Love's Garden Peggy Rowe-Ward, Larry Ward, 2008-05-10 A collection of real life Buddhist love stories with commentary and guided exercises for couples developed by Peggy Rowe Ward and Larry Ward senior students and ordained Dharma teachers in the tradition of Zen Master Thich Nhat Hanh These personal stories from couples of a range of different ages and experiences illustrate how Buddhist principles can help couples navigate any stage of their relationship It took the authors some good living and good loving before they realized that the love that they were seeking was already present and available in the depths of their hearts and mind Love does not depend on anything that is

happening Out There and is not dependent on anything he or she might do It depends on our own willingness to look within and to act This insight is a result of practicing the teachings of the Buddha on right diligence and right effort The authors have been studying and practicing with Zen master Thich Nhat Hanh and they are happy to report that the practices work In iLove s Garden the authors offer key practices such as The Three Keyes see excerpt for the transformation of suffering and the establishment of happiness These practices have helped them see each other s happiness as their own They share stories and illustrations from their own life and also and those of their friends and students brbrThe practice is not difficult We simply need to get in touch with and nourish the practices that are helping us to experience peace And then we need to stop doing the things that keep us from experiencing peace Larry Ward *Love and the World* Robert Sardello,2001-04 From the translator s introduction In picking up this book you are about to embark on a fascinating journey It is a journey to places where according to the author many of us have already been but about which we have forgotten It is also a journey within into that psychological space where our ideas and beliefs about God spirituality and religion reside During both journeys we are likely to encounter wonder and recognition skepticism and acceptance rejection and admiration confusion and long sought understanding For some this journey will be the start of a much larger one for some it is but one more leg of a journey undertaken earlier in any case The Rose of the World is not a final destination Completed in 1959 hidden from the Soviet secret police for twenty years The Rose of the World was first made public through excerpts in the magazine Novy Mir in 1989 The Rose of the World is a unique and poetic cosmological treatise passionately written out of personal spiritual experience It offers a prophetic call for the spiritual reunification of all people and an open and harmonious relationship among the great world religions For Daniel Andreev The Rose of the world is a spiritual flower whose roots are in heaven each petal is a unique image of the great world religions and cultures and the whole flower is their joint co creation with God Lindisfarne Books is proud to publish the first English translation of this masterpiece of contemporary Russian spiritual literature a work that belongs to Russian religious thought in the tradition of Vladimir Soloviev and to the West in the tradition of Dante and Blake truly a work for the twenty first century [The Culture of Love in China and Europe](#) Paolo Santangelo,Gábor Boros,2020-01-13 In The Culture of Love in China and Europe Paolo Santangelo and G bor Boros offer a survey of the cults of love developed in the history of ideas and literary production in China and Europe between the 12th and early 19th century They describe parallel evolutions within the two cultures and how innovatively these independent civilisations developed their own categories and myths to explain exalt but also control the emotions of love and their behavioural expressions The analyses contain rich materials for comparison point out the universal and specific elements in each culture and hint at differences and resemblances without ignoring the peculiar beauty and attractive force of the texts cultivating love *Love and the Soul* Robert Sardello,2008-12-09 With economies in peril war in the Middle East genocides global warming and a host of other grim phenomena the world has never seemed so besieged The solution says Robert

Sardello lies with the individual In this timely thoughtful book he explains how the soul can engage with the outer world to produce radical change Because we think of the world as a vast mechanism and behave as mechanical objects in it the results are devastation and dysfunction The key is to learn to identify with the plight of the Earth by developing a true sense of individual imagination and conscious awareness of inner purpose and beauty in conjunction with the soul of the world Sardello shows how to achieve this awareness and bring what is inside out into the world inspiring balance and stability Using the Grail legend and the myth of Sophia known as the Soul of the World as well as writings by Jung James Hillman and Rudolf Steiner Love and the Soul helps readers imagine a revitalized Earth by exploring the significance of grieving the transformative power of radical receptivity the creative power of dreaming and a new basis for community **The**
