David Guttman, 2008-09-30 Having been mentored by Viktor E. Frankl the founder of logotherapy Emeritus Professor David Guttman authored this book so general readers may understand this approach to finding meaning in life at the point when most of us begin deeply wondering over that question at midlife and beyond Especially in this day and age of multiple demands on our time and seemingly non-stop obligations we too often find that it is only when the dust settles after a work day or work week or even after retirement when we begin to wonder What is the meaning of life The purpose This book is a new millennium venture into those questions and their answers using logotherapy written by a sage understudy who recalls Frankl with his logotherapy as the epitome of his theory even at 80 years old wise and witty exuding an energy enthusiasm and youthful spirit that belied his years by decades Aging does not diminish our power our energy and our quest for life but reshapes it with new understandings goals and needs But says Guttman we live in a technical and machine based world now in which there is a danger of losing our souls Here readers find a new creative perspective on aging and a fresh spiritual outlook This book will be of interest not only to general readers especially those at midlife and beyond but also to their families friends and students or professionals in the helping professions This unique work provides knowledge to find meaning in life derived from the fields of philosophy psychology religion and gerontology with case illustrations and vignettes to give readers both intellectual pleasure and practical guidance Proceedings, 1958 At Reagan's Side Stephen F.

Knott, Jeffrey L. Chidester, 2009 In *At Reagan's Side* Reagan scholars Jeff Chidester and Stephen Knott compile excerpts from interviews of top Reagan officials Through the Miller Center's Ronald Reagan Oral History Project Chidester and Knott show readers the life of the Great Communicator through the eyes of both famous and lesser known administration insiders like James Baker Edwin Meese Peter Hannaford Caspar Weinberger and Joanne Drake *At Reagan's Side* offers unique behind-the-scenes glimpses into the candidacy and election of Ronald Reagan chronicling his run for and subsequent election to public office as Governor of California and later as President of the United States **The Line through the Heart** J.

Budziszewski,2014-04-29 The suicidal proclivity of our time writes the acclaimed philosopher J Budziszewski is to deny the obvious Our hearts are riddled with desires that oppose their deepest longings because we demand to have happiness on terms that make happiness impossible Why And what can we do about it Budziszewski addresses these vital questions in his brilliantly persuasive new book *The Line Through the Heart* The answers can be discovered in an exploration of natural law a venture that with Budziszewski as our expert guide takes us through politics religion ethics law philosophy and more Natural law the author states plainly but provocatively is a fact about human beings as surely as we have hands and feet we have the foundational principles of good and evil woven into the fabric of our minds From this elemental fact emerges a natural law theory that unfolds as part of a careful study of the human person Thus Budziszewski shows natural law forms a common ground for humanity But this common ground is slippery While natural law is truly an observable part of human nature human beings are hell bent quite literally on ignoring it The mere mention of the obligations imposed on man by his nature will send him into a rage In this sense *The Line Through the Heart* explores natural law as not simply a fact and a theory but also a sign of contradiction While investigating the natural law and its implications Budziszewski boldly confronts and offers a newly integrated view of a wide range of contemporary issues including abortion evolution euthanasia capital punishment the courts and the ersatz state religion being built in the name of religious toleration Written in Budziszewski's usual crystalline style *The Line Through the Heart* makes clear that natural law is a matter of concern not merely to scholars it touches how each of us lives and how all of us live together His profoundly important examination of this subject helps us make sense of why habits that run against our nature have become second nature and why our world seems to be going mad

for things that we do intentionally but it is less clear whether we are responsible for inadvertent or negligent actions The law of negligence in tort law attributes responsibility for inadvertent acts while in ethics there is deep and serious scepticism about the responsibility for negligent or inadvertent action How can we be responsible for things that happen beyond the realm of our knowledge or control Positioned at the intersection of law and ethics Responsibility for Negligence in Ethics and Law Aspiration Perspective and Civic Maturity responds to these fundamental questions by advancing the idea that the underpinning feature of negligent or inadvertent acts is the phenomenon of akrasia the lack of integration of character and intelligent thinking When we act akratically we are acting contrary to our deliberated intention due to an uneven development of character and thoughts about what is right dutiful and good Using an Aristotelian inspired model of deliberation the book illustrates how legal decisions in negligence invite citizens to adopt a deliberative aspirational perspective This perspective encourages them to reshape redescribe and rethink their duties of care to meet the aspirational standard of the reasonable person Consequently the book argues that the purpose of negligence law is to promote values of citizen engagement and civic maturity Combining tort law theory Aristotelian conceptions of deliberation and theories of practical rationality responsibility and action this book invites us to rethink private law s purpose and methodology
