Authority in Social Casework Robert Foren, Royston Bailey, 2016-06-06 Authority in Social Casework reviews the various settings in which social work is practiced. This book describes the presence of some component of authority in all casework situations while distinguishing the modes suitable to each setting and to the various needs of clients. Organized into three parts encompassing 10 chapters, this book begins with an overview of the practice of social casework in an authority setting. This text then examines the different concepts of authority as they affect the casework process. Other chapters consider the ways in which authority inheres in the role and function of workers in various casework settings. This book discusses as well the ways in which the nature of the setting determines the types of authority its workers possess. The final chapter deals with the use of a more assertive casework method of support which depends on the accurate assessment of the degree of maturity indicated by the client. Caseworkers will find this book useful. *Social Casework* 118, 189 Noel

Social and Moral Theory in Casework (Routledge Revivals) Raymond Plant, 2009-07-15 First published in 1970 the aim of the book is to map the logical geography of an important set of concepts which enter into the theory of social casework those concerning the individual and society Concepts examined include the individually orientated values of self direction and acceptance and those of role adjustment and integration which express the individual's relation to society The author's main concern is to see whether a coherent theory of the relationship between individual and society can be given in terms of these concepts and to argue that such a theory is fundamental to casework discussion Mr Plant also discusses what if any social or political commitments the activity of casework presupposes and evaluates the view that casework is apolitical

The Social Worker Speaks David Burnham, 2016-02-24 The Social Worker Speaks charts the motivations work activities and attitudes of social workers across the country from 1904 to 1989 The book is about workers in the public sector from Poor Law to Social Services Departments probation and workers in the voluntary field including early century philanthropic visiting societies as well as specialist societies such as the Children's Society and the NSPCC Where possible accounts by and the words and thoughts of social workers themselves are used Since the war histories of social work have concentrated on practice theory and methods developments instigated by legislation university training and professional status but there has been little attention paid to who social workers were what they believed what they actually did and what they thought of what they did Also individual social workers appearing in nearly all histories have been leaders managers teachers or academics with people who did the job on the front line accorded barely a mention If part of the aim of this book is to remedy this partial coverage another aim is to offer a more human history of social workers There is too little celebration or humour in what has been published about the history of social workers The Social Worker Speaks deliberately includes stories of how social workers behaved their frustrations and triumphs passions and occasional sins So this is deliberately not a history of social work but a history of social workers the first of its kind
