So You Think Youre Not Religious

Cody Coffey

So You Think You're Not Religious:

Cody Coffey, 2009-11 I wrote this book because I feel there is a reason for all that is going on in the world a cauldron of misery suffering anguish and strife Everyone is caught up in it and those who feel they are not or feel they have an educated reason and philosophy for what they see are not seeing the bigger picture Most people come up with the biggest most elaborate questions and answers but most do not tap into another reason or meaning for what life is about and what is transpiring What if there is a very deeper meaning deeper purpose besides the basic fundamentals of life that we know of and our purpose here What if everything we say do and think about are just conforming to our own selfish reasons I am trying to put forth the argument of what the real reasons are The answers so many accept and try to figure out based on nothing else but the theoretical speculation and trial and error The most brilliant minds in the world the most compelling arguments explanations and theories have played and still play a major role into where we are where we are going and what we have reduced ourselves to While many may look to rationalize an incoherent world with rational thought many are ignoring what could be a devastating calamity taken place right under our noses Something so subtle that it is less resound then a feather hitting the ground half way around the world yet would have the impact to wipe out humanity or create hell on earth

Skeptic in the House of God James L. Kelley, 1997 James L Kelley a skeptic about religion writes with insight and humor of his life as a member of St Mark's an Episcopal church that welcomes doubters without pressuring them to compromise their intellectual integrity When Kelley first visited the church he was well into his forties and searching for a respite from urban malaise At the same time he found himself filled with disquieting questions How could he reconcile his convictions with the central purpose of the church to worship a God he didn't believe in Could he say the prayers and sing the hymns while remaining an honest skeptic After fifteen years of full participation in a church that is open not only to skeptics but also to gay men and lesbians blacks and Jews where members are invited to critique Sunday sermons and where hymns are rewritten to reflect feminist concerns Kelley found that his agnosticism remained but his skepticism about church participation had disappeared Modern urban life can be a sterile isolating experience yet in St Mark's Kelley discovered a place of vibrant community honest inquiry and support over the hard places in life

Roots of violent radicalisation Great Britain: Parliament: House of Commons: Home Affairs Committee,2012-02-06 In this report the Home Affairs Committee concludes that the internet is one of the most significant vehicles for promoting violent radicalism more so than prisons universities or places of worship although direct personal contact with radicals is in many cases also a significant factor Although there are statutory powers under the Terrorism Act 2006 for law enforcement agencies to order unlawful material to be removed from the internet the Committee recommends that internet service providers themselves should be more active in monitoring the material they host with appropriate guidance advice and support from the Government The Government should work with internet providers to develop a code of practice for the removal of material which promotes violent extremism There should be more support for civil society groups who want to challenge on line extremist material In addition the Committee highlights the need for better liaison and information sharing between prison authorities the police the UK Border Agency and other relevant authorities following the release of prisoners who have been convicted of terrorist offences or who are otherwise considered to be at risk of violent radicalisation the importance of reviewing the list of proscribed organisations the prospect of de proscription could create an incentive for organisations to renounce their support for violence the threat from the far right so far not an organised threat The current name of the counter radicalisation strategy Prevent should be

changed to Engage to reflect a more supportive partnership based approach to working with those at risk of radicalisation
