The role of artistic and creative endeavours is well known within psychoanalytic circles in helping to heal in the face of personal loss, trauma and mourning. In this book, Esther Dreifuss-Kattan, a psychoanalyst, art therapist and artist, analyses the work of major modernist and contemporary artists and thinkers through a psychoanalytic lens. In coming to terms with their own mortality, figures like Albert Einstein, Louise Bourgeois, Paul Klee, Eva Hesse and others were able to access previously unknown reserves of creative energy in their late works as well as a new healing experience of time outside of the continuous temporality of everyday life. Dreifuss-Kattan explores what we can learn about using the creative process to face and work through traumatic and painful experiences of loss. *Art and Mourning* will inspire psychoanalysts and psychotherapists to understand the power of artistic expression in transforming loss and traumas into perseverance, survival and gain. *Art and Mourning* offers a new perspective on trauma and will appeal to psychoanalysts and psychotherapists, psychologists, clinical social workers and mental health workers as well as artists and art historians. **The Cambridge Companion to Fairy Tales**, Maria Tatar, 2015.
