Thorsen, Stephen Harrison, 2018-12-13 Sappho a towering figure in Western culture is an exemplary case in the history of classical receptions There are three prominent reasons for this Firstly Sappho is associated with some of the earliest poetry in the classical tradition which makes her reception history one of the longest we know of Furthermore Sappho s poetry promotes ideologically challenging concepts such as female authority and homoeroticism which have prompted very conspicuous interpretative strategies to deal with issues of gender and sexuality revealing the values of the societies that have received her works through time Finally Sappho s legacy has been very well explored from the perspective of reception studies important investigations have been made into responses both to her as poet figure and to her poetry from her earliest reception through to our own time However one of the few eras in Sappho s longstanding reception history that has not been systematically explored before this volume is the Roman period The omission is a paradox Receptions of Sappho can be traced in more than eighteen Roman poets among them many of the most central authors in the history of Latin literature Surely few other Greek poets can rival the impact of Sappho at Rome This important fact calls out for a systematic approach to Sappho s Roman reception which is the aim of *Roman Receptions of Sappho* that focuses on the poetry of the central period of Roman literary history from the time of Lucretius to that of Martial **White Women Getting Real About Race** Judith M. James, Nancy Peterson, 2023-07-03 For many White women teachers and teachers in training who represent the majority of our teaching force today the issue of race is fraught with discomfort It may challenge assumptions evoke a sense of guilt or give rise to a fear of making mistakes or saying the wrong thing This book presents the first person stories of White women teachers who tell us not only how they have grappled with race in diverse classrooms but how they continue to this day to be challenged by issues of color and privilege These are no stories of heroic feats or achievement of perfection but stories of self disclosure that lay bare their authors emotions ideas curiosity vulnerability and reflections as they engaged with race and challenged practices of color blindness and empathetic distance Avoiding abstract

educational lingo these teachers come clean about the emotional cost of dealing with racism White privilege and fear of being racist in our rapidly diversifying schools Admitting their cultural mistakes they hope their readers can find a safe place to use theirs for honest dialogue and positive learning In approaching chapter authors for this book the editors asked the writers to ask themselves Will my well being and sense of self be at risk if I tell this story Recognizing what s at stake they wanted writers who would be real with themselves The women in this book hope that their stories will resonate with readers help them feel less alone and give them courage to begin a dialogue with colleagues friends staff and administrators around race concerns Each chapter concludes with a few questions to prompt self reflection at home or for use as exercises to use in small groups or staff development training
