Social Policy Reform in Hong Kong and Shanghai: A Tale of Two Cities Linda Wong, Lynn T. White, III, Gui Shixun, 2016-07-22 As the richest cities in the world's most populous nation Hong Kong and Shanghai have recently experienced dynamic growth spurred by more and better managed capital These cities also have social problems whose solutions will cost money Their urban populations are aging Health finance at the level these First World cities demand threatens to consume a large portion of the municipal budgets Eldercare and social security are now less well covered by traditional Chinese families Education has become more complex and public tuition where it occurs brings with it official plans for schools Immigrants have flocked to Shanghai from inland China and Hong Kong s border has become a protector of the former colony s high productivity jobs Housing problems also have deeply affected both cities albeit in somewhat different ways This book provides a comprehensive overview of the similarities and differences between social policies in the two cities Each chapter covers a different issue health finance housing education labor poverty and social security eldercare and migration and competitiveness The contributors explore pertinent developments in each city and analyze the similarities and differences between the two cities approaches to social policies. They focus on policy reform and the interface between social policy and its environment One main theme throughout the book is the extent to which spending for capital Social Policy Reform in Hong Kong and Shanghai Linda accumulation is in conflict with spending for social policies Wong, Lynn T. White (III), Shixun Gui, 2004 Social Security, the Economy and Development J. Midgley, K. Tang, 2008-04-30 This book explores the complex relationship between social security and economic development arguing that social security contributes positively to economic development by promoting social investments that not only foster economic growth but enhance social welfare for all The contributors analyse the various forms of social security and through comprehensive analysis of country experiences demonstrates that the relationship between social security and economic development defies the simplistic interpretations currently popular in literature on the subject A variety of country case studies are explored including Britain Chile China India Korea Norway Singapore South Africa and the United States This topical volume is a vital companion for all interested in the dynamics of the relationship between social security and the economy Handbook on East Asian Social Policy Misa Izuhara, 2013-01-01 Dramatic socio economic transformations over the last two decades have brought social policy and social welfare issues to prominence in many East Asian societies Since the 1990s and in response to national as well as global pressure there have been substantial developments and reforms in social policy in the region but the development paths have been uneven Until recently comparative analysis of East Asian social policy tends to have focused on the established welfare state of Japan and the emerging welfare regimes of four Tiger Economies Much of the recent debate indeed preceded Chinas re emergence onto the world economy In this context this Handbook brings China more fully into the contemporary social policy debates in East Asia Organised around five themes from welfare state

developments to theories and methodologies to current social policy issues the Handbook presents original research from leading specialists in the fields and provides a fresh and updated perspective to the study of social policy Providing a comparative international approach this Handbook will appeal to academics researchers and students at both undergraduate and postgraduate levels working in the fields of social policy as well as policy makers and practitioners who are interested in social policy lessons from other societies Social Cohesion In Greater China: Challenges For Social Policy And Governance Ka Ho Mok, Yuen-wen Ku, 2010-04-15 This book critically examines the issues and challenges of social development faced by societies in Mainland China Taiwan and Hong Kong with particular reference to the major strategies these societies adopt to promote social cohesion and civil harmony in the context of globalization It focuses on people who have been socially marginalized by the Asian financial crisis in 1997 and examines the measures Greater China has adopted to balance economic growth with social development The book will be of interest to readers who wish to know more about societies in Mainland China and the effects of globalization Health Insurance Reforms in Asia Sabrina Luk, 2014-03-26 This book empirically examines health care financing reforms and popular responses in three major cities in East Asia Shanghai Singapore and Hong Kong It adopts a new revised version of the theory of historical institutionalism to compare and explain the divergent reform paths in these three places over the past three decades It also examines forces that propel institutional change The book provides three detailed case studies on the development of health care financing reforms and the politics of implementing them It shows that health care systems in Shanghai Singapore and Hong Kong were the products of Western presence in the nineteenth century It illustrates how greater attention is paid to the roles played by ideas actors and environmental triggers without abandoning the core assumptions that political institutions and policy feedback remain central to impact health care financing reforms It shows that health care financing reform is shaped by a complex interplay of forces over time It also provides the most updated material about health care financing reforms in Shanghai Singapore and Hong Kong The central argument of this book is that health care financing reform is both an evolving process responding to changing circumstances and a political process revealing an intricate interplay of power relationships and diverse interests It shows that institutional changes in health care financing system can be incremental but transformative in nature It argues that social policies will continue to develop and welfare states will continue to adapt and evolve in order to cope with new risks and needs This book sheds new lights on understanding the politics of health care financing reform and sources and modes of institutional change China's Urban Health Care Reform Chack-kie Wong, Vai Io Lo, Kwong-Leung Tang, 2006-01-01 One way to describe the importance of social policy is to say it s about what is and what might be This ethos is the driving force behind Chack Kie Wong Vai Io Lo and Kwong leung Tang s China s Urban Health Care Reform Based on a study of a mid level city in China these three scholars provide analysis and offer theory based recommendations on health care development Using a comparative policy framework supported by a legal expert s knowledge of regulatory

specifications China's Urban Health Care Reform argues that a strategy with priority in economic growth as in the case of China does not bring forth cost efficiency and equity in health care for the whole nation Ultimately Wong Lo and Tang strive to offer direction for health care reform that will lead to better health care in China's cities As a result this is a work of great significance to anyone involved in public health social work public policy medicine or law **Global Hong Kong** Cindy Wong, Gary McDonogh, 2014-06-03 Global Hong Kong locates Hong Kong in the contemporary globalizing world Hong Kong as the authors argue is an archetypal place sitting at the intersection of East and West It is also a major center for global capital flows and world trade Moreover in recent years the island's global cultural power has become increasingly evident as Hong Kong popular culture has spread to the West via a booming film industry While looking at issues of postcoloniality transnationalism and economic globalization Wong and McDonogh focus on the new cultures and social formations of contemporary Hong Kong as well as the transformation of the physical city itself They also trace the new interconnections economic demographic social and cultural between Hong Kong and other parts of the worldthat have benn fostered by globalization Books in this series look at how nations and regions across the world are navigating the tumultuous currents of globalization Concise descriptive interdisciplinary and theoretically informed they serve as ideal introductions to the peoples and places of our increasingly globalized world

**Migration in Post-Colonial Hong Kong** Susanne Y.P. Choi,Eric Fong,2017-08-17 Since 1995 most mainland migrants to Hong Kong have been the wives or non adult children of Hong Kong men of lower socio economic status The majority of

immigrants are women who throughout the past two decades have accounted for more than 60% of immigration The profile of immigrants has been changing and they are significantly more educated than was the case in the past Despite the improvement in the educational level of mainland Chinese migrants since 1991 and their increased involvement in paid employment migrants have continued to experience great difficulty integrating into Hong Kong society and anti immigrant sentiment seems to have increased over the same period This raises the question of how gender and socio economic factors intersect with migration to influence the extent of migrants adaption to Hong Kong society and culture The growing anti China sentiment in Hong Kong also raises the question of how the integration of migrants into a destination society is influenced by the political context Examining the questions around migration into Hong Kong from a range of multidisciplinary perspectives this book combines quantitative and qualitative data to portray a detailed image of contemporary Hong Kong The July 1 Protest Rally Joseph Y. White, 2009 Why have Taiwan rich parts of China and Thailand boomed famously while the Philippines has long remained stagnant both economically and politically Do booms abet democracy Does the rise of middle OC classesOCO promise future liberalization Why has Philippine democracy brought no boom and barely served the Filipino people This book unlike most previous studies shows that both the roots and results of growth are largely political rather than economic Specifically it pays attention to local not just national power networks that caused or prevented growth in the four places under consideration Violence has been common in these polities along with money Elections have contributed to socio political problems that are also obvious in Leninist or junta regimes because elections are surprisingly easy to buy with corrupt money from government contracts Liberals should pay more serious theoretical attention to the effects of money on justice and Western political science should focus more clearly on the ways non state local power affects elections By considering the effects on fair justice of local money and power largely from small and medium sized firms that emerge after agrarian reforms this book asks democrats to face squarely the extent to which electoral procedures fail to help ordinary citizens Students and scholars of Asia will all need this book OCo as will students of the West whose methods have become parochial
