C. Reid, Marius Johannes De Waal, Reinhard Zimmermann, 2015 Intestate Succession is the second volume in the Comparative Succession Law series which examines the principles of succession law from a comparative and historical perspective This volume discusses the rules which apply where a person dies either without leaving a valid will or leaving a will which fails to dispose of all of the person s assets Among the questions considered are the following What is the nature of the rules for the disposal of the deceased s assets Are they mechanical or is there an element of discretion Are particular types of property dealt with in particular ways Is there entitlement to individual assets as opposed to money Do the rules operate in a parentelic system or a system of some other kind Are spouses treated more favourably than children What provision is made for extra marital children for adopted children for step children Does cohabitation give rise to entitlement How are same sex couples treated Broader questions also arise of a historical and comparative nature Where for example do the rules in

intestate succession come from in particular legal systems Have they been influenced by the rules in other countries How are the rules explained and how are they justified To what extent have they changed over time What are the long term trends And finally are the rules satisfactory and is there pressure for their reform As in the first volume this book will focus on Europe and on countries which have been influenced by the European experience such as Australia New Zealand South Africa the United States of America Quebec and the countries of Latin America Further chapters are devoted to Islamic Law and Nordic law Opening with a discussion on Roman law and concluding with an assessment of the overall development of the law in the countries surveyed this book will provide a wider reflection on the nature and purpose of the law of intestate succession

Survive - Alive - Thrive Mark S. Negley, 2021-05-25 Loss isn t one size fits all It comes in a million different forms and all of them hurt Whatever your

situation there is hope you are not alone you will get through this and you can experience true joy again An estimated two hundred million Americans face the pain and confusion of loss every year and most of us have no idea how to handle it We're thrown into the deep end of grief without a life preserver desperately trying to stay afloat in a sea of shock anger frustration heartbreak and hopelessness Mark Negley knows what it's like to face the pain of loss and fight to build a new life from the ashes Over the past thirty years he has faced cancer raised a special needs child lost his beloved mother nearly lost his wife in a car accident and supported her through depression and mental health issues resulting from her brain injuries Tragically in 2016 Mark received the biggest blow of all when his wife of twenty years took her own life Frustrated by the lack of relatable resources to help navigate his grief recovery Mark set out to redefine the loss experience After five years of research in depth interviews with loss survivors and leading grief groups he realized that the problem isn't how we experience grief the problem is that traditional models make it seem too formulaic He found that grief recovery isn't a linear progression from one clearly defined stage to the next rather it's a series of concentric circles like ripples in a pond that emanate from a center point of impact Those circles form three interconnected phases of recovery called Survive Alive and Thrive In Survive Alive Thrive Navigating the Journey from Loss to Hope to Happiness Mark Negley takes you on a journey through his loss experiences using his story and the stories of several others to teach his revolutionary new model of grief recovery You don't have to walk this difficult road alone With the help of Mark and others you can navigate from loss to hope and then to happiness You don't have to settle for survival Set your sights higher and learn how to thrive again *Ongoing Challenges for Widowed Parents* Aryn Grossman Froum, 2004 **Lives Like Loaded Guns** Lyndall Gordon, 2010-06-10 In 1882 Emily Dickinson's brother Austin began a passionate love affair with Mabel Todd a young Amherst faculty wife setting in motion a series of events that would forever change the lives of the Dickinson family The feud that erupted as a result has continued for over a century Lyndall Gordon an award winning biographer tells the riveting story of the Dickinsons and reveals Emily as a very different woman from the pale lovelorn recluse that exists in the popular imagination Thanks to unprecedented use of letters diaries and legal documents Gordon digs deep into the life and work of Emily Dickinson to reveal the secret behind the poet's insistent seclusion and presents a woman beyond her time who found love spiritual sustenance and immortality all on her own terms An enthralling story of creative genius filled with illicit passion and betrayal *Lives Like Loaded Guns* is sure to cause a stir among Dickinson's many devoted readers and scholars *Building Belief* Chad V. Meister, 2009-06-01 It can be hard to share faith with others especially when people can't agree on whether there is even any actual truth With that in mind Chad Meister has developed a simple logical way for you to help others move past relativism to a place where Christian belief makes sense the Apologetics Pyramid In *Building Belief* Meister leads you up each step of the pyramid beginning where many find themselves today doubting if anything is really true From there he powerfully builds a case for absolute truth the existence of God universal morals and values the reliability and divine

inspiration of the Bible the resurrection of Christ and ultimately the good news that Jesus is the Son of God who offers salvation to the world
