Social Movement Organizations A Guide To Insurgent Realities

Heather MacNeil, Terry Eastwood

Social Movement Organizations A Guide To Insurgent Realities:

Social Movement Organizations John Lofland, Well known for his sociological studies of social movements John Lofland has now written the authoritative guide to research on social movement organizations viewed as insurgent realities countercurrents of varying intensity and duration which challenge mainstream conceptions of how society ought to be organized and how life ought to be lived **Social Movement Organizations** J. Lofland,1996-01-01 **Methods of**

Social Movement Research Bert Klandermans,Suzanne Staggenborg,2002 Citing the critical importance of empirical work to social movement research the editors of this volume have put together the first systematic overview of the major methods used by social movement theorists Original chapters cover the range of techniques surveys formal models discourse analysis in depth interviews participant observation case studies network analysis historical methods protest event analysis macro organizational analysis and comparative politics Each chapter includes a methodological discussion examples of studies employing the method an examination of its strengths and weaknesses and practical guidelines for its application **The**

Wiley Blackwell Companion to Social Movements David A. Snow,Sarah A. Soule,Hanspeter Kriesi,Holly J. McCammon,2023-01-04 The most up to date and thorough compendium of scholarship on social movements This second edition of The Wiley Blackwell Companion to Social Movements features forty original essays from the field With contributions from both established and ascendant scholars the Companion seeks to present current research on social movements in all its diversity It is the most up to date comprehensive volume of social science research on social movements available today The essays address facilitative and constraining contexts and conditions social movement organizations fields and dynamics strategies and tactics micro structural and social psychological dimensions of participation consequences and outcomes and various thematic intersections including the intersection of social movements and social class gender race and ethnicity religion human rights globalization political extremism and more Offers an illuminating guide to understanding the dynamics and operation of social movements within the modern global world Covers a diverse range of topics in the field of social movement studies Offers original state of the art essays by internationally recognized scholars The Wiley Blackwell Companion to Social Movements is recommended for graduate seminars on social movement and for scholars of social movements worldwide It is also an excellent text for college and university libraries especially with graduate programs in the social sciences **Handbook of Sociological Theory** Jonathan H. Turner,2006-11-22 This wide ranging handbook presents in depth discussions on the array of subspecialties that comprise the field of sociological theory Prominent theorists working in a variety of traditions discuss methodologies and strategies the cultural turn in sociological theorizing interaction processes theorizing from the systemic and macro level new directions in evolutionary theorizing power conflict and change and theorizing from assumptions of rationality Understanding Individual Commitment to Collective Action Carlos

Ramírez,2023-09-01 When speaking colloquially of political participation or civic action one thinks in the first instance of

groups and organizations such as political parties social movements or various types of voluntary associations The perspective of individuals is not the first thing that comes to mind when seeking to understand their functioning In contrast to this vision understanding the dynamics of participation requires taking a closer look at the individual that is at his or her moral dispositions and projects his or her multiple and simultaneous identities the breaking points in his or her biographical trajectory the roles he or she adopts in an organization or the styles of communication which he or she uses The book comprises a variety of case studies and theoretical and methodological contributions that independent of rational choice theories seek to understand collective action at the level of the individual and in doing so to articulate the various fields of study in this regard with the singularity of biographies and the reflective personal identities that characterize contemporary individualism

Islam, Charity, and Activism Janine A. Clark, 2004-01-01 Throughout the Middle East Islamist charities and social welfare organizations play a major role in addressing the socioeconomic needs of Muslim societies independently of the state Through case studies of Islamic medical clinics in Egypt the Islamic Center Charity Society in Jordan and the Islah Women s Charitable Society in Yemen Janine A Clark examines the structure and dynamics of moderate Islamic institutions and their social and political impact Questioning the widespread assumption that such organizations primarily serve the poorer classes Clark argues that these organizations in fact are run by and for the middle class Rather than the vertical recruitment or mobilization of the poor that they are often presumed to promote Islamic social institutions play an important role in strengthening social networks that bind middle class professionals volunteers and clients Ties of solidarity that develop along these horizontal lines foster the development of new social networks and the diffusion of new ideas

Social Norms Michael Hechter, Karl-Dieter Opp, 2001-03-15 Social norms are rules that prescribe what people should and should not do given their social surroundings and circumstances Norms instruct people to keep their promises to drive on the right or to abide by the golden rule They are useful explanatory tools employed to analyze phenomena as grand as international diplomacy and as mundane as the rules of the road But our knowledge of norms is scattered across disciplines and research traditions with no clear consensus on how the term should be used Research on norms has focused on the content and the consequences of norms without paying enough attention to their causes Social Norms reaches across the disciplines of sociology economics game theory and legal studies to provide a well integrated theoretical and empirical account of how norms emerge change persist or die out Social Norms opens with a critical review of the many outstanding issues in the research on norms When are norms simply devices to ease cooperation and when do they carry intrinsic moral weight Do norms evolve gradually over time or spring up spontaneously as circumstances change The volume then turns to case studies on the birth and death of norms in a variety of contexts from protest movements to marriage to mushroom collecting The authors detail the concrete social processes such as repeated interactions social learning threats and sanctions that produce sustain and enforce norms One case study explains how it can become normative for citizens to participate in political

protests in times of social upheaval Another case study examines how the norm of objectivity in American journalism emerged Did it arise by consensus as the professional creed of the press corps or was it imposed upon journalists by their employers A third case study examines the emergence of the norm of national self determination has it diffused as an element of global culture or was it imposed by the actions of powerful states The book concludes with an examination of what we know of norm emergence highlighting areas of agreement and points of contradiction between the disciplines Norms may be useful in explaining other phenomena in society but until we have a coherent theory of their origins we have not truly explained norms themselves Social Norms moves us closer to a true understanding of this ubiquitous feature of social life

Socializing Development Leon Valentin Schettler, 2020-09-04 As Multilateral Development Banks increasingly gained influence in shaping global development transnational social movements pushed to hold them accountable for their human rights impact towards communities Leon Valentin Schettler presents a novel causal mechanism of movement advocacy towards MDBs combining disruptive and conventional tactics Systematically comparing the evolution of human rights standards and complaint mechanisms over the last three decades he reveals how the combination of 1 declining US hegemony 2 counter mobilization by China and 3 movement cooptation by the World Bank bureaucracy led to a dilution of human rights accountability in the 2010s

Hardhats, Hippies, and Hawks Penny W. Lewis, 2013-04-12 In the popular imagination opposition to the Vietnam War was driven largely by college students and elite intellectuals while supposedly reactionary blue collar workers largely supported the war effort In *Hardhats Hippies and Hawks* Penny Lewis challenges this collective memory of class polarization Through close readings of archival documents popular culture and media accounts at the time she offers a more accurate counter memory of a diverse cross class opposition to the war in Southeast Asia that included the labor movement working class students soldiers and veterans and Black Power civil rights and Chicano activists Lewis investigates why the image of antiwar class division gained such traction at the time and has maintained such a hold on popular memory since Identifying the primarily middle class culture of the early antiwar movement she traces how the class interests of its first organizers were reflected in its subsequent forms The founding narratives of class based political behavior Lewis shows were amplified in the late 1960s and early 1970s because the working class in particular lacked a voice in the public sphere a problem that only increased in the subsequent period even as working class opposition to the war grew By exposing as false the popular image of conservative workers and liberal elites separated by an unbridgeable gulf Lewis suggests that shared political attitudes and actions are in fact possible between these two groups

Conspiracy Theory in Turkey Julian de Medeiros, 2018-05-21 Turkey is witnessing an era of political upheaval From the Gezi protests in 2013 to the attempted military coup of 2016 the concept of post truth plays a significant role in Turkish politics today In the chaos of conspiracy theories hidden enemies and post coup purges the unreal merges with the real fuelling political repression and anti government sentiment alike Julian de Medeiros here analyses the many unfolding challenges of Erdogan s New Turkey

and shows how a fixedly Turkish style of post truth has taken root Examining the relationship between conspiracy theory and post truth this book sheds light on the strategies of political paranoia that threaten to undermine the success of Turkey s democratic model De Medeiros argues that both the Gezi protests and the failed coup attempt need to be considered alongside the emerging anti democratic and conspiratorial tendencies of an increasingly authoritarian Turkish government As Turkish democracy continues to evolve with breath taking speed and unpredictable outcomes de Medeiros shows how the rise of paranoid politics in Turkey constitutes part of a global trend towards post truth narratives He situates Turkish democracy as subject to a global resurgence of strongman leadership and antagonistic populism Conspiracy Theory in Turkey presents the very first critical account of the Turkish model of a post truth politics Through a counter intuitive analysis of conspiracy theory and paranoid politics the book disentangles the real from the unreal and chronicles the emergence of post truth in Turkey today

Fighting for Peace Lisa Leitz, 2014-04-15 *Fighting for Peace* brings to light an important yet neglected aspect of opposition to the Iraq War the role of veterans and their families Drawing on extensive participant observation and interviews Lisa Leitz demonstrates how the harrowing war experiences of veterans and their families motivated a significant number of them to engage in peace activism Married to a Navy pilot herself Leitz documents how military peace activists created a movement that allowed them to merge two seemingly contradictory sides of their lives an intimate relation to the military and antiwar activism Members of the movement strategically deployed their combined military peace activist identities to attract media attention assert their authority about the military and war and challenge dominant pro war sentiment By emphasizing the human costs of war activists hoped to mobilize American citizens and leaders who were detached from the wars in Iraq and Afghanistan bring the wars to an end and build up programs to take care of returning veterans and their families The stories in *Fighting for Peace* ultimately reveal that America s all volunteer force is contributing to a civilian military divide that leaves civilians with little connection to the sacrifices of the military Increasingly Leitz shows veterans and their families are being left to not only fight America s wars but also to fight against them

Clandestine Political Violence Donatella della Porta, 2013-05-20 *Clandestine Political Violence* compares four types of clandestine political violence left wing in Italy and Germany right wing in Italy ethnonationalist in Spain and religious fundamentalist in Islamist clandestine organizations Oriented toward theory building Della Porta develops her own definition of clandestine political violence Building on the most recent developments in social movement studies Della Porta proposes an original interpretative model Using a unique research design she singles out some common causal mechanisms at the onset during the persistence and at the demise of clandestine political violence The development of the phenomenon is located within the interactions among social movements countermovements and the state She pays particular attention to the ways different actors cognitively construct the reality they act upon Based on original empirical research as well as existing research in many languages this book is rich in empirical evidence on some of the most crucial cases of clandestine political

violence *Addiction Treatment* Daniel Hood, 2017-09-08 *Addiction Treatment* is an ethnography that compares two types of residential drug free treatment programs religious faith based programs and science based secular programs Although these programs have originated from significantly different ideological bases in examining the day to day operations of each Daniel E Hood concludes that they are far more alike than they are different Drug free treatment today whether in secular or religious form is little more than a remnant of the temperance movement It is a warning to stop using drugs At its best treatment provides practical advice and support for complete abstinence At its worst it demeans users for a form of behavior that is not well understood and threatens death if they do not stop Hood argues that there is no universal agreement on what addiction is and that drug abuse is little more than a catch all term of no specific meaning used to condemn behavior that is socially unacceptable Through extensive participatory observations intimate life history interviews and informal conversations with residents and staff Hood shows how both programs use the same basic techniques of ideological persuasion mutual witnessing methods of social control discourse deprivation and the same proposed zero tolerance abstinent lifestyle Christian living vs Right living as they endeavor to transform clients from addicts to citizens or from sinners to disciples *Transforming Catholicism* David R. Maines, Michael J. McCallion, 2007-01-01 This book is among the first social scientific studies of liturgical change in the Catholic church The analysis is guided by a consistent theory of policy implementation and it uses first hand empirical data to ground its assessment and conclusions **Voluntary sector in transition** Linda Milbourne, 2013 The voluntary sector in transition explores the extensive growth and re shaping of the voluntary sector following sweeping changes to social and welfare policy over 30 years *Currents of Archival Thinking* Heather MacNeil, Terry Eastwood, 2017-01-09 With new technologies and additional goals driving their institutions archives are changing drastically This book shows how the foundations of archival practice can be brought forward to adapt to new environments while adhering to the key principles of preservation and access Archives of all types are experiencing a resurgence evolving to meet new environments digital and physical and new priorities To meet those changes professional archivist education programs now one of the more active segments of LIS schools are proliferating as well This book identifies core archival theories and approaches and how those interact with major issues and trends in the field The essays explore the progression of archival thinking today discussing the nature of archives in light of present day roles for archivists and archival institutions in the preservation of documentary heritage Examining new conceptualizations and emerging frameworks through the lenses of core archival practice and theory the book covers core foundational topics such as the nature of archives the ruling concept of provenance and the principal functions of archivists discussing each in the context of current and future environments and priorities Several new essays on topics of central importance not treated in the first edition are included such as digital preservation and the influence of new technologies on institutional programs that facilitate archival access advocacy and outreach the changing legal context of archives and archival work and the archival

collections of private persons and organizations Readers will also learn how communities of various kinds intersect with the archival mission and how other disciplines perspectives on archives can open new avenues Routledge Handbook of NGOs and International Relations Thomas Davies,2019-04-09 Offering insights from pioneering new perspectives in addition to well established traditions of research this Handbook considers the activities not only of advocacy groups in the environmental feminist human rights humanitarian and peace sectors but also the array of religious professional and business associations that make up the wider non governmental organization NGO community Including perspectives from multiple world regions the book takes account of institutions in the Global South alongside better known structures of the Global North International contributors from a range of disciplines cover all the major aspects of research into NGOs in International Relations to present a comprehensive overview of the historical evolution of NGOs the range of structural forms and international networks coverage of major theoretical perspectives illustrations of how NGOs are influential in every prominent issue area of contemporary International Relations evaluation of the significant regional variations among NGOs and how regional contexts influence the nature and impact of NGOs analysis of the ways NGOs address authoritarianism terrorism and challenges to democracy and how NGOs handle concerns surrounding their own legitimacy and accountability Exploring contrasting theories regional dimensions and a wide range of contemporary challenges facing NGOs this Handbook will be essential reading for students scholars and practitioners alike **Redemption and Recovery** Daniel Hood,2017-07-05 This

ethnography continues the thick description of faith based and science based drug programs begun in Addiction Treatment Using extensive interviews and his own participation in daily rounds of treatment Hood provides a vivid comparison of resident experience at each type of institution Redemption and Recovery tells the stories of two houses in the Bronx NY that serve people with drug problems Redemption House and Recovery House These stories include the direct accounts of residents druggin lives before treatment and their search for normalcy after recovery or redemption Other chapters dissect the religion of science based treatment and compare success rates religious vs secular Addiction Treatment had detailed a similar process of personal conversion central to both treatments This sequel uses the contextualized demographics of residents to uncover profound parallels between the two unique programs and debunk their shared ideology of abstinence

Tools of War, Tools of State Robert Tynes,2018-09-01 Examines why many governments rebels and terrorist organizations are using children as soldiers Despite the supposed taboo against the practice many governments rebels and terrorist groups use children in war to spy and kill In Tools of War Tools of State Robert Tynes examines this complex problem demonstrating that the modern use of children in war is a tactical innovation He discusses how boys and girls on the battlefield bolster troop size create moral dilemmas and deepen the level of fear He also reveals how the practice has become an essential component for groups such as ISIS and al Shabaab in their state making projects Using statistical methods to analyze conflicts from 1987 to 2007 Tynes shows how widespread child soldier use is and confirms the theory that it is

tactically advantageous Through historical analysis he explains how child soldiering developed out of Mao s protracted war theory and the militarization of youth during the twentieth century A case study of the civil war in Sierra Leone which details the brutality involved when children are forced to fight is included

This Captivating World of E-book Books: A Comprehensive Guide Revealing the Pros of E-book Books: A Realm of Convenience and Versatility E-book books, with their inherent portability and ease of access, have liberated readers from the limitations of physical books. Gone are the days of carrying cumbersome novels or carefully searching for particular titles in bookstores. E-book devices, sleek and lightweight, effortlessly store an extensive library of books, allowing readers to immerse in their preferred reads anytime, everywhere. Whether traveling on a bustling train, relaxing on a sunny beach, or just cozying up in bed, Kindle books provide an unparalleled level of convenience. A Literary World Unfolded: Exploring the Wide Array of E-book Social Movement Organizations A Guide To Insurgent Realities Social Movement Organizations A Guide To Insurgent Realities The Kindle Shop, a digital treasure trove of literary gems, boasts an wide collection of books spanning varied genres, catering to every readers taste and choice. From gripping fiction and thought-provoking non-fiction to classic classics and modern bestsellers, the Kindle Store offers an exceptional abundance of titles to explore. Whether seeking escape through engrossing tales of imagination and adventure, diving into the depths of historical narratives, or broadening ones understanding with insightful works of scientific and philosophy, the Kindle Store provides a gateway to a bookish universe brimming with endless possibilities.
