Something In The Water:

Something in the Water... Jule McBride, 2005-12-27 Go getter Ariel Anderson is back in Bliss West Virginia She s got to shoot a TV spot and undo her undeserved wild child reputation But there s something downright sexy happening in Bliss And inexplicably Ariel aches to be more naughty than nice Especially after colliding with Rex Houston the hottest CDC virus chasing cowboy this side of the mountains He s testing the local spring for a love bug dubbed Romeo that s reputed to cause sexual mayhem for seven straight days For the first time in sixty years Bliss is going buggy Romantic songs on the radio Restaurant breakfast specials for two The whole town is under some spell Now Rex and Ariel are testing some steamy waters of their own Maybe this myth was never meant to be debugged **Something In The Water:** Kieran McCarthy, 2019-10-18 Olympic rowers Gary and Paul O Donovan may be the face of Irish rowing and Skibbereen Rowing Club and have enormously increased the popularity of rowing in Ireland but they re just one piece of a much larger jigsaw Without their club and the people behind the scenes they wouldn t be Olympic silver medalists 2018 world champions former European champions and in Paul s case a three time world champion Almost one hundred Skibbereen Rowing Club athletes have represented Ireland at various regattas over the years a staggering figure when viewed in light of the size of the club Founded in 1970 it is now the undisputed most successful rowing club in the country producing five Olympic rowers since 2000 and four world champions between 2016 and 2018 It is the characters involved in the club the coaches members and the athletes themselves who come together to make Skibbereen Rowing Club what it is **Something in the Water** reveals what goes on behind the scenes to create an environment that allows locals to excel on the national and international stages The story is told through the people and families involved showing how relatable they are to people around the country **Torchwood: Something in the Water** Trevor Baxendale, 2010-04-13 Dr Bob Strong s GP surgery has been treating a lot of coughs and colds recently far more than is normal for the time of year Bob thinks there s something up but he can t think what He seems to have caught it himself whatever it is he s starting to cough badly and there are flecks of blood in his hanky Saskia Harden has been found on a number of occasions submerged in ponds or canals but alive and seemingly none the worse for wear Saskia is not on any files except in the medical records at Dr Strong s GP practice But Torchwood s priorities lie elsewhere investigating ghostly apparitions in South Wales they have found a dead body It s old and in an advanced state of decay And it is still able to talk And what it is saying is Water hag Featuring Captain Jack Harkness as played by John Barrowman with Gwen Cooper Owen Harper Toshiko Sato and Ianto Jones as played by Eve Myles Burn Gorman Naoki Mori and Gareth David Lloyd in the hit science fiction series created by Russell T Davies for BBC Television *Something in the Water* Charlotte MacLeod, 2012-11-06 A poisoned potpie pulls botanist Peter Shandy into a local Maine mystery in the series that offers a blooming good time The Baltimore Sun Massachusetts horticulturalist Peter Shandy is famous for his rutabagas but he comes to Maine with a loftier plant in mind Specifically he wants to size up the world renowned lupines of Frances Rondel a

nonagenarian whose legendary flowers are even more beautiful in life than they are in myth Shandy is bitterly jealous but finds a major distraction in the dining room of the country inn where he is staying He may grow wretched lupines but no gardener can solve a murder like Peter Shandy The corpse belongs to the late Jasper Flodge a local loudmouth with a toupee and a sizeable gut Shoveling down the last bites of a chicken potpie Flodge clutches his chest and falls dead Suddenly with more to do than stopping to smell the lupines Shandy must ask himself Which Maine cook has the bad taste to flavor chicken with cyanide

There's Something In The Water Ingrid R. G. Waldron, 2021-03-25T00:00:00Z In *There's Something In The Water* Ingrid R G Waldron examines the legacy of environmental racism and its health impacts in Indigenous and Black communities in Canada using Nova Scotia as a case study and the grassroots resistance activities by Indigenous and Black communities against the pollution and poisoning of their communities Using settler colonialism as the overarching theory Waldron unpacks how environmental racism operates as a mechanism of erasure enabled by the intersecting dynamics of white supremacy power state sanctioned racial violence neoliberalism and racial capitalism in white settler societies By and large the environmental justice narrative in Nova Scotia fails to make race explicit obscuring it within discussions on class and this type of strategic inadvertence mutes the specificity of Mi kmaq and African Nova Scotian experiences with racism and environmental hazards in Nova Scotia By redefining the parameters of critique around the environmental justice narrative and movement in Nova Scotia and Canada Waldron opens a space for a more critical dialogue on how environmental racism manifests itself within this intersectional context Waldron also illustrates the ways in which the effects of environmental racism are compounded by other forms of oppression to further dehumanize and harm communities already dealing with pre existing vulnerabilities such as long standing social and economic inequality Finally Waldron documents the long history of struggle resistance and mobilizing in Indigenous and Black communities to address environmental racism

The Taste of Water Christy Spackman, 2023-12-19 The Taste of Water explores the increasing erasure of tastes from drinking water over the twentieth century It asks how dramatic changes in municipal water treatment have altered consumers awareness of the environment their water comes from Through examination of the development of sensory expertise in the United States and France over the twentieth century this unique history uncovers the foundational role palatability has played in shaping Western water treatment processes By focusing on the relationship between taste and the environment Christy Spackman shows how efforts to erase unwanted tastes and smells have transformed water into a highly industrialized food product divorced from the natural environment The Taste of

Water invites readers to question their own assumptions about what water does and should naturally taste like while exposing them to the invisible but substantial sensory labor involved in creating tap water **The American Naturalist**
