[A Graceful Embrace: Theological Reflections on Adopting Children](#), 2017-11-20 This book significantly deepens the contemporary discussion of the theology and practice of adopting children Though adoption appears prominently in Scripture contemporary adoption practice has thus far proceeded without serious theological engagement This book seeks to fill this gap by offering a theological and ethical perspective on adoption that not only clarifies and complicates contemporary understandings of adoption but also throws fresh light on family community vocation

and even what it means to be human Both interdisciplinary and international the volume is brings together theologians and ethicists from Europe the UK Canada and the United States A rich set of reflections from both practical and theoretical perspectives offers a unique and uniquely insightful vision of Christian adoption Contributors are Dale P Andrews Jana Marguerite Bennett Marco Derks R Ruard Ganzevoort Bill McAlpine Kirsten Sonkyo Oh Sarah Shea Paul Shrier Henning Thei en Hans G Ulrich Karin Ulrich Eschemann Heather Walton Brent Waters Nick Watson **Childly Language** Alison Sealey,2014-06-11 Childly Language explores how attitudes and cultural assumptions about children and childhood are revealed in contemporary English It addresses such questions as How is concern for children s safety and welfare reflected in the vocabulary and grammar of contemporary English and When we say that an adult is being childish what are we saying about the characteristics of children **Agency, Freedom, and Responsibility in the Early Heidegger** Hans Pedersen,2020-08-25 This book employs Heidegger s work of the 1920s and early 1930s to develop distinctively Heideggerian accounts of agency freedom and responsibility making the case that Heidegger s thought provides a compelling alternative to the mainstream philosophical accounts of these concepts Hans Pedersen demonstrates that Heidegger s thought can be fruitfully used to develop a plausible alternative understanding of agency that avoids the metaphysical commitments that give rise to the standard free will debate The first several chapters are devoted to working out an account of the ontological structure of human agency specifically focusing on the Heideggerian understanding of the role of mental states causal explanations and deliberation in human agency arguing that action need not be understood in terms of the causal efficacy of mental states In the following chapters building on the prior account of agency Pedersen develops Heideggerian accounts of freedom and responsibility Having shown that action need not be understood causally the Heideggerian view thereby avoids the conflict between free will and determinism that gives rise to the problem of free will and the correlative problem of responsibility Early Departures for the Sun Raymond Sturgis,2009-08-21 Early Departures for the Sun is a riveting book that chronicles the prevailing violence which permeates our lives and homes America has become so obsessed with violence that little children are learning to kill before they understand the English alphabet Many people search for a spiritual answer only to hope that their faiths would lead them to see their love ones who were violently removed from their lives Violence also reared its ugly head in today s foster care and adopted homes In which the children that reside there are the victims of a terrible procedure that terminates parental rights by the thousands from data collected by corrupt Child Protective Service workers America judicial system has failed our children and America cannot survive by giving its children an option of life in prison or death from gun violence Early Departures for the Sun gives honest reflections of how violence destroys the hearts and souls of people in marriages and relationships The court dockets are replete with court dates from women and men who have filed personal protection orders against people who they now need protection due to violent and threatening behavior The author conveys the sadness and despair of parents that have lost children to gun

violence robbing toddlers and infants of a chance of living a fulfilled life The senseless act of violence is mainly from ex boyfriends ex husbands or teenage cowards that found answers to their problems by shooting in homes and schools without remorse Early Departures for the Sun gives a realistic view of how violent our world has become but a more kinder and spiritual view of love ones taking the Early Departure to the Sun right outside heaven s door Early Departures for the Sun is a CALL OUT book so that everyone can enlist in the war against violence as well as an encouragement so we all can stand with those whom may have lost someone to violence Beyond Homelessness Steven Bouma-Prediger,Brain J.
