Some Elements of Religion Henry Parry Liddon, 1892 **Some Aspects of Religion and Politics in India During the Thirteenth Century** Khaliq Ahmad Nizami, 1974 **The Oxford Handbook of Evolutionary Perspectives on Violence, Homicide, and War** Todd K. Shackelford, Viviana A. Weekes-Shackelford, 2012-08-23 This volume synthesizes the theoretical and empirical work of leading scholars in the evolutionary sciences to produce an extensive and authoritative review of this literature **The ^AOxford Handbook of Evolutionary Psychology and Religion** James R. Liddle, Todd K. Shackelford, 2020-12-28 The Oxford Handbook of Evolutionary Psychology and Religion unites the theoretical and empirical work of leading scholars in the evolutionary cognitive and anthropological sciences to produce an extensive and authoritative review of this literature *The Rediscovery of the Old Testament* H H Rowley, 2012-02-23 A reprint of a classic exposition of the understanding of the Old Testament Rowley brings the Old Testament back to the forefront of Scholarship and finds rich meaning in much of what has previously been buried Increasingly men are turning their thoughts to the deeper message of the Old Testament and finding richer meaning in the light of all work that has been done The Old Testament need not be buried beneath the weight of scholarship but may rather stand on the foundation of scholarship sustained by it and firmly upheld before men from the Preface Jewish Theology and World Religions Alon Goshen-Gottstein, Eugene Korn, 2012-04-05 The contributors to this volume represent a range of disciplines and denominations within Judaism and share the conviction that articulating contemporary Jewish views of other world religions is an urgent objective for Judaism Their essays show why a Jewish theology of world religions is a priority for Jewish thinkers and educators concerned with reinvigorating Judaism s contribution to the contemporary world and maintaining Jewish identity and continuity *Introduction to Dogmatic Theology* Francis Joseph Hall, 1907 *Catalogue of the General Theological Library, Boston, Massachusetts* General Theological Library, 1913 *Liberal Nationalism and Its Critics* Gina Gustavsson, David Miller, 2019-12-13 The thesis of liberal nationalism is that national identities can serve as a source of unity in culturally diverse liberal societies thereby lending support to democracy and social justice The chapters in this book examine that thesis from both normative and empirical perspectives in the latter case using survey data or psychological experiments from the U S Canada the Netherlands Denmark France and the UK They explore how people understand what it means to belong to their nation and show that different aspects of national attachment national identity national pride and national chauvinism have contrasting effects on support for redistribution and on attitudes towards immigrants The psychological mechanisms that may explain why people s identity matters for their willingness to extend support to others are examined in depth Equally important is how the potential recipients of such support are perceived Ethnic and civic conceptions of national identity are often contrasted but the empirical basis for such a distinction is shown to be weak In their place a cultural conception of national identity is explored and defended against the charge that it is essentialist and therefore

exclusive of minorities Particular attention is given to the role that religion can legitimately play within such identities Finally the book examines the challenges involved in integrating immigrants dual nationals and other minorities into the national community It shows that although these groups mostly share the liberal values of the majority their full inclusion depends on whether they are seen as committed and trustworthy members of the national we
