Marshall, Mikael Jansson, Ted Riecken**

Social Research On Children And Adolescents Ethical Issues:

Social Research on Children and Adolescents Barbara Stanley, Joan E. Sieber, 1991-10-31 A first in its field this timely volume effectively bridges the gap between the legal requirements that govern research on minors and the research methodology literature in adolescent psychology The editors skillfully bring together the insights of a group of leading researchers and scholars to address and resolve the following issues what theory and research on human development can tell researchers about adolescents vulnerability to several kinds of risk research and how to reduce that vulnerability what the law says about young peoples rights to privacy how the relevant ethical theory or guidelines should apply to minors approaching adulthood under what circumstances parental consent does not protect children s rights and how one explains the research process to a young adult Social Research on Children and Adolescents reaches a wide audience from professionals in development psychology family studies and education to researchers in evaluation research methods and sociology to students in the above fields all will undoubtedly benefit from this book Social Research on Children and Adolescents is an invaluable resource for researchers who confront questions such as how to assess risks and benefits within a developmental framework what legal constraints and ethical principles guide research practice and how to explain research participation to youth who differ greatly in their comprehension of the enterprise The major strength of this book aside from its effective integration of developmental theory and research ethics is the repeated examination of concrete research problems in light of ethical principles and legal requirements This book will be a useful addition to the library of any social scientist who conducts psychological research with children

Death Studies Ethical Issues in Mental Health Research With Children and Adolescents Kimberly Hoagwood, Peter S. Jensen, Celia B. Fisher, 2014-06-03 Studies involving children with mental emotional or behavioral problems or their families have to meet certain standards of research ethics This book contains chapters on the kinds of ethical dilemmas that typically occur in different types of studies of children and then presents 65 real world cases from experts who study children s mental health These experts offer practical suggestions for how to handle these dilemmas Chapters on the perspectives of parents regulators and bioethicists provide additional points of view on these issues Written in down to earth language this book will be useful for professionals who study children for those who train students in research methods and for parents who are thinking about participating in research studies In attempting to bridge the apparent gap between ethics and science the editors close this volume on a note commonly sounded by researchers more research is needed Yet in this area a new kind of research is required The science of scientific ethics must be developed and expanded and better understanding of the determinants and circumstances under which children can comprehend and evaluate risks and benefits is needed Likewise fuller knowledge of the contextual factors affecting children s and families consent to participate in research is essential In particular development of scales to assess children s ability to comprehend risk benefit issues studies of families reactions to research procedures and empirical data on the impact of

various forms of participant reimbursement will advance both science and ethics This volume should spur further research serving as a guide for current investigators participating families institutional review boards and policymakers who shape the research enterprise *Social Research on Children and Adolescents* Barbara Stanley,1992 The important issues of what theory and research on human development can teach us about adolescents vulnerability how to reduce that vulnerability and under what circumstances parental consent does not protect children s rights are considered in this volume The editors skilfully bridge the gap between those volumes which set out legal requirements that govern research on minors and the research methodology literature on adolescent psychology **Conducting Research with Children and Adolescents** Julie Tinson,2009-06-04 This book is designed as a definitive guide to the sensitive and significant area of researching with children It is based on the key academic concepts in the field and summarises the seminal papers and salient ethics access and engagement issues *Handbook of Child Abuse Research and Treatment* John R. Lutzker,2013-03-09 The causes of child abuse and neglect have been major topics of study since the 1960s but treatment strategies research and legal issues have only received concentrated attention since the 80s The leading figures in these efforts have contributed to this handbook a state of the art compilation of their findings that also includes writings on associated cultural issues youth violence sexual abuse and child development Both a text and a reference the volume is uniquely founded on empirical research *Doing Mental Health Research with Children and Adolescents* Michelle O'Reilly,Nicola Parker,2014-07-07 Researching child and adolescent mental health can be a daunting task but with the right practical skills and knowledge your students can transform the way they work with children and young people giving them a voice through their research in the wider community Michelle O Reilly and Nikki Parker combine their clinical academic and research expertise to take your students step by step through each stage of the research process From first inception to data collection and dissemination they ll guide them through the key issues faced when undertaking their research highlighting the dilemmas challenges and debates and exploring the important questions asked when doing research with this population Providing practical advice and strategies for dealing with the reality of conducting research in practice this book will Provide your students with an overview of the theories that underpin methodological choice and the value of using qualitative research Guide them through the planning stage of your project clearly outlining important ethical and legal issues Take them through the most popular qualitative data collection techniques and support them with their analysis Help them write up their findings and demonstrate how research evidence translates into effective clinical practice Supported by helpful hints and tips case examples and definitions of key terms this highly practical and accessible guide throws a lifeline to any students or mental health practitioner learning about the research process for the first time **The SAGE Handbook of Child Research** Gary B Melton,Asher Ben-Arieh,Judith Cashmore,Gail S. Goodman,Natalie K. Worley,2013-12-18 It is refreshing to see a book such as this which is both broad in its conceptualization of the field of child research and deep in its focus The volume s editors

are paragons of awareness when it comes to the need for interdisciplinary research and theory to illuminate the lives and experience of children James Garbarino Loyola University Chicago Covers a satisfying and unprecedentedly wide range of research relating to childhood The contributors include many eminent international scholars of childhood making the book a valuable resource for child researchers Child advocates will also find the book to be invaluable in their efforts to improve children s well being and to change policies and practices for the better Anne Smith University of Otago A really scintillating collection that will provide a lasting perspective on child studies stimulating and comprehensive Jonathan Bradshaw University of York In keeping with global changes in children s social and legal status this Handbook includes examination of children as family members friends learners consumers people of faith and participants in law and politics The contributors also discuss the methodological and ethical requirements for research that occurs in natural settings and that enables children themselves to describe their perspective The book is divided into three parts Part I Setting Specific Issues in Child Research Part II Population Specific Issues in Child Research Part III Methods in Research on Children and Childhood

Handbook of Professional Ethics for Psychologists William O'Donohue, Kyle E. Ferguson, 2003-01-23 This carefully edited volume is comprehensive in its scope ranging from ethical considerations in research to the ethics of working with gays and lesbians in psychotherapy to ethical issues in the use of animals in research The two dozen chapters are carefully and clearly written and provide useful guidelines for resolving important questions and issues But at least as significant this book encourages the reader to think deeply about the many complex issues that are inherent to the study of behavior and efforts to make changes in people s lives Sometimes unequivocal answers are elusive but knowing what questions to ask surely enhances our scientific and applied efforts A must read Gerald Davison University of Southern California The Handbook of Professional Ethics for Psychologists provides a much needed review of the philosophical issues and unanswered questions raised by the Code of Ethics of the American Psychological Association This book will make an excellent textbook for ethics courses in the social sciences The coverage of topics makes the book appropriate to address the current movement for Responsible Conduct of Research a movement that is likely to result in requiring all university personnel to have proficiency in the ethics of research mentoring and scholarship Arthur C Houts University of Memphis The Handbook of Professional Ethics for Psychologists provides comprehensive coverage of topics typically neglected in books on ethical issues in psychology Rather than take ethical pronouncements as dogma not to be questioned but simply understood and observed William T O Donohue and Kyle E Ferguson encourage a questioning critical attitude Divided into four parts this provocative text provides comprehensive coverage of foundational issues professional issues special topics and special populations A distinguished group of scholars and researchers examine Moral reasoning and the ethics of professional licensing Confidentiality in psychotherapy Fees and financial arrangements The termination and referral of clients The use of deception in research Ethnic minority issues Consent in the treatment and research of children The Handbook of Professional

Ethics for Psychologists considers the compatibility of science and morality Challenging readers to question the fundamental philosophical values of professional psychology the editors and contributors inspire the ethical impulse and encourage active moral leadership An essential reference for professional and academic psychologists and counselors the Handbook of Professional Ethics for Psychologists is also an exceptional primary or supplementary reader for graduate students enrolled in courses on Ethics in Psychology and Ethics and Professional Concerns and for anyone considering the compatibility of science and morality Adolescent Encounters With Death, Bereavement, and Coping Charles Corr,David Balk,2009-03-16 Capturing from the start that Childhood is and always has been a vulnerable time we have a rich in gathering of contributed pieces that bring us into the raw fragile arena of children traumatized by life events and behaviors Illness Crisis and Loss Balk and Corr again have edited a book that will set the direction of the field for yet another decade Caregivers can count on this book for insight and intervention From the Foreword by Kenneth J Doka PhD Professor The Graduate School The College of New Rochelle Author Counseling Individuals With Life Threatening Illness Over a decade has passed since the publication of Balk and Corr s groundbreaking Handbook of Adolescent Death and Bereavement This new book Adolescent Encounters With Death Bereavement and Coping analyzes the challenges faced by adolescents coping with death dying and bereavement and examines the new unique circumstances and advances that have transpired over the last decade These include Grief and coping with HIV AIDS Adolescents humor and death Technology and the Internet coping with loss in the digital world Bereavement over the deaths of celebrities The book also explores critical imaginative conceptual frameworks and models that have emerged on the scene including The dual process model for understanding loss Ideas about assumptive worlds Debates about the benefit and harm of grief counseling New research on recovery and resilience following bereavement Written from the interdisciplinary perspectives of expert sociologists psychologists educators social workers nurses and anthropologists this book offers a breadth and depth of insight into the complex nature of adolescent bereavement Nurses counselors social workers and educators will find this book to be an invaluable resource when they try to understand and help adolescents coping with death related issues Children and Youth Speak for Themselves Heather Beth Johnson,2010-03-23 The volume is a collection of articles from scholars who pay particular attention to children and or adolescents voices interpretations perspectives and experiences within specific social and cultural contexts Contributions include research stemming from a broad spectrum of methodological and theoretical orientations **Researching Children's Experience** Sheila Greene,Diane Hogan,2005-01-13 Strongly recommended as it provides a very useful overview of a range of methods mainly textual for exploring children s experiences These accounts are placed well in the broader conceptual frameworks concerning both methodologies and ethical considerations Educational Review How should the researcher approach the sensitive subject of the child What are the ethical issues involved in researching children s experiences In essays written by a collection of key international authors Researching Children s Experience addresses these

questions and examines up to date methodological and conceptual approaches to researching children This book is a practical comprehensive and interdisciplinary guide for advanced students and researchers exploring a range of studies and the theoretical and ethical motivations behind them The book is divided into three coherent sections Conceptual methodological and ethical issues in researching children s experiences Methods for conducting research with children The generation and analysis of text Researching Children s Experience provides examples of how researchers from a variety of social science perspectives have set about carrying out research into children s experience Useful to students embarking on a research project and to experienced researchers wishing to explore new methods Greene and Hogan s book is an essential addition to anyone doing research on children It will be especially useful to those in developmental psychology education nursing and other disciplines interested in studying children s experience

Researching Resilience Michael Ungar,Linda Liebenberg,2009-01-01 Researching Resilience challenges this tendency to pathologize youth and marks a profound shift in research methods from the study of disorder to the study of well being

The Well-Being, Peer Cultures and Rights of Children Loretta E. Bass,David A. Kinney,2011-07-19 This volume is comprised of empirical research and theoretical papers about children s well being children and youth peer cultures and the rights of children and youth These empirical studies include children s voices and experiences from four continents and a range of methodological and theoretical orientations

Evidence-Based Psychotherapies for Children and Adolescents, Second Edition John R. Weisz,Alan E. Kazdin,2010-01-13 Widely regarded as a premier text and clinical resource this book presents exemplary treatment approaches for a broad range of social emotional and behavioral problems in children and adolescents Concise chapters from leading authorities describe the conceptual underpinnings of each therapy how interventions are delivered on a session by session basis and what the research shows about treatment effectiveness Contributors discuss recommended manuals and other clinical and training resources and provide details on how to obtain them

The Wiley Handbook on the Psychology of Violence Carlos A. Cuevas,Callie Marie

Rennison,2016-03-07 The Wiley Handbook on the Psychology of Violence features a collection of original readings from an international cast of experts that explore all major issues relating to the psychology of violence and aggressive behaviors Features original contributions from an interdisciplinary cast of scholars leading experts in their fields of study Includes the latest violence research and its implications for practice and policy Offers coverage of current issues relating to violence such as online violence and cybercriminal behavior Covers additional topics such as juvenile violence sexual violence family violence and various violence issues relating to underserved and or understudied populations *Ethical Issues in Community-based Research with Children and Youth* Bonnie J. Ross Leadbeater,Elizabeth Bannister,Cecilia Benoit,Anne Marshall,Mikael Jansson,Ted Riecken,2006-01-01 Efforts to apply ethical guidelines and regulations to vulnerable populations are often problematic Consequently health and social scientists sometimes shy away from the challenges of research particularly when it means addressing value laden social problems such as sexuality drugs and racism *Ethical Issues in Community Based Research with Children and Youth* is a collection of essays that describe the uniqueness of community based research outlining several of the ethical concerns that it engenders The contributors examine such issues as the scope of informed consent to multiple stakeholders determining competence to give consent in marginalized populations and managing dual roles as participant researchers The collection suggests that a more collaborative ongoing and discursive approach is needed by researchers and by ethical review boards to ensure that research on sensitive social problems with high risk populations is supported and also conducted with a clear understanding of the highest ethical standards possible *Innovative Approaches for Difficult-to-treat Populations* Scott W. Henggeler,1997 *Innovative Approaches for Difficult to Treat Populations* makes recommendations for developing and disseminating innovative mental health services It is geared toward clinicians administrators and policy makers struggling to develop both clinically effective and cost effective mental health and substance abuse services and it focuses on services for individuals who use the highest proportion of mental health resources and for whom traditional services have not been effective These target populations include youth with serious behavioral and emotional disturbances and adults with severe and persistent mental illnesses The innovative approaches reviewed include diverse treatment methods for differing clinical populations These varied approaches have several common elements Social ecological theory frameworks An emphasis on delivering flexible comprehensive pragmatic and goal oriented interventions in persons natural environments Increased accountability on the part of service providers The transition from centralized to community based care is discussed and normalizing a patient s daily routine as an important factor in the success of state of the art community support programs is emphasized *Innovative Approaches for Difficult to Treat Populations* offers mental health professionals and students a firsthand look at the future direction of clinical services Policy issues necessary to developing and disseminating progressive treatments are addressed including the downsizing of state psychiatric hospitals strategies for reforming state mental hospital systems and ethical issues in research

on child and adolescent mental disorders *The SAGE Handbook of Social Research Methods* Pertti Alasuutari, Leonard Bickman, Julia Brannen, 2008-02-25 The SAGE Handbook of Social Research Methods is a must for every social science researcher. It charts the new and evolving terrain of social research methodology covering qualitative, quantitative, and mixed methods in one volume. The Handbook includes chapters on each phase of the research process: research design, methods of data collection, and the processes of analyzing and interpreting data. The volume maintains that there is much more to research than learning skills and techniques; methodology involves the fit between theory, research questions, research design, and analysis. The book also includes several chapters that describe historical and current directions in social research, debating crucial subjects such as qualitative versus quantitative paradigms, how to judge the credibility of types of research, and the increasingly topical issue of research ethics. The Handbook serves as an invaluable resource for approaching research with an open mind. This volume maps the field of social research methods using an approach that will prove valuable for both students and researchers.

This is likewise one of the factors by obtaining the soft documents of this **Social Research On Children And Adolescents Ethical Issues** by online. Social Research On Children And Adolescents Ethical Issues Introduction

In today's digital age, the availability of Social Research On Children And Adolescents Ethical Issues books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Social Research On Children And Adolescents Ethical Issues books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Social Research On Children And Adolescents Ethical Issues books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Social Research On Children And Adolescents Ethical Issues versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Social Research On Children And Adolescents Ethical Issues books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Social Research On Children And Adolescents Ethical Issues books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain,

meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Social Research On Children And Adolescents Ethical Issues books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Social Research On Children And Adolescents Ethical Issues books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Social Research On Children And Adolescents Ethical Issues books and manuals for download and embark on your journey of knowledge?

FAQs About Social Research On Children And Adolescents Ethical Issues Books

1. Where can I buy Social Research On Children And Adolescents Ethical Issues books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
