Song of the Cosmos Arthur Versluis,1991 **Sacred Earth** Arthur Versluis,1992-06 Placing Native American spirituality in the context of the world s great religions Sacred Earth contrasts contemporary society s arrogant belief in its own power with native traditions of reverence for the earth This eye opening journey through the terrain of Native American spirituality is an urgent call to rediscover and become firmly grounded on the sacred earth again **Alexandria 1** David Fideler,1991-09-01 Journal of cosmology philosophy myth and culture *Seeing God Everywhere* Barry McDonald,2003-07-30 This anthology combining articles by Buddhist Christian Islamic Jewish and Native American scholar looks at the environmental crisis through a spiritual lens *Shamanic Wisdom in the Pyramid Texts* Jeremy Naydler,2004-12-09 A radical reinterpretation of the Pyramid Texts as shamanic mystical wisdom rather than funerary rituals Reveals the mystical nature of Egyptian civilization denied by orthodox Egyptologists Examines the similarity between the pharaoh s afterlife voyage and shamanic journeying Shows shamanism to be the foundation of the Egyptian mystical tradition To the Greek philosophers and other peoples of the ancient world Egypt was regarded as the home of a profound mystical wisdom While there are many today who still share that view the consensus of most Egyptologists is that no evidence exists that Egypt possessed any mystical tradition whatsoever Jeremy Naydler s radical reinterpretation of the Pyramid Texts the earliest body of religious literature to have survived from ancient Egypt places these documents into the ritual context in which they belong Until now the Pyramid Texts have been viewed primarily as royal funerary texts that were used in the liturgy of the dead pharaoh or to aid him in his afterlife journey This emphasis on funerary interpretation has served only to externalize what were actually experiences of the living not the dead king In order to understand the character and significance of the extreme psychological states the pharaoh experienced states often involving perilous encounters with alternate realities we need to approach them as spiritual and religious phenomena that reveal the extraordinary possibilities of human consciousness It is the shamanic spiritual tradition argues Naydler that is the undercurrent of the Pyramid Texts and that holds the key to understanding both the true nature of these experiences and the basis of ancient Egyptian mysticism **Encyclopedia of Religion and Nature** Bron Taylor,2008-06-10 The Encyclopedia of Religion and Nature originally published in 2005 is a landmark work in the burgeoning field of religion and nature It covers a vast and interdisciplinary range of material from thinkers to religious traditions and beyond with clarity and style Widely praised by reviewers and the recipient of two reference work awards since its publication see www.religionandnature.com/ern this new more affordable version is a must have book for anyone interested in the manifold and fascinating links between religion and nature in all their many senses **Introduction to the Study of Religion** Kathleen S. Astrology and Cosmology in Early China David W. Pankenier, 2013-10-10 Drawing on a vast array of scholarship this pioneering text illustrates how profoundly astronomical phenomena shaped ancient Chinese civilization Religion and Doctor Who Andrew Crome, James F. McGrath, 2013-11-14 Doctor Who has always contained a rich current of religious themes and ideas In its very first episode it asked how humans rationalize the seemingly supernatural as two snooping schoolteachers refused to accept that the TARDIS was real More recently it has toyed with the mystery of Doctor's real name perhaps an echo of ancient religions and rituals in which knowledge of the secret name of a god angel or demon was thought to grant a mortal power over the entity But why does Doctor Who intersect with religion so often and what do such instances tell us about the society that produces the show and the viewers who engage with it The writers of Religion and Doctor Who Time and Relative Dimensions in Faith attempt to answer these questions through an in depth analysis of the various treatments of religion throughout every era of the show's history While the majority of chapters focus on the television show Doctor Who the authors also look at audios novels and the response of fandom Their analyses all written in an accessible but academically thorough style reveal that examining religion in a long running series such as Doctor Who can contribute to a number of key debates within faith communities and religious history Most importantly it provides another way of looking at why Doctor Who continues to inspire to engage and to excite generations of passionate fans whatever their position on faith The contributors are drawn from the UK the USA and Australia and their approaches are similarly diverse Chapters have been written by film scholars and sociologists theologians and historians rhetoricians philosophers and anthropologists Some write from the perspective of a particular faith or belief others write from the perspective of no religious belief All however demonstrate a solid knowledge of and affection for the brilliance of Doctor Who **Forthcoming Books** Rose Army, 1994-04
