Van Vugt, G. Daan Cloete, 2000-01-01 In the mid 1990s the Truth and Reconciliation Commission disclosed its findings on the awful reality of the apartheid era in South Africa The Commission inspired scholars from Europe North America and South Africa to convene a group of their own to investigate in multicultural scholarly dialogue the history theology philosophy and

politics of race and reconciliation in South Africa This volume is the product of that important dialogue And while the focus is the particular environment of South Africa the contributors work within a comparative perspective using examples from other nations and cultures to explore that which makes South Africa unique Ultimately the book aims to offer not only a better understanding of the depth of injustice in South Africa s past but also a deeper appreciation for the achievement of the present and the promise of the future in South Africa and in every other multiethnic region in the world **The Texture of Industry** Robert B. Gordon, Patrick M. Malone, 1997-02-06 While historians have given ample attention to stories of entrepreneurship invention and labor conflict they have told us little about actual work places and how people worked Workers seldom wrote about their daily employment However they did leave behind their tools products shops and factories as well as the surrounding industrial landscapes and communities In this book Gordon and Malone look at the industrialization of North America from the perspective of the industrial archaeologist Using material evidence from such varied sites as Indian steatite quarries automobile plants and coal mines they examine manufacturing technology transportation systems and the effects of industrialization on the land Their research greatly expands our understanding of industry and focuses attention on the contributions of anonymous artisans whose skills shaped our industrial heritage

Gambling on Ore Kent Curtis, 2013-07-15 Gambling on Ore examines the development of the western mining industry from the tumultuous and violent Gold Rush to the elevation of large scale copper mining in the early twentieth century using Montana as representative of mining developments in the broader US mining west Employing abundant new historical evidence in key primary and secondary sources Curtis tells the story of the inescapable relationship of mining to nature in the modern world as the United States moved from a primarily agricultural society to a mining nation in the second half of the nineteenth century In Montana legal issues and politics such as unexpected consequences of federal mining law and the electrification of the United States further complicated the mining industry's already complex relationship to geology while government policy legal frameworks dominant understandings of nature and the exigencies of profit and production drove the industry in momentous and surprising directions Despite its many uncertainties mining became an important part of American culture and daily life Gambling on Ore unpacks the tangled relationships between mining and the natural world that gave material possibility to the age of electricity Metal mining has had a profound influence on the human ecology and the social relationships of North America through the twentieth century and throughout the world after World War II Understanding how we forged these relationships is central to understanding the environmental history of the United States after 1850 Pacific Connections Kornel Chang, 2012-06-12 Pacific Connections is a shrewd fascinating and cogent examination of a Pacific Northwest borderland often taken for granted as a peaceful but inconsequential meeting point between two friendly nations Chang shows instead how it has been a violent point of contention shaped by empire and Anglo American aspirations to hegemony migration and ubiquitous racism the creation of boundaries through state formation and

the transgression of those boundaries by the mechanisms of capital Sharply written and deeply researched this book brings the Pacific Northwest into both the history of the Pacific World and the literature on borderlands that has until now focused largely on the U S and Mexico Pacific Connections is a brilliant achievement Bruce Cumings author of Dominion From Sea to Sea Pacific Ascendancy and American Power This wonderful book combines impressive archival research with a strong grounding in migration studies political economy cultural studies and critical race studies Chang examines weighty questions through compelling human dramas set in far flung places across the Pacific Rim This is transnational history at its best David Roediger coauthor of The Production of Difference Kornel Chang grapples with big ideas and big guestions Tracing the global movements behind racial and national borders and unraveling the messy contradictions of empire at the dawn of the twentieth century Pacific Connections explores a history that continues to haunt us with particular resonance in our current moment Moon Ho Jung author of Coolies and Cane Race Labor and Sugar in the Age of Emancipation Pacific Connections is a capacious study that recasts the U S Canadian borderlands as a crucial site of migration trade and exclusion within the formation of Pacific empire Chang shows how Chinese merchants Japanese and European migrants indigenous traders Anglo labor activists and both South Asian and white radicals played important roles in the negotiations of sovereignty Lisa Lowe Professor of Comparative Literature University of California San Diego Britons to America Mario Varricchio, 2025-04-29 This book breaks new ground in the study of British emigration to the United States from the 1860s to the 1930s through the analysis of interviews with English Scottish and Welsh emigrants collected during the Great Depression era by the Federal Writers Project and mainly from the 1990s by the Ellis Island Museum fieldworkers These sources shed light on a period of massive emigration from Great Britain the first three decades of the twentieth century and the Great Depression age which has largely been neglected by researchers The volume traces the experiences of the men and women who left for America by dwelling upon the pre emigration emigration proper and post emigration phases and identifies common aspects in Britons migratory experience along with differences due to age gender and nationality The author puts to the test the widespread notions of British immigrants economic success and cultural invisibility in America and reveals evidence which clearly challenges the image of Britons as successful immigrants who blended into American society relatively quickly and easily The book will appeal to scholars researchers students and general readers in the fields of British history American history oral **Technology on the Frontier** Dianne Newell,2011-11-01 This book tells about a frontier region in history and migration economic transition Its focus is the successful adoption of new technology to the particular economic and engineering circumstances associated with the newness or frontier nature of Ontario mining to 1890 Britishness Abroad ,2007-01-01 As a global phenomenon Britishness encompassed trade conquest and settlement and the development of imperial cultures within the vast reaches of the British Empire At its zenith peoples around the world joined in shared traditions and common loyalties that were strenuously maintained even those who contested its claims found it difficult to escape its effects With the

eclipse of British power and influence the importance of this legacy has attracted increasing attention from researchers seeking to escape the confines of national histories Britishness Abroad explores the cultural economic and political aspects of Britishness in Australia New Zealand New Guinea Canada and South Africa as well as in the United States and within Britain itself Leading scholars consider the movement of people money technology identities beliefs and attitudes around the British world and examine what happened to Britishness as the Empire declined Contributors Stephen Banfield Kate Darian Smith Anne Dickson Waiko Patricia Grimshaw David Goodman Jonathan Hyslop John MacKenzie Gary Magee and Andrew Thompson Adele Perry Bill Schwarz Stuart Ward Portrait of an English Migration William E.
