Welfare and Rational Care Stephen Darwall,2010-07-28 What kind of life best ensures human welfare Since the ancient Greeks this question has been as central to ethical philosophy as to ordinary reflection But what exactly is welfare This question has suffered from relative neglect And as Stephen Darwall shows it has done so at a price Presenting a provocative new rational care theory of welfare Darwall proves that a proper understanding of welfare fundamentally changes how we think about what is best for people Most philosophers have assumed that a person s welfare is what is good from her point of view namely what she has a distinctive reason to pursue In the now standard terminology welfare is assumed to have an agent relative normativity Darwall by contrast argues that someone s good is what one should want for that person insofar as one cares for her Welfare in other words is normative but not peculiarly for the person whose welfare is at stake In addition Darwall makes the radical proposal that something s contributing to someone s welfare is the same thing as its being something one ought to want for her own sake insofar as one cares Darwall defends this theory with clarity precision and elegance and with a subtle understanding of the place of sympathetic concern in the rich psychology of sympathy and empathy His forceful arguments will change how we understand a concept central to ethics and our understanding of human bonds and human choices

Self-Interest: Volume 14, Part 1 Ellen Frankel Paul,Fred Dycus Miller,Jeffrey Paul,1997-05-28

The good man should be a lover of self Aristotle wrote For he will both himself profit by doing noble acts and will benefit his fellows Yet in much of contemporary moral philosophy concern for one s own interests is considered a non moral issue while concern for the interests of others is paradigmatically moral Indeed a central issue in ethical theory involves the proper balance to be struck between prudence and morality between the pursuit of one s own good and the pursuit of the good of

others When deliberating over what action to take should one weigh one's own interests more heavily than those of others Or is it possible to accommodate both self interest and regard for others to show that we have self regarding reasons for helping others The twelve essays in this volume written from a range of perspectives address these questions and examine related issues

Lawrie Reznick,2005-06-20 Lawrie Reznick addresses these questions and more in his controversial investigation of the insanity defense in *Evil or Ill* Drawing from countless intriguing case examples he aims to understand the concept of an excuse and explains why the law excuses certain actions and not others In his easily accessible and elegant style he explains that in law there exists two excuses derived from Aristotle the excuses of ignorance and compulsion Reznick however proposes a third excuse the excuse of character change In introducing this third excuse Reznick raises a controversial possibility the abolition of the insanity defence
