One Giant Leap Leon Wagener,2005-01-01 On July 20 1969 the whole world stopped. It was a day in which a man who grew up on a farm without electricity would announce One small step for man one giant leap for mankind. In this the first ever biography of Neil Armstrong Leon Wagener explores the man whose walk on the moon is still compared to humankind's progenitor's crawl out of the primordial ooze. And whose retreat back to a farm in his native Ohio soon after the last ticker tape confetti fell has left him looked upon as a reclusive hermit ever since. This is the true story of a national hero whose life long quest to walk on the moon truly mirrors our best selves an American who braved incredible danger daily over a long career finally achieving what seemed impossible and broke free of the Earth's surly bonds proving forever that man can reach for the stars and succeed. Relying on hundreds of interviews with family and friends of the astronaut plus generous access to the NASA files Leon Wagener explores the life of one of America's true heroes in a book filled with extraordinary adventure and even greater achievement. The Knickerbocker Snowstorm Kevin Ambrose,2013-01-14 On the evening of January 28 1922 several hundred people fought their way through the greatest snowstorm in Washington's history to see a show at the Knickerbocker Theater the city's largest and most modern moving picture theater of the time. Unbeknownst to the theater patrons the Knickerbocker Theater's flat roof was tremendously burdened by the weight of the snow. During the show's intermission the snow covered roof crashed down upon the crowd. As the roof fell it collapsed the theater's balcony and pulled down portions of the surrounding brick walls killing 98 people and injuring 133. Some of Washington's prominent politicians and business owners were among the casualties. The disaster ranks as one of Washington's worst in history and the snowstorm continues to hold the record for Washington's single greatest snowfall.
