country's era of economic growth Through vivid often wrenching accounts of peasants miners textile workers rebels and prostitutes Mikiso Hane forces us to see Japan's modern century from the beginnings of contact with the West to World War II through fresh eyes In doing so he mounts a formidable challenge to the success story of Japan's economic miracle Starting with the Meiji restoration of 1868 Hane vividly illustrates how modernization actually widened the gulf economically and socially between rich and poor between the mo bo and mo ga modern boy and modern girl of the cities and their rural counterparts He interlaces his scholarly narrative with sharply etched individual stories that allow us see Japan from the bottom up We feel the back breaking labor of a typical farm family the anguish of poverty stricken parents forced to send their daughters to Japan's new mills factories and brothels the hopelessness in rural areas scourged by famine the proud defiance of women battling against patriarchy and the desperation of being on strike in a company town in revolt in the countryside or conscripted into the army This updated edition is enhanced by a substantive new introduction by Samuel H Yamashita By allowing the underprivileged to speak for themselves Hane and Yamashita present us with a unique people's history of an often hidden world
