Social Contexts of Health, Illness, and Patient Care Elliot G. Mishler,Lorna R. Amarasingham,Samuel D. Osherson,Stuart t. Hauser,Nancy E. Waxler,Ramsay Liem,1981-04-30 **Health, Disease and Society** Kelvyn Jones,Graham Moon,2022-05-24 Originally published in 1987 this textbook is a comprehensive introduction to the rapidly developing field of medical geography It illustrates the ideas methods and debates that inform contemporary approaches to the subject demonstrating the potential of a social and environmental approach to illness and health The central theme is the need to reject an exclusively biological approach to health The authors examine both the geography of health care and outline a selection of health service planning initiatives in both North America and Europe **Handbook of Health Behavior Research II** David S. Gochman,2013-11-11 Volume 2 discusses the relationship between patient and caregiver in terms of structural and interactional determinants The impact of provider characteristics on compliance and adherence is given especially noteworthy treatment Each volume features extensive supplementary and integrative material prepared by the editor the detailed index to the entire four volume set and a glossary of health behavior terminology *Ethics and Aging* James Edward Thornton,Earl Raye Winkler,2011-11-01 This book is an important and timely look at issues of ethics in aging It reflects the complexity of these questions but develops them in relation to a single general theme that of the involvement of the elderly in the design of social policy and the research which affects them Moral problems involving the elderly are many faceted Accurate understanding and social response demand some integration of experience sensibility and knowledge provided by different perspectives Ethics and Aging incorporates viewpoints from gerontology philosophy law theology sociology psychology medicine nursing and economics American Medicine As Culture Howard F. Stein,2019-03-01 This book situates biomedicine within American culture and argues that the very organization and practice of medicine are themselves cultural It demonstrates the symbolic construction of clinical reality within American biomedicine and shows how biomedicine never leaves the realm of the personal Communication in Palliative Nursing Elaine Wittenberg-Lyles,2013 This book unites complementary work in communication studies and nursing research to present a theoretically grounded curriculum for teaching palliative care communication to nurses The chapters outline the COMFORT curriculum Central to this curriculum is the need for nurses to practice self care **The Old Age Challenge to the Biomedical Model** Charles F. Longino,2020-11-25 Central to this book is the idea that the United States is in the midst of a health care crisis one that will be exacerbated as the population continues to age Longino and Murphy trace the philosophical and technological development of the biomedical model and show its inadequacy to deal with the massive chronic disease demand of the present and the future They argue that the delivery of health care will meet and survive the old age challenge only if the medical system is thoroughly democratized A more inclusive system must be devised that encourages a more reasonable allocation of resources gives more attention to prevention adopts a wider range of non medical interventions and invites

citizens to become more involved in their own health care and the planning of services **Social Context of health, illness, and patient care** ,1981 **The Eternally Wounded Woman** Patricia Anne Vertinsky,1990 **Epidemiology and Community Psychiatry** P. Pichot,2013-03-14 The purpose of the World Psychiatric Association is to coordinate the activities of its Member Societies on a world wide scale and to advance enquiry into the etiology pathology and treatment of mental illness To further this purpose the Association organizes mono or multi thematic Regional Symposia in different parts of the world twice a year and World Congresses dealing with all individual fields of psychiatry once every five or six years Between these meetings the continuation of the Association s scientific work is assured through the activities of its specialty sections each covering an important field of psychiatry The programs of the World Congresses reflect on the one hand the intention to present the coordinating functions of the Association and on the other to open a broad platform for a free exchange of views Thus the VII World Congress of Psychiatry held in Vienna from July 11 to 16 1983 was composed of two types of scientific events those structured by the Association and those left to the initiative of the participants The first type comprised Plenary Sessions planned by the Scientific Program Committee anq Section Symposia organized by the WPA sections the second embraced Free Symposia free papers video sessions and poster presentations prepared by the participants Altogether 10 Plenary Sessions 52 Section Symposia and 105 Free Symposia took place and 78 free papers and poster sessions and 10 video sessions were held
