is born and grows up

during the 1940s in a small Midwestern town When his little brother is penectomized in a bus station restroom and his girlfriend falls into a coma following a botched abortion he concludes that God is punishing him for his mistakes This belief follows him through college and graduate school from which he drops out his life on a commune with his college sweetheart and becoming a novelist after settling down with her in Chicago He finally drives her away with his fear of having a child but eventually comes to grips with his relationships with Melanie his family and his God **Edward Albee and Absurdism**
