

Somerset In The Civil War And Interregnum

P.R Newman

Somerset In The Civil War And Interregnum:

Somerset in the Civil War and Interregnum David Underdown,1970 **The English Civil War** Charles J Esdaile,2024-08-30 Cavaliers and Roundheads are figures who appear in hundreds of English ghost stories In this innovative account Charles Esdaile argues that such tales are in reality folk memories of an episode of English history that was second only to the Black Death in terms of individual and collective suffering alike and further that they reveal important truths about the way in which the conflict was represented it is no surprise then to find that spectral Cavaliers are often romantic figures and revenant Roundheads grim ones full of menace Yet the book is no mere catalogue On the contrary rather than being discussed in a vacuum the tales of haunting are rather set within a detailed regional history of the conflicts of 1642 1651 of a sort that has never yet been attempted but is for all that badly needed *The to Z of the British and Irish Civil Wars 1637-1660* Martyn Bennett,2010-04-06 Through a concise historical chronology and comprehensive overview users of The A to Z of the British and Irish Civil Wars 1637 1660 will find an insightful explanation of the people places and events that indelibly shape the United Kingdom s seventeenth century history Th **The Oxford Handbook of the English Revolution** Michael J. Braddick,2015-03-05 This Handbook brings together leading historians of the events surrounding the English revolution exploring how the events of the revolution grew out of and resonated in the politics and interactions of the each of the Three Kingdoms England Scotland and Ireland It captures a shared British and Irish history comparing the significance of events and outcomes across the Three Kingdoms In doing so the Handbook offers a broader context for the history of the Scottish Covenanters the Irish Rising of 1641 and the government of Confederate Ireland as well as the British and Irish perspective on the English civil wars the English revolution the Regicide and Cromwellian period The Oxford Handbook of the English Revolution explores the significance of these events on a much broader front than conventional studies The events are approached not simply as political economic and social crises but as challenges to the predominant forms of religious and political thought social relations and standard forms of cultural expression The contributors provide up to date analysis of the political happenings considering the structures of social and political life that shaped and were re shaped by the crisis The Handbook goes on to explore the long term legacies of the crisis in the Three Kingdoms and their impact in a wider European context **The English Civil War** Peter Gaunt,2014-05-09 Sir God hath taken away your eldest son by a cannon shot It brake his leg We were necessitated to have it cut off whereof he died In one of the most famous and moving letters of the Civil War Oliver Cromwell told his brother in law that on 2 July 1644 Parliament had won an emphatic victory over a Royalist army commanded by King Charles I s nephew Prince Rupert on rolling moorland west of York But that battle Marston Moor had also slain his own nephew the recipient s firstborn In this vividly narrated history of the deadly conflict that engulfed the nation during the 1640s Peter Gaunt shows that with the exception of World War I the death rate was higher than any other contest in which Britain has participated Numerous towns and villages were garrisoned attacked

damaged or wrecked The landscape was profoundly altered Yet amidst all the blood and killing the fighting was also a catalyst for profound social change and innovation Charting major battles raids and engagements the author uses rich contemporary accounts to explore the life changing experience of war for those involved whether musketeers at Cheriton dragoons at Edgehill or Cromwell s disciplined Ironsides at Naseby 1645 **Europe in the Seventeenth Century** Donald Pennington,2015-12-14 As before the second edition of this widely used survey is in two main parts The first analyses the major themes of seventeenth century European history on a continent wide basis The second part moves on to outline political diplomatic and military events in the various states and nations of the time For the second edition all the chapters have been rewritten to take account of recent scholarship Moreover many new topics are discussed the family crime the impact of printing climate population and social mobility Islam in seventeenth century Europe Throughout the book emphasises current lines of research and controversy to illustrate that the history of the period is a process of enquiry and argument rather than incontrovertible fact The Political Bible in Early Modern England Kevin Killeen,2017 This book explores the Bible as a political document in seventeenth century England revealing how it provided a key language of political debate **The Civil War in the South-West** John Barratt,2005-09-19 Between 1642 and 1646 two armies fought for control of Southwest England in one of the decisive confrontations of the English Civil Wars In this short turbulent period Royalists loyal to King Charles I clashed with the forces of Parliament in a series of hard fought campaigns that crisscrossed the West Country landscape Rearguard actions sieges skirmishes retreats and pitched battles punctuated the course of the conflict yet no previous book has retold the story of the Southwestern campaigns in detail John Barratt s account of this bloody and disruptive phase in the West Country s history offers a graphic description of the engagements themselves and takes the reader on a tour of the battlefields **Thomas Fuller** W. B. Patterson,2018-02-02 Long considered a highly distinctive English writer Thomas Fuller 1608 1661 has not been treated as the significant historian he was Fuller s The Church History of Britain 1655 was the first comprehensive history of Christianity from antiquity to the upheavals of the Protestant and Catholic Reformations and the tumultuous events of the English civil wars His numerous publications outside the genre of history sermons meditations pamphlets on current thought and events reflected and helped to shape public opinion during the revolutionary era in which he lived Thomas Fuller Discovering England s Religious Past highlights the fact that Fuller was a major contributor to the flowering of historical writing in early modern England W B Patterson provides both a biography of Thomas Fuller s life and career in the midst of the most wrenching changes his country had ever experienced and a critical account of the origins growth and achievements of a new kind of history in England a process to which he made a significant and original contribution The volume begins with a substantial introduction dealing with memory uses of the past and the new history of England in the late sixteenth and early seventeenth centuries Fuller was moved by the changes in Church and state that came during the civil wars that led to the trial and execution of King Charles I and to the

Interregnum that followed He sought to revive the memory of the English past recalling the successes and failures of both distant and recent events The book illuminates Fuller s focus on history as a means of understanding the present as well as the past and on religion and its important place in English culture and society **The Stuart Age** Barry Coward,2014-01-14

The Stuart Age provides an accessible introduction to many major themes of the period including the causes of the English Civil War the nature of the English Revolution the aims and achievements of Oliver Cromwell the continuation of religious passion in the politics of Restoration England and the impact on Britain of the Glorious Revolution In it Coward also covers the relevant history of Scotland and Ireland and gives comprehensive treatment of economic social intellectual as well as political and religious history The County Community in Seventeenth Century England and Wales Jacqueline Eales,Andrew Hopper,2012-07

Honoring the memory of Professor Alan Everitt who advanced the fruitful notion of the county community during the 17th century this volume proposes some modifications to Everitt s influential hypotheses in the light of the best recent scholarship With an important reevaluation of political engagement in civil war Kent and an assessment of numerous midland and southern counties as well as Wales this record evaluates the extraordinary impact of Everitt s book and the debate it provoked Comprehensive and enlightening this collection suggests future directions for research into the relationship between the center and localities in 17th century England **Prayer Book and People in Elizabethan and Early Stuart England** Judith Maltby,2000-08-10

Studies conformity to the Church of England after the Reformation *Political Culture and Cultural Politics in Early Modern England* Susan Dwyer Amussen,Mark A. Kishlansky,1995

Combining the work of major scholars on both sides of the Atlantic this volume seeks to explore the interconnections between popular culture and political activism at both the local and central levels Strongly influenced by the work of David Underdown the contributions range across a spectrum of social and political history from witchcraft to the aristocracy from forest riots to battles of the civil war The volume combines chapters from historians of gender of political theory of social structure and of high politics Within this diversity the contributors offer a cohesive approach to the study of early modern England encouraging the exploration of mentalities and political activities as well as artistic rendering writing and ceremony within the widest context of cultural politics **The Fall** Henry Reece,2024-06-04

Why did England s one experiment in republican rule fail Oliver Cromwell s death in 1658 sparked a period of unrivalled turmoil and confusion in English history In less than two years there were close to ten changes of government rival armies of Englishmen faced each other across the Scottish border and the Long Parliament was finally dissolved after two decades Why was this period so turbulent and why did the republic backed by a formidable standing army come crashing down in such spectacular fashion In this fascinating history Henry Reece explores the full story of the English republic s downfall Questioning the accepted version of events Reece argues that the restoration of the monarchy was far from inevitable and that the republican regime could have survived long term Richard Cromwell s Protectorate had deep roots in the political nation the Rump Parliament mobilised its

supporters impressively and the country showed little interest in returning to the old order until the republic had collapsed This is a compelling account that transforms our understanding of England's short lived period of republican rule

Turncoats and Renegadoes Andrew Hopper, 2012-11-15 The first dedicated study of the practice of changing sides during the English Civil Wars Reveals how side changing shaped the course of the English Revolution even contributing to the regicide itself and remained an important political legacy to the English speaking peoples thereafter *Understanding Popular Violence in the English Revolution* John Walter, 1999-06-10 This is a critical re evaluation of one of the best known episodes of crowd action in the English Revolution in which crowds in their thousands invaded and plundered the houses of the landed classes The so called Stour Valley riots have become accepted as the paradigm of class hostility determining plebeian behaviour within the Revolution An exercise in micro history the book questions this dominant reading by trying to understand the inter related contexts of local responses to the political and religious counter revolution of the 1630s and the confessional politics of the early 1640s It explains both the outbreak of popular violence and its ultimate containment in terms of a popular and parliamentary political culture that legitimised attacks on the political but not the social order The book also advances a series of general arguments for reading crowd actions and questions how the history of the English Revolution has been written *Atlas of the English Civil War* P.R Newman, 2005-06-20 The English Civil War is a subject which continues to excite enormous interest throughout the world This atlas consists of over fifty maps illustrating all the major and many of the minor bloody campaigns and battles of the War including the campaigns of Montrose the battle of Edgehill and Langport Providing a complete introductory history to the turbulent period it also includes maps giving essential background information detailed accompanying explanations a useful context to events *Religion and the Enlightenment, 1600-1800* William Gibson, 2007 This book considers how Early Modern England was transformed from a turbulent and rebellious kingdom into a peaceable land By considering the history of Taunton Somerset the most rebellious town in the kingdom it is possible to see how the emerging features of the Enlightenment moderation reason and rational theology effected that transformation The experience of Taunton in the seventeenth century was marked by economic fluctuations of the cloth trade and military struggles in the Civil War the Monmouth Rebellion and the Glorious Revolution The primary motivation for the citizens was zealous Puritanism It inspired support for Parliament and rebellion against James II But in the final quarter of the century a new rational and moderate Protestantism emerged from the largest Nonconformist congregation in the country and from a distinguished dissenting academy The study shows that both the militancy of the seventeenth century and the enlightened moderation of the eighteenth century were principally inspired by religious rather than secular values This book contributes to our understanding of England's transformation and of the religious factors that stimulated it **The Justices of the Peace 1679 - 1760** Norma Landau, 2023-11-10 In the eighteenth century the justices of the peace governed England While Parliament debated questions of trade taxation and foreign policy the justices

administered England's internal affairs. So powerful were the later Stuart and early Hanoverian justices that they were virtually independent and it is their independence which makes them fascinating. Neither the central government nor Parliament told them what to do, closely supervised their activity or even insured that they at all. What did the justices choose to do? In what manner did they do it? Why indeed did they assume the burdens of local government? Norma Landau examines the office of justice of the peace from the viewpoint of the justices themselves, delineating those ideals and inducements inherent in local government which prompted the English elite to assume their distinctive role as paternal rulers. Through analysis of the appointment of justices, the political and social composition of the bench, the institutions of local government, the justices' administrative and judicial activities, and manuals written for justices, this study traces the evolution of the elite's conduct of government and of their concept of their relation to those they governed. Through analysis of the appointment of justices, the political and social composition of the bench, the institutions of local government, the justices' administrative and judicial activities, and manuals written for justices, this study traces the evolution of the elite's conduct of government and of their concept of their relation to those they governed. Because the justices were so important, discussion of their role touches upon some of the major debates in current historiography: the debate on the nature of politics on the relation of rulers to the governed in a deferential society; on the definition of the elite in early modern society; on the course of administrative development; and on the relation of law to images of authority. This portrait of the justices illuminates a crucial stage in the transformation of England's rulers from local patriarchs to administrators for the nation. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1984.

A bibliography of British military history Anthony Bruce, 2016-12-19. No detailed description available for A bibliography of British military history.
