The Adaptation Process of a Resettled Community to the Newly-Built Environment A Study of the Nubian Experience in Egypt Wael Salah Fahmi, 2014-04-01 Generally construction of dams is regarded as means of economic progress in many countries Major consequences of such projects are the inundation of upstream areas and the resettlement of entire communities in newly built environments where they experience dramatic transformation in their lifestyles The present study takes the Nubian resettlement experience after the creation of Lake Nasser that submerged their old settlements along the river Nile Following their resettlement the design of the newly built environment disrupted the Nubian traditional lifestyles and patterns of privacy mechanisms territoriality and social interaction The inadequacy of the newly built environment was mainly attributed to the Nubians transfer from spacious homes in the old villages to compact contiguous houses in the new settlements The arrangement of these resettlement state built houses distributed on the basis of household size has further resulted in the fragmentation and the dispersion of traditional kinship based neighborhoods Within an interdisciplinary approach the study is based on theoretical historical and conceptual themes and on empirical research It sets out to examine the households responses towards and adaptation mechanisms with the newly built environment looking critically at the achievements of imposed top down planning in meeting the socio cultural and economic needs of those resettled

Golden Years James Chappel, 2024-11-19 The surprising history of old age in modern America showing how we created unprecedented security for some and painful uncertainty for others On farms and in factories Americans once had little choice but to work until death As the nation prospered a new idea was born the right to a dignified and secure old age That project has benefited millions but it remains incomplete and today it is under siege In *Golden Years* historian James Chappel shows how old age first emerged as a distinct stage of life and how it evolved over the last century shaped by politicians choices activists demands medical advancements and cultural models from utopian novels to *The Golden Girls* Only after World War II did government subsidies and employer pensions allow people to retire en masse Just one generation later this model crumbled Older people streamed back into the workforce and free market policymakers pushed the burdens of aging back onto older Americans and their families We now confront an old age mired in contradictions ever longer lifespans and spiraling health care costs 401 k s and economic precarity unprecedented opportunity and often disastrous instability As the population of older Americans grows *Golden Years* urges us to look to the past to better understand old age today and how it could be better tomorrow
